Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

- LAND: $28,221
- IMPR.: $60,070
- TOTAL: $88,291

Subject only to the State multiplier as applicable.
years; in size from 2,918 to 3,818 square feet of living area; and in improvement assessments from $13.22 to $16.28 per square foot of living area. Two of these properties contain a partial, unfinished basement and two fireplaces. Based upon this analysis, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted "Board of Review-Notes on Appeal" wherein the subject's improvement assessment was $60,070, or $16.72 per square feet of living area. The board also submitted copies of the property characteristic printouts for the subject as well as a total of three suggested comparables located within Subject's neighborhood. The board's properties contain a one-story, frame and masonry, single-family dwelling with two baths, and a partial basement with one finished. In addition, two properties contain air conditioning and two fireplaces. The improvements range: in age from 32 to 47 years; in size from 2,648 to 3,372 square feet of living area and in improvement assessments of $16.96 to $21.45 per square foot of living area. In addition, the board submitted copies of its file from the board of review's level appeal. As a result of its analysis, the board requested confirmation of the subject's assessment.

In rebuttal, the appellant's attorney submitted a letter arguing that the board of review's comparables were not as comparable to the subject as the appellant's.

After considering the evidence and reviewing the record, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of these appeals.

Appellants who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill. 2d 1, 544 N.E.2d 762 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. Proof of assessment inequity should include assessment data and documentation establishing the physical, locational, and jurisdictional similarities of the suggested comparables to the subject property. Property Tax Appeal Board Rule 1910.65(b). Mathematical equality in the assessment process is not required. A practical uniformity, rather than an absolute one is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill. 2d 395, 169 N.E.2d 769 (1960). Having considered the evidence presented, the PTAB concludes that the appellant has not met this burden and that a reduction is not warranted.

The parties presented assessment data on a total of six equity comparables. The PTAB finds the appellant's comparables #2 and #3
and the board of review's comparable #3 are the comparables most similar to the subject. These comparables contain a one-story, frame or frame masonry, single-family dwelling located within the subject's neighborhood. The improvements range: in age from 47 to 51 years; in size from 3,084 to 3,818 square feet of living area; and in improvement assessments from $13.22 to $16.96 per square foot of living area. In comparison, the subject's improvement assessment of $16.72 per square foot of living area falls within the range established by these comparables. The PTAB accorded less weight to the remaining comparables due to a disparity in size.

As a result of this analysis, the PTAB further finds that the appellant has not adequately demonstrated that the subject's improvement was inequitably assessed by clear and convincing evidence and that a reduction is not warranted.
