REF: Compatible Format for Submission of Administrative Rules

To Whom It May Concern:

As publisher of the Illinois Administrative Code (Code) and Illinois Register (Register), the Office of the Secretary of State, Index Department, must, occasionally, make adjustments to the requirements for submission of rules for publication in the Register. Over the past year, the Joint Committee on Administrative Rules (JCAR) and the Legislative Information Systems (LIS) has developed a new (Microsoft Word XP) system to track and maintain their version of the Administrative Code and the Illinois Register. The Secretary of State also has begun utilizing Microsoft XP to process the Register and the Code. Therefore, effective January 1, 2003, Index Department will no longer accept submissions of entries for the Register from state agencies unless it is on a Microsoft Word format. Any information that cannot be developed in Microsoft Word due to special characters or mapping will need to be scanned by the agency and embedded into the document.

If you have any questions, please feel welcome to contact me.

Thank you,

INTRODUCTION

The Illinois Register is the official state document for publishing public notice of rulemaking activity initiated by State governmental agencies. The table of contents is arranged categorically by rulemaking activity and alphabetically by agency within each category. The Register will also contain the Cumulative Index and Sections Affected Indices will be printed on a quarterly basis. The printing schedule for the quarterly and annual indexes are the end of March, June, Sept, Dec.

Rulemaking activity consist of proposed or adopted new rules; amendments to or repealers of existing rules; and rules promulgated by emergency or peremptory action. Executive Orders and Proclamations issued by the Governor; notices of public information required by State statute; and activities (meeting agendas, Statements of Objection or Recommendation, etc.) of the Joint Committee on Administrative Rules (JCAR), a legislative oversight committee which monitors the rulemaking activities of State agencies; is also published in the Register.

The Register is a weekly update the Illinois Administrative code (a compilation of the rules adopted by State agencies). The most recent edition of the Code along with the Register comprise the most current accounting of State agencies' activities.

The Illinois Register is the property of the State of Illinois, granted by the authority of the Illinois Administrative Procedure Act [5ILCS 100/1-1 et seq.].

ATTORNEY GENERAL

NOTICE OF PROPOSED AMENDMENTS

1) **Heading of the Part:** Motor Vehicle Advertising

2) **Code Citation:** 14 Ill. Adm. Code 475

3) **Section Numbers:**

   - 475.110 Amendment
   - 475.330 Repeal
   - 475.420 Amendment
   - 475.530 Amendment
   - 475.560 New Section
   - 475.590 Amendment

4) **Statutory Authority:** Implementing Section 2, and authorized by Section 4, of the Consumer Fraud and Deceptive Business Practices Act [815 ILCS 505/2 and 4].

5) **A Complete Description of the Subjects and Issues Involved:** Part 475 describes practices in the advertising of motor vehicles for sale or lease that are considered by the Attorney General to constitute unfair or deceptive acts for purposes of the enforcement of Section 2 of the Consumer Fraud and Deceptive Business Practices Act [815 ILCS 505/2]. These amendments were developed over the last year in response to certain concerns regarding motor vehicle advertising practices, which arose subsequent to the most recent amendments to these regulations in March 2001. These concerns were voiced during regular meetings of law enforcement, industry, and trade group representatives at the Attorney General’s Auto Dealers Advisory Council. Specific changes are described below.

   With respect to general provisions, Section 475.110 is amended by adding definitions for “Limited Rebate” and “Shopped Area”. The definition for “Limited Rebate” is added to clarify Section 475.530 concerning rebates, and the definition for “Shopped Area” is added to clarify Section 475.560, a new regulation concerning shopped price.

   With respect to price advertising, the repeal of Section 475.330 eliminates the prohibition against advertising “low prices” or words of similar import. Section 475.420 is amended to require that dealers comply with the Federal Truth In Lending Act, 15 USC 1601, et seq., when advertising buy-down rates.

   With respect to other advertising practices, Section 475.530 is amended to broaden its applicability to the advertising of rebates in connection with leases and installment payment amounts, and to prohibit dealers from advertising a total rebate amount if a portion of that amount consists of a limited rebate. Section 475.560 is added to allow...

NOTICE OF PROPOSED AMENDMENTS

manufacturers to advertise a “shopped price” as an alternative to a manufacturer’s suggested retail price. The “shopped price” is determined through an independent survey of selling prices at dealerships within the shopped area. This new Section sets out certain criteria which must be met before a manufacturer can advertise a “shopped price”. Section 475.590 is amended to allow dealers to advertise or offer a free gift in connection with the purchase or lease of a vehicle, if the free gift is offered through a manufacturer’s program or a manufacturer’s authorized and approved dealer advertising association.

6) Will this rulemaking replace any emergency rulemaking currently in effect? No

7) Does this rulemaking contain an automatic repeal date? No

8) Does this rulemaking contain incorporations by reference? No

10) Statement of Statewide Policy Objective: Neither creates nor modifies a State mandate within the meaning of Section 3 (b) of the State Mandates Act [30 ILCS 805/3(b)].

11) Time, Place and Manner in which interested persons may comment on this proposed rulemaking: Comments may be submitted in writing throughout the first notice period to:

NOTICE OF PROPOSED AMENDMENTS

publication, dissemination, solicitation or circulation, in the course of "trade" and "commerce", as those terms are defined in this Section herein. Advertisement includes any statement or representation made in a newspaper, magazine, or other publication; or on radio or television; or appearing in any notice, handbill, sign, billboard, banner, poster, display, circular, pamphlet, letter, or other printed material; or contained in any window sticker or price tag.

"Buy-down rate" means a financing rate which, as a result of the dealer's advance payment of finance charges to a third party, is below the prevailing market financing rate.

"Clear and conspicuous" (including the terms "clearly" and "conspicuously") means that the statement, representation or term being conveyed is: in close proximity to the statement, representation or term it clarifies, modifies, explains, or to which it otherwise relates; readily noticeable; reasonably understandable by the person(s) to whom it is directed; and not contradictory to any terms it purports to clarify, modify or explain.

A statement, representation or term is not clear and conspicuous unless it shall:

For printed, written, typed or graphic advertisements:

employ abbreviations only if they are commonly understood by the public (e.g., abbreviations commonly understood – AC, AM/FM, AUTO, AIR, 2DR, CYL, MSRP, and e.g., abbreviations not commonly understood – WAC, PEG) or approved by federal or State law (e.g., terms allowed by the Federal Truth in Lending Act, 15 USC 1601, et seq., or the Consumer Leasing Act of 1976, 15 USC 1601, et seq., such as "APR");

be of sufficient prominence in terms of print, size and color contrast, as compared with the remainder of the advertisement, so as to be readily noticeable to the person(s) to whom it is directed.

be at a decibel level equal to the highest decibel level used in the advertisement; and

For required superimposed written copy ("super") in a television advertisement or advertisements in any other audio-visual medium:

the minimum height of supers should be:

- capital and lower case letters: 24 video scanlines;
- capital letters only: 18 video scanlines;

appear on the screen for a duration sufficient to allow a viewer to have a reasonable opportunity to read and understand the statement, representation or term.

It shall be a rebuttable presumption that the super is sufficient if the super meets the following on-screen minimum display time:

- three seconds for the first line of text; and
- one second for each additional line.

"Dealer" means a dealer as defined in the Illinois Vehicle Code and includes used car dealers, also as defined in the Vehicle Code therein (625 ILCS 5) (Ill. Rev. Stat. 1989, ch. 95 ½, pars. 1-100 et seq.).

"Executive vehicle" or "official vehicle" means a motor vehicle that has been driven exclusively by executives of the parent motor vehicle manufacturer's personnel or by an executive of an authorized dealer in the same make of car, as defined in the Illinois Consumer Fraud and Deceptive Business Practices Act [815 ILCS 505] (Ill. Rev. Stat. 1989, ch. 121 1/2, par. 262L(g)).

"Free" means without charge or cost, monetary or otherwise, to the recipient, and includes terms of essentially identical import, such as "give away." A free offer in conjunction with the sale or lease of goods or services is one that conveys to customers the message that the goods or services are offered at no cost in conjunction with the purchase of other goods or services for no more than their regular price.

"Leased vehicle" means a vehicle that has been driven for a specific period of time pursuant to a lease, as that term is defined in the Illinois Vehicle Code (Ill. Rev. Stat. 1989, ch. 95 1/2, pars. 1-100 et seq.).

3) Section Number: Proposed Action:
   1501.523  New Section

4) Statutory Authority: 110 ILCS 805/2-12

5) A Complete Description of the Subjects and Issues Involved: Legislation was passed in the spring of 1999 that allows community college foundations to request a State matching grant of $2 for every $3 received in local funds if appropriated funds become available. The Illinois Community College Board received an appropriation to disburse challenge grants to Illinois Community College Foundations during fiscal year 2002. However, the appropriation was subsequently reduced to zero in the November 2001 appropriation reductions. No funds are currently available and no funds were included in fiscal year 2003. 1501.523 Foundation Matching Grants

a) An eligible community college foundation, as referred to in this Section, is defined as a 501(c)(3) entity formed to benefit a community college district, students, and taxpayers of a community college district as provided for in the Public Community College Act and meets the criteria to receive an award as provided for in this Section. A foundation shall establish its eligibility by submitting a copy of its articles of incorporation (the first year of application only), a copy of its most recent signed federal 990 tax return, and a copy of the foundation's most recently completed external audit with the other components of an application.

b) Requests for foundation matching grant awards (referred to in this Section as challenge grants) must be submitted in a format prescribed by the ICCB no later than December 1 of each year.
c) Each community college foundation shall have the opportunity to apply for a $25,000 challenge grant. The award amount shall be prorated to a reduced amount if sufficient funds are not available in the State's Academic Improvement Trust Fund to provide an initial grant of $25,000 to those eligible foundations that submit an application no later than December 1.

d) In order to be eligible to receive a challenge grant, the community college foundation board must establish, as part of the application process, that the foundation board has:
   1) established an academic improvement trust fund as a depository for private contributions and awarded challenge grants;
   2) $3 of local match available (contributions received after July 1, 1999, for the purpose of matching the State challenge grants) for each $2 of State funds; and
   3) raised a minimum of $10,000 from private sources and the contributions must be in excess of the total average annual cash contributions made to the community college foundation in the three fiscal years before July 1, 1999 (fiscal years 1997, 1998, 1999).

e) Any unmatched excess funds remaining in the State's Academic Improvement Trust Fund, on April 1 of the fiscal year in which an appropriation is received, for community college foundations after the award of the initial $25,000 challenge grants will be available for matching by any community college foundation. No community college foundation will receive more than $100,000 in challenge grants in any one State fiscal year.

f) The community college foundation board is responsible for determining the use of the proceeds of the challenge grants and such uses may include:
   1) scientific equipment;
   2) professional development and training for faculty; and
   3) student scholarships and other activities appropriate to improving the quality of education at the community college. The community college foundation may not use the proceeds of the challenge grant for a capital campaign or program.

g) Each community college foundation receiving grant funds shall file a report with the ICCB in a format prescribed by the ICCB detailing how the funds were utilized within 60 days after the foundation's fiscal year end and submit a copy of the external audit of the fiscal year just ended as soon as it is completed.

15) **Summary and Purpose of the Amendments:** This rulemaking is explained in more detail in the Board’s opinion and order of October 17, 2002, in Docket R02-19, available from the address in item 16 below. The rulemaking was initiated by a proposal filed by the Illinois Association of Wastewater Agencies on January 17, 2002.

In summary, these amendments to 35 Ill. Adm. Code 302 modify the acute and chronic general use water quality standards from un-ionized ammonia to total ammonia nitrogen. The amendments also add a sub-chronic general use total ammonia nitrogen water quality standard. Additionally, the amendments repeal the rule allowing alternative standards for effluent modified waters. See also the companion amendments to Part 304 in this issue of the *Illinois Register*.

NOTICE OF ADOPTED AMENDMENTS

SUBPART A: GENERAL WATER QUALITY PROVISIONS

Section 302.100 Definitions

Unless otherwise specified, the definitions of the Environmental Protection Act (Act) [415 ILCS 5] (Ill. Rev. Stat. 1987 ch. 111 1/2, par. 1001 et seq.) and 35 Ill. Adm. Code 301 apply to this Part. As used in this Part, each of the following definitions has the specified meaning.

"Acute Toxicity" means the capacity of any substance or combination of substances to cause mortality or other adverse effects in an organism resulting from a single or short-term exposure to the substance.

"Adverse Effect" means any gross or overt effect on an organism, including but not limited to reversible histopathological damage, severe convulsions, irreversible functional impairment and lethality, as well as any non-overt effect on an organism resulting in functional impairment or pathological lesions which may affect the performance of the whole organism, or which reduces an organism's ability to respond to an additional challenge.

"Chronic Toxicity" means the capacity of any substance or combination of substances to cause injurious or debilitating effects in an organism which result from exposure for a time period representing a substantial portion of the natural life cycle of that organism, including but not limited to the growth phase, the reproductive phases or such critical portions of the natural life cycle of that organism.

"Criterion" means the numerical concentration of one or more toxic substances derived in accordance with the procedures in Subpart F of this Part which, if not exceeded, would assure compliance with the narrative toxicity standard of Section
"Early Life Stages" of fish means the pre-hatch embryonic period, the post-hatch free embryo or yolk-sac fry, and the larval period, during which the organism feeds. Juvenile fish, which are anatomically similar to adults, are not considered an early life stage.

"Hardness" means a water quality parameter or characteristic consisting of the sum of calcium and magnesium concentrations expressed in terms of equivalent milligrams per liter as calcium carbonate. Hardness is measured in accordance with methods specified in 40 CFR 136, incorporated by reference in 35 Ill. Adm. Code 301.106.

"Mixing Zone" means a portion of the waters of the State identified as a region within which mixing is allowed pursuant to Section 302.102(d) of this Part.

"Total Residual Chlorine" or "TRC" means those substances which include combined and uncombined forms of both chlorine and bromine and which are expressed, by convention, as an equivalent concentration of molecular chlorine. TRC is measured in accordance with methods specified in 40 CFR 136, incorporated by reference in 35 Ill. Adm. Code 301.106.

"Toxic substance" means a chemical substance that causes adverse effects in humans, or in aquatic or terrestrial animal or plant life. Toxic substances include, but are not limited to, those substances listed in 40 CFR 302.4, incorporated by reference in 35 Ill. Adm. Code 301.106, or any "chemical substance" as defined by the Illinois Chemical Safety Act [430 ILCS 45] (Ill. Rev. Stat. 1987, ch. 111 ½, pars. 951 et seq.)

"ZID" or "Zone of Initial Dilution" means a portion of a mixing zone, identified pursuant to Section 302.102(e) of this Part, within which acute toxicity standards need not be met.

SUBPART B: GENERAL USE WATER QUALITY STANDARDS

Section 302.212  Total Ammonia Nitrogen and Un-ionized Ammonia
POLLUTION CONTROL BOARD

NOTICE OF ADOPTED AMENDMENTS

a) Total ammonia nitrogen (as N: STORET Number 00610) must in no case exceed 15 mg/L.
b) The total un-ionized ammonia nitrogen (as N: STORET Number 0061000612) shall not exceed the acute, and chronic, and sub-chronic standards are determined by the equations given in subsections (b)(1) and (b)(2) of this Section below subject to the provisions of Section 302.208(a) and (b), and Section 302.213 of this Part. Attainment of each standard must be determined by subsections (c) and (d) of this Section in mg/L.

1) The acute standard (AS) is calculated using the following equation:

\[
\text{AS} = \frac{0.411}{1 + 10^{7.204 \cdot \text{pH}}} \pm \frac{58.4}{1 + 10^{6 \cdot \text{pH}-7.204}}
\]

From April through October, the Acute Standard (AS) shall be 0.33 mg/L and the Chronic Standard (CS) shall be 0.057 mg/L.

2) The chronic standard (CS) is calculated using the following equations:

A) During the Early Life Stage Present period, as defined in subsection (e) of this Section:
   i) When water temperature is less than or equal to 14.51°C:

\[
\text{CS} = \left\{ \frac{0.0577}{1 + 10^{7.688 \cdot \text{pH}}} \pm \frac{2.487}{1 + 10^{6 \cdot \text{pH}-7.688}} \right\} (2.85)
\]

   ii) When water temperature is above 14.51°C:

\[
\text{CS} = \left\{ \frac{0.0577}{1 + 10^{7.688 \cdot \text{pH}}} \pm \frac{2.487}{1 + 10^{6 \cdot \text{pH}-7.688}} \right\} (1.45 \times 10^{0.504(25-T)})
\]

Where T = water temperature, degrees Celsius

B) During the Early Life Stage Absent period, as defined in subsection (e) of this Section:

   i) When water temperature is less than or equal to 7°C:

\[
\text{CS} = \left\{ \frac{0.0577}{1 + 10^{7.688 \cdot \text{pH}}} \pm \frac{2.487}{1 + 10^{6 \cdot \text{pH}-7.688}} \right\} (1.45 \times 10^{0.028(25-T)})
\]

   ii) When water temperature is greater than 7°C:
POLLUTION CONTROL BOARD

NOTICE OF ADOPTED AMENDMENTS

\[
CS = \left\{ \frac{0.0577}{1 + 10^{7.688 \cdot pH}} + \frac{2.487}{1 + 10^{pH-7.688}} \right\} (1.45 \cdot 10^{0.028 \cdot (25-T)})
\]

Where \( T \) = Water Temperature, degrees Celsius

From November through March, the AS shall be 0.14 mg/L and the CS shall be 0.025 mg/L.

3) The sub-chronic standard is equal to 2.5 times the chronic standard.

Attainment of the Total Ammonia Nitrogen Water Quality Standards: For purposes of this Section, the concentration of un-ionized ammonia nitrogen as \( N \) and total ammonia nitrogen as \( N \) shall be computed according to the following equations:

1) The acute standard of total ammonia nitrogen (in mg/L) must not be exceeded at any time except in those waters for which the Agency has approved a ZID pursuant to Section 302.102.

2) The 30-day average concentration of total ammonia nitrogen (in mg/L) must not exceed the chronic standard (CS) except in those waters in which mixing is allowed pursuant to Section 302.102 of this Part. Attainment of the chronic standard (CS) is evaluated pursuant to subsection (d) of this Section by averaging at least four samples collected at weekly intervals or at other sampling intervals that statistically represent a 30-day sampling period. The samples must be collected in a manner that assures a representative sampling period.

3) The 4-day average concentration of total ammonia nitrogen (in mg/L) must not exceed the sub-chronic standard except in those waters in which mixing is allowed pursuant to Section 302.102. Attainment of the sub-chronic standard is evaluated pursuant to subsection (d) of this Section by averaging the daily sample results collected over a period of four consecutive days within the 30-day averaging period. The samples must be collected in a manner that assures a representative sampling period.

\[
U = \frac{N}{0.94412(1 + 10^X) + 0.0559}
\]

and \( N = U \cdot 0.94412(1 + 10^X) + 0.0559 \)

where: \( X = 0.09018 + \frac{2729.92}{(T+273.16)} - pH \)

\( U \) = Concentration of un-ionized ammonia as \( N \) in mg/L

\( N \) = Concentration of ammonia nitrogen as \( N \) in mg/L
### POLLUTION CONTROL BOARD

#### NOTICE OF ADOPTED AMENDMENTS

\[ T = \text{Temperature in degrees Celsius} \]

The water quality standard for each water body must be calculated based on the temperature and pH of the water body measured at the time of each ammonia sample. The concentration of total ammonia in each sample must be divided by the calculated water quality standard for the sample to determine a quotient. The water quality standard is attained if the mean of the sample quotients is less than or equal to one for the duration of the averaging period. The following tables indicate the maximum total ammonia nitrogen concentrations (mg/L as N) allowable pursuant to subsections (a) and (b) of this Section for certain combinations of pH and temperature:

4) Winter (November through March) Chronic un-ionized ammonia 0.025 mg/L

The Early Life Stage Present period occurs from March through October. In addition, during any other period when early life stages are present, and where the water quality standard does not provide adequate protection for these organisms, the water body must meet the Early Life Stage Present water quality standard. All other periods are subject to the Early Life Stage Absent period.

BOARD NOTE: Acute and chronic standard concentrations for total ammonia nitrogen (in mg/L) for different combination of pH and temperature are shown in Appendix C.

(Source: Amended at 26 Ill. Reg. 16931, effective Nov 8, 2002)

Section 302.213 Effluent Modified Waters (Ammonia) (Repealed)

a) Effluent modified waters are those waters or portions of waters that the Agency has determined, pursuant to 35 Ill. Adm. Code 309, Subpart A, to have the potential to exceed, and are therefore not subject to, the chronic ammonia standards of Section 302.212(b) downstream of an effluent outfall and outside of any allowable mixing zone. The Agency shall not identify a waterbody as an effluent modified water if it:

1) has uses known to be adversely impacted by ammonia as designated under 35 Ill. Adm. Code 303.201 outside of any allowable mixing zone; or

2) exceeds the acute standard of Section 302.212(b) of this Part.

b) All effluent discharges to an effluent modified water must meet the requirements of 35 Ill. Adm. Code 304.122(d) prior to dilution with the receiving water.

notice of adopted amendment

BOARD NOTE: This Part implements the Illinois Environmental Protection Act of July 1, 1994.

subpart a: general effluent standards

section 304.122 total ammonia nitrogen (as N: STORET number 00610)

a) No effluent from any source which discharges to the Illinois River, the Des Plaines River downstream of its confluence with the Chicago River System or the Calumet River System, and whose untreated waste load is 50,000 or more population equivalents shall contain more than 2.5 mg/L of total ammonia nitrogen as N during the months of April through October, or 4 mg/L at other times.

b) Sources discharging to any of the above waters and whose untreated waste load cannot be computed on a population equivalent basis comparable to that used for municipal waste treatment plants and whose total ammonia nitrogen as N discharge exceeds 45.4 kg/day (100 pounds per day) shall not discharge an effluent of more than 3.0 mg/L of total ammonia nitrogen as N.

c) In addition to the effluent standards set forth in subsections (a) and (b) of this Section, all sources are subject to Section 304.105 unless the Agency determines as part of the NPDES Permit Program under 35 Ill. Adm. Code 309: Subpart A.
that alternate effluent standards are applicable pursuant to subsection (d) of this Section.

\[ d) \]

All dischargers to effluent modified waters as defined at 35 Ill. Adm. Code 302.213, except for treatment works qualifying under Section 304.120(c), shall have an effective NPDES permit with monthly average effluent limits of 1.5 mg/L total ammonia as N during the months of April through October, and 4.0 mg/L total ammonia as N at other times, as well as the following restrictions:

1) Dischargers achieving lower ammonia concentrations than given above, yet not meeting the chronic water quality standards of 35 Ill. Adm. Code 302.212(b), shall maintain their existing level of performance consistent with the facility's expected organic and hydraulic loadings for the duration of their NPDES permit.

2) New or expanded discharges that increase ammonia loading to general use waters and/or create effluent modified waters or portions of waters must demonstrate compliance to the Agency with the nondegradation requirements at 35 Ill. Adm. Code 302.105.

The continuing education required as a condition for license renewal under the Architecture Practice Act is set forth in this Section. All architects shall meet these requirements.

a) Beginning with the November 30, 2004 renewal (for the period from December 1, 2002 through November 30, 2004) and every renewal thereafter, in addition to other requirements, an architect must have acquired continuing education for each 24-month period since the architect's last renewal of licensure, or be exempt from the continuing education requirements, as provided in subsection (h). Failure to comply with these requirements may result in non-renewal of the architect's license or other disciplinary action, or both.

b) Renewal Period: Within any 24-month biennial renewal period during which 24 contact hours must be acquired, at least 16 contact hours must be public protection subjects, which are relevant to safeguarding public health, safety and welfare, and acquired in structured educational activities. Such contact hours shall not be used again for the next renewal.

b) Determination of Reasonable Cost.

1) For contracts executed and in effect prior to July 1, 2002, the Department will determine the reasonable cost of covered prescription drugs for which reimbursement will be made to an authorized pharmacy in an amount equal to:

A) the lesser of:

   iA) the Average Wholesale Price (AWP) for the covered prescription drug minus 10%, based on the National Drug Code (NDC) number for the original package size from which such drug was dispensed (AWP is determined by the most recent monthly publication Price Alert, First DataBank, 1111 Bayhill Dr., San Bruno CA 94066, the

electronic successor to the Blue Book); or

iiB) the Maximum Acquisition Cost (MAC) for the covered prescription drug based on MAC list for this program (MAC is determined by the Department's claims processing vendor); plus

B2) the professional dispensing fee; less

C3) any applicable co-payments, deductibles, and ancillary charges.

[320 ILCS 25/3.16]

2) For contracts executed and in effect on or after July 1, 2002, as subject to periodic review, the Department will determine the rate for the reasonable cost of covered prescription drugs for which payment will be made to an authorized pharmacy in an amount equal to:

A) the lesser of:

i) the Average Wholesale Price (AWP) for the covered prescription drug minus 14%, based on the National Drug Code (NDC) number for the original package size from which such drug was dispensed (AWP is determined by the most current information provided by drug pricing services such as First DataBank or other source nationally recognized in the retail prescription drug industry selected by the Department's claims processing vendor); or

ii) the Maximum Allowable Cost (MAC) for the covered prescription drug, based on the MAC list for this program (MAC is determined by the Department's claims processing vendor); or

iii) the usual and customary cost for the covered prescription drug; plus

C) any applicable co-payments, deductibles, and ancillary charges.

c) Professional Dispensing Fee.

1) For contracts executed and in effect prior to July 1, 2002, on an annual basis, the Department shall conduct a survey to determine the professional dispensing fee to be charged by authorized pharmacies.

Aa) The survey will consist of a broad rate analysis of other similar private and governmental pharmaceutical assistance programs, including organizations within and outside Illinois. The survey will be conducted as follows:

ia) The Department will contact those other states that have pharmaceutical assistance programs similar to this program and obtain information concerning current dispensing fees
DEPARTMENT OF REVENUE

as well as information on any plans to modify the fees within the next 12 months.

iiB) The Department will contact private sector businesses with similar programs and obtain fee information from those businesses.

iiiC) The Department will contact the Illinois Department of Public Aid and the public aid departments of the surrounding states to obtain fee rates under the various Medicaid programs.

B2) The results of the broad rate analysis will then be evaluated by the Department to determine an appropriate professional dispensing fee for which an authorized pharmacy will be paid reimbursed. The professional dispensing fee so determined will be used in subsection (b) of this Section to determine reasonable cost.

C3) The professional dispensing fee shall be adjusted as of July 1 of each year in accordance with the results of the survey prescribed in this subsection (c).

2) For contracts executed and in effect on or after July 1, 2002, as subject to periodic review, the Department shall determine the professional dispensing fee to be charged by authorized pharmacies. The professional dispensing fee shall be in the amount of $2.55 per prescription.

e) Pharmacy's Cost of On-line Communications. Each authorized pharmacy participating in this program shall pay all costs, charges and fees incurred by the pharmacy that are related to on-line communication and the processing of claims or other information sent to or from the Department or the Department's claims processing vendor.

NOTICE OF REFUSAL TO MEET THE OBJECTION OF THE JOINT COMMITTEE ON ADMINISTRATIVE RULES

2) Code Citation: 68 Ill. Adm. Code 1150

3) Section Number: Action:
   1150.105 Refusal

4) Date Notice of Proposed Amendments Published in the Register: March 8, 2002, at 26 Ill. Reg. 3389

5) Date JCAR Statement of Objection Published in the Register: October 25, 2002, at 26 Ill. Reg. 15327

6) Summary of Action Taken by the Agency: Public Act 91-133, the sunset reauthorization of the Illinois Architecture Practice Act of 1989, included the addition of continuing education; these amendments implement this provision.

   JCAR objected to the above cited Section because it feels the rulemaking lacks standards for determining how DPR will approve an association or organization as a continuing education provider. However, these rules contain specific course content for acceptable CE courses so that the Department does not have to approve sponsors. This ensures quality CE course content while providing flexibility to licensees in obtaining acceptable CE. Moreover, this language was sought by the design professions and has already been adopted in the rules for land surveyors and structural engineers.

   In addition, JCAR recommended that in the future the Department abide by its statutory obligation to consult with the Board on a more timely basis concerning changes to rule language recommended by the Board. The Department will abide by procedures set forth in the Act in the future.

   DPR will adopt the amendments as submitted to JCAR at Second Notice.
