   - 2700.50  Amendment

4) **Statutory Authority:** Implementing the Higher Education Student Assistance Act [110 ILCS 947]; Title IV of the Higher Education Act of 1965, as amended (20 USCA 1070 et seq., as amended by P.L. 105-244); and authorized by Section 20(f) of the Higher Education Student Assistance Act [110 ILCS 947/20(f)].

5) **A Complete Description of the Subjects and Issues Involved:** ISAC annually reviews its rules in order to respond to market changes and client suggestions, to implement State and federal statutory amendments, to codify improvements due to technological advances, and to clarify issues that have arisen during the previous year. We also are continuing efforts to increase the level of standardization in procedures, format and terminology throughout our programmatic rules, in order to make them easier for our clients to use. In addition to making minor technical and grammatical changes throughout this Part, ISAC proposes the following substantive amendments:

A new Section 2700.40(m) has been added to clarify how the timeliness of an individual’s application will be determined when it has been submitted electronically. Section 2700.50(j) has been deleted to reflect statutory changes contained in Public Act 93-0812, which eliminates provisions exempting consideration of Bright Start Savings Accounts, College Illinois! contracts and college savings bonds proceeds in determining financial need for ISAC gift assistance programs.

6) **Will these proposed amendments replace any emergency amendments currently in effect?** No

7) **Does this rulemaking contain an automatic repeal date?** No
8) Do these proposed amendments contain incorporations by reference? No

Section 2700.30  General Institutional Eligibility Requirements
ILLINOIS STUDENT ASSISTANCE COMMISSION

NOTICE OF PROPOSED AMENDMENTS

a) ISAC Program Participation Agreement

1) All institutions shall execute an ISAC Program Participation Agreement in order to participate in ISAC gift assistance programs.

2) The ISAC Program Participation Agreement shall identify the ISAC programs under which the institution's students may receive benefits.

3) The ISAC Program Participation Agreement shall include provisions requiring institutions to comply with statutes, federal regulations and State rules.

4) The ISAC Program Participation Agreement may be modified or terminated in accordance with 23 Ill. Adm. Code 2790, Limitation, Suspension or Termination Proceedings.

b) With respect to ISAC student assistance programs, institutions shall develop and maintain procedures to verify the consistency and accuracy of information received from their enrolled recipients.

c) Institutions shall be subject to possible limitation, suspension or termination of eligibility for failure to comply with statutes, regulations, rules or procedures and for failure to maintain the standards required by this Section for initial participation. (See 23 Ill. Adm. Code 2790.)

d) Postsecondary institutions which participate in gift assistance programs shall annually submit to ISAC a copy of their tuition refund policy. Such submissions shall not be considered ISAC approval of such policies.

e) Postsecondary institutions which participate in gift assistance programs shall annually report their tuition and fee charges, as well as initial MAP advance payment requests, to ISAC on or before June 1 preceding each academic year.

1) Failure to report any cost changes by the deadline will cause the prior year's charges to be used as part of the calculation process for gift assistance benefits. Failure to report the assessment of a fee charge by the deadline will result in that fee charge being ineligible for payment under ISAC gift assistance programs.
ILLINOIS STUDENT ASSISTANCE COMMISSION

NOTICE OF PROPOSED AMENDMENTS

2) The report shall match specific fee charges with the gift assistance programs which may finance the fee. Such categorizations by the institution shall not be considered ISAC approval.

3) The Illinois National Guard Grant and the Illinois Veteran Grant (IVG) Programs may finance only a portion of certain fee charges. (See 23 Ill. Adm. Code 2730.10(c) and 2733.20(f).)

   A) Example: One fee finances both tuition and textbook expenses. Only the portion of the fee which is attributable to tuition expenses may be financed with program benefits.

   B) Institutions with such a fee shall certify what percentage of the fee is eligible to be financed with program benefits. Certification shall be performed by the institution's chief fiscal officer.

f) Institutions shall submit additional reports, data and information to ISAC as may be requested. These inquiries include, but are not limited to, surveys, enrollment confirmations and evaluation instruments.

g) Additional institutional eligibility requirements are contained in subsequent Parts of ISAC's rules.

h) Postsecondary institutions may apply to participate in ISAC-guaranteed loan programs in accordance with 23 Ill. Adm. Code 2720.

i) Postsecondary institutions may apply to participate in ISAC gift assistance programs in accordance with this subsection.

   1) The Commission approves participation in ISAC gift assistance programs for an institution rather than for specific academic programs within an institution.

   2) Prior to applying for participation in ISAC gift assistance programs, the institutional applicant must have authority to operate a postsecondary institution in Illinois. (See 23 Ill. Adm. Code 1030.)

   3) Institutional applicants that are fully accredited by the North Central...
ILLINOIS STUDENT ASSISTANCE COMMISSION

NOTICE OF PROPOSED AMENDMENTS

Association of Colleges and Schools Higher Learning Commission and have degree-granting authority may be approved to participate in ISAC gift assistance programs provided the institution meets and maintains the requirements of subsections (i)(4)(C) and (D) below.

4) Public or private not for profit institutional applicants that do not meet the requirements of subsection (i)(3) above may be approved to participate in ISAC gift assistance programs if the institution has:

   A) obtained candidate status for North Central accreditation.
   
   B) applied for and is seeking degree-granting authority.
   
   C) obtained at least three letters indicating the transferability of academic credit from the applicant institution to other institutions. The letters must be from institutions which are approved to participate in the Monetary Award Program (MAP) and are accredited by the North Central Association of Colleges and Schools Higher Learning Commission.
   
   D) an adequate number of qualified persons to administer their responsibilities under ISAC’s rules. In determining whether an institution employs an adequate number of qualified persons, the Commission considers the number of students aided, the number of programs in which the institution participates, the number of applications evaluated, the amount of funds administered, and the financial aid delivery system used by the institution.

5) Institutional applicants must also supply ISAC with audited financial statements, prepared by an independent third party in accordance with generally accepted accounting principles, to establish financial responsibility. (See, e.g., 34 CFR 668.15.)

6) Once approved to participate in ISAC gift assistance programs by the Commission, an institution shall receive provisional eligibility for a minimum of five academic years. An institution with provisional eligibility must petition the Commission for full eligibility. Full eligibility will be granted if the institution meets the requirements of subsection (i)(3) above and if there are no outstanding audit exceptions.
j) As a condition of eligibility for participation in ISAC student assistance programs, postsecondary institutions shall have a valid Program Participation Agreement with ED (see Section 487 of the Higher Education Act of 1965, as amended (20 USCA 1094)) and shall report their Office of Postsecondary Education Identification (OPE-ID) number to ISAC.

k) In order to begin and to continue participation in ISAC-administered student assistance programs, institutions must also demonstrate administrative capability and financial responsibility, as defined by federal regulations. (See, e.g., 34 CFR 668.15 & 668.16.) An institution's failure to meet and maintain those standards can lead to limitation, suspension or termination proceedings. (See 23 Ill. Adm. Code 2790.)

l) Institutions that have been assigned multiple main OPE-ID numbers will be considered separate entities by ISAC. Different campus codes associated with the same main OPE-ID number will not be considered separate entities.

m) An institution shall notify ISAC of its Federal Employer Identification Number (FEIN) in order to receive payment pursuant to any ISAC-administered program.

n) When an approved institution has a change of ownership resulting in a change of control, a change of location, or a change of name as defined by federal regulations, the institution's Program Participation Agreement with ED may be terminated. After an institution has undergone a change of status affecting its participation in any Title IV federal student financial aid programs, the institution may have its eligibility with ISAC reinstated by the execution of a new Program Participation Agreement with ED (see, e.g., 34 CFR 600.30 et seq.) and by the submission and approval of a new application for participation with ISAC.

1) Eligibility for guaranteed loans may be reinstated in accordance with
ILLINOIS STUDENT ASSISTANCE COMMISSION

NOTICE OF PROPOSED AMENDMENTS

federal regulations and the following provisions:

A) Eligibility for ISAC-guaranteed loans will be reinstated when:
   
   i) the debt has been paid in full;

   ii) the borrower has made a "satisfactory repayment arrangement," in accordance with 34 CFR 682.200;

   iii) the borrower's prior defaulted loan has been rehabilitated, in accordance with 34 CFR 682.405; or

   iv) the borrower has made payments on a defaulted loan to consolidate that loan in accordance with 34 CFR 682.201.

B) Borrowers are eligible to use subsection (a)(1)(A)(ii) above only one time.

C) Eligibility for ISAC-administered gift assistance will be reinstated for current and future terms when the applicant has maintained a satisfactory repayment record for at least six consecutive months or has met the requirements of subsection (a)(1)(A) above. Factors to be considered by ISAC in evaluating the repayment record include: the amount of the debt, the amount of the payments received by ISAC, the employment status of the applicant, and the frequency of the applicant's contact with ISAC.

2) A qualified applicant for Illinois Veteran Grant (IVG) assistance (23 Ill. Adm. Code 2733) shall be permitted one term of assistance during which a satisfactory repayment record, as defined by subsection (a)(1)(C) above, must be established. If such a repayment record is not established, additional assistance shall be denied until a satisfactory repayment record is established.

b) No applicant shall receive ISAC-administered assistance if the applicant owes a refund for any ISAC-administered gift assistance, a Federal Pell Grant, or a Federal Supplemental Educational Opportunity Grant (FSEOG) (20 USCA 1070(b)).
c) An applicant shall, upon request, provide documentation to establish and verify eligibility. (See Section 2700.50.) Failure to supply adequate documentation will result in the denial of student assistance benefits.

d) An applicant who has received financial assistance based on fraudulent data shall be denied ISAC-administered assistance until full restitution has been made to ISAC for any fraudulently-obtained funds, and may also be subject to prosecution by the Illinois Attorney General, United States Department of Justice and/or an Illinois State's Attorney.

e) Each applicant must submit his/her Social Security Number (SSN).

f) Recipients who cease to be residents of Illinois after notification of eligibility may complete the academic year with the assistance awarded.

g) Unless otherwise provided, benefits under gift assistance programs are subject to the limits of dollars appropriated to ISAC by the Illinois General Assembly and approved by the Governor. If funding is available, assistance for summer terms or for attendance on a less than half-time basis shall be awarded separately.

h) When gift assistance eligibility is limited to a specified number of term payments, the eligibility cap is calculated in accordance with this subsection.

1) For each semester term of full-time payment benefits, the recipient is assessed six eligibility units. For each quarter term of full-time payment benefits, the recipient is assessed four eligibility units.

2) For each semester term of half-time payment benefits, the recipient is assessed three eligibility units. For each quarter term of half-time payment benefits, the recipient is assessed two eligibility units.

3) For each semester or quarter term of less than half-time payment benefits, the recipient is assessed one eligibility unit.

4) Sixty eligibility units are the equivalent of payments for ten semesters/fifteen quarters of full-time benefits.

5) Forty-eight eligibility units are the equivalent of payments for eight semesters/twelve quarters of full-time benefits.
ILLINOIS STUDENT ASSISTANCE COMMISSION

NOTICE OF PROPOSED AMENDMENTS

i) An applicant shall comply with Selective Service registration requirements, pursuant to 34 CFR 668.31 et seq.

j) Except for grants pursuant to 23 Ill. Adm. Code 2730 (Illinois National Guard Grant Program) and 23 Ill. Adm. Code 2733 (Illinois Veteran Grant Program), an applicant must be maintaining satisfactory academic progress in accordance with the institution's policy.

k) Except for grants pursuant to 23 Ill. Adm. Code 2730 (Illinois National Guard Grant Program) and 23 Ill. Adm. Code 2733 (Illinois Veteran Grant Program), ISAC gift assistance benefits for courses utilizing distance education are limited to students enrolled in eligible degree or certificate programs who are eligible to receive Title IV, HEA program funds. (See 34 CFR 668.38.)

l) Except for grants pursuant to 23 Ill. Adm. Code 2730 (Illinois National Guard Grant Program) and 23 Ill. Adm. Code 2733 (Illinois Veteran Grant Program), students enrolled in academic programs while incarcerated are ineligible for ISAC gift assistance benefits.

m) For the purpose of determining the timeliness of an individual's application, the postmark date of an application submitted electronically shall be the date on which ISAC receives that individual's submission of complete application data.

(Source: Amended at 29 Ill. Reg. ______, effective ____________)

Section 2700.50 Determining Applicant Eligibility

a) The evaluation of applicant eligibility is the responsibility of both the institution and ISAC.

b) No applicant is announced eligible for assistance by ISAC unless the application establishes prima facie eligibility. ISAC consults with other appropriate state and federal agencies in the process of reviewing application data. Such agencies include, but are not limited to, the U.S. Department of Education (ED), U.S. Internal Revenue Service (IRS), U.S. Citizenship and Immigration Services Bureau (USCIS) and Naturalization Service (INS), Illinois Department of Public Aid, Illinois Department of Revenue, and Illinois Department of Children and Family Services.
ILLINOIS STUDENT ASSISTANCE COMMISSION

NOTICE OF PROPOSED AMENDMENTS

c) When requesting payment for ISAC gift assistance programs, the postsecondary institution must certify that the applicants are eligible for the assistance. If an institution subsequently determines a student is no longer eligible for all or part of the awarded assistance, the institution must inform ISAC and submit the appropriate refund within 60 days after the receipt of payment or the end of a term, whichever is later.

d) When requesting payment of benefits, institutions shall certify (in accordance with ISAC's rules and/or federal regulations) whether an applicant is eligible based upon enrollment in a particular academic program.

e) If an institution erroneously certifies an applicant to be eligible for ISAC gift assistance programs, ISAC will recover the erroneous payment from the institution. Any student who obtained ISAC-administered funds by submitting inaccurate information to an institution must tender restitution to the institution to be eligible for ISAC assistance at that institution.

f) If an applicant is selected for verification in conjunction with federal student assistance, that applicant shall also be verified for ISAC-administered programs. A selected applicant must be verified for ISAC programs even if the applicant is ineligible for federal student assistance.

g) Because ED verification procedures do not include procedures for verifying a student as a resident of Illinois, the following provisions shall be followed by the institution.

1) Notwithstanding the requirements of subsection (g)(2) below, residency verification shall not be required for students who received payment of a MAP award during the previous academic year.

2) Residency status shall be verified for each applicant who is selected for verification and meets one of the following criteria:

A) the applicant has changed dependency status and has become an independent student; or

B) the applicant has not been enrolled in an ISAC-approved MAP institution or an ISAC-approved Illinois high school (see Section
3) Residency status shall be verified if the institution has any information which indicates the applicant may not be a resident of Illinois.

4) Data from one or more of the documents listed below may provide proof that an applicant (or parent) is an Illinois resident, as defined in Section 2700.20. For an independent student applicant, the dates recorded on the documents must indicate the applicant has resided in Illinois for the relevant twelve continuous, full months.

A) A valid State or federal income tax return
B) Illinois high school or college transcript
C) Illinois driver's license
D) Utility or rent bills in the applicant's (or parent's) name
E) Illinois auto registration card
F) Residential lease in the applicant's (or parent's) name
G) Wage and tax statements (IRS Form W-2)
H) Statement of benefits history from the Illinois Department of Public Aid
I) State of Illinois identification card issued by the Secretary of State
J) Statement of benefits from the Illinois Department of Employment Security
K) Statement of benefits from the Social Security Administration
L) Illinois voter's registration card
M) Property tax bill.
ILLINOIS STUDENT ASSISTANCE COMMISSION

NOTICE OF PROPOSED AMENDMENTS

5) If an applicant is a resident of Illinois, but the institution cannot document this fact in accordance with subsection (g)(2) above, the applicant or the institution may verify residency through ISAC's appeal process. (See Section 2700.70.)

h) Institutions may request first term payment even though verification is not yet complete. If, after verification, an ISAC payment adjustment is appropriate, institutions must submit the appropriate refund. If verification is not completed within 60 days after the conclusion of the regular school year, the institution shall return the first term payment to ISAC. For other than the first term of eligibility in an academic year, the verification process must be completed before the institution may request payment.

i) When an institution adjusts an applicant's eligibility pursuant to Title IV, Part F, of the Higher Education Act of 1965, as amended (20 USCA 1087kk et seq.), the institution shall retain documentation which demonstrates the appropriateness of such adjustment.

j) Neither prepaid tuition benefits payable to a qualified beneficiary under College Illinois! (23 Ill. Adm. Code 2775) nor contributions to the College Savings Pool [15 ILCS 505/16.5] shall be considered in determining the eligibility of that beneficiary as an applicant for any ISAC gift assistance program.

   2) **have been active in the Illinois National Guard for at least five consecutive years and had his or her studies interrupted by being called to federal active duty for at least six months, and be within the 12 month period immediately following his or her discharge from the Illinois National Guard.**

c) Eligibility is available to any such enlisted person or company grade officer, including warrant officers, first and second lieutenants, and captains in the Army and Air National Guard, except for those persons who are members of the inactive Illinois National Guard.

e) Changes of address, name, status with the Illinois National Guard or institution of attendance must be reported in writing to ISAC.

Section 2730.30 Program Procedures

a) The recipient is exempt from paying the following:

   1) tuition;

   2) registration fees;
3) graduation fees; and
4) general activity fees.

b) The recipient is responsible for payment of other fees, including the following:
1) book rental fees;
2) laboratory and supply fees;
3) air flight fees;
4) hospital and health insurance fees;
5) room and board;
6) parking fees;
7) student union fees;
8) athletic fees; and
9) proficiency or placement exams and other similar fees.

c) Benefits are applicable to both undergraduate and graduate enrollment. There is no minimum credit-hour enrollment requirement. Benefits are applicable for noncredit courses.

d) Benefits may be used at Illinois public senior universities and at any Illinois public community college.

e) Within the constraints of appropriation levels, two semester or three quarter term payments and one summer term payment are made directly to the institution after it officially certifies to ISAC that the applicant has registered and is attending classes. No seminars or other special terms are covered under the grant. Summer term is considered the final term of the academic and fiscal year.

f) Recipients are entitled to receive benefits for the equivalent of eight
NOTICE OF PROPOSED AMENDMENTS

1) To determine the amount of eligibility a recipient has used, credit hours (and noncredit hours for which benefits are used) will be converted to "eligibility units" according to the following chart:

<table>
<thead>
<tr>
<th>Number of Hours</th>
<th>Semester School</th>
<th>Quarter-School</th>
</tr>
</thead>
<tbody>
<tr>
<td>12 or more hours</td>
<td>12 units</td>

<td>9 units</td>
<td>6 units</td>
</tr>
<tr>

<tr>

<td>3 units</td>
<td>2 units</td>
</tr>
<tr>
<td>0 - 2.99 hours</td>

</tr>
</tbody>
</table>

2) Recipients may continue to reapply and accumulate up to 96 units, after which point eligibility for program benefits will cease. However, full program benefits may be extended for one additional term if the recipient has accumulated fewer than 96 eligibility units but does not have enough units remaining for the number of hours in which she/he is enrolled for the term.

3) If an eligible recipient withdraws from enrollment after the expiration of the tuition refund/withdrawal adjustment period, the recipient shall receive a grant for costs incurred up to the term award provided the institution's tuition refund policy indicates the recipient has incurred charges in the amount of the claim.

4) In the event that the recipient withdraws from a course or courses prior to the end of a term, eligibility units will be assessed in proportion to the total dollars that are paid. If the recipient has had any portion of his/her tuition and fees paid, at least one eligibility unit will be charged to the recipient.

Example: A recipient is enrolled for twelve semester hours at a cost of $600. The recipient withdraws from enrollment and incurs expenses of $300 in accordance with the institution's tuition refund policy. The recipient would use six eligibility units and would receive $300 in benefits.
5) The eligibility units used for a noncredit course shall be the same as the number of eligibility units used for a credit course having the same number of total faculty contact hours.

g) If a current year applicant is discharged, transferred to the inactive Illinois National Guard, or has membership extended by the Illinois National Guard, ISAC will send a revised eligibility letter or ineligibility letter to the applicant. In the case of discharge, a copy of the letter will be sent to the institution of record.

h) Except as otherwise provided in this Part, if a recipient ceases to be an active status member of the Illinois National Guard during a term, benefits cease, and the student is responsible for the unpaid costs attributed to the remainder of the term. If an applicant becomes eligible during a term, in accordance with Section 2730.20(b), benefits will be prorated for that portion of the term for which the applicant is eligible, provided the application is submitted by the deadlines. Costs are prorated on the basis of the institution's scheduled days of instruction minus institutionally scheduled holidays and examination periods.

Calculation: Total tuition cost divided by total instructional days = cost per day x days of eligibility = total proration.

i) If the recipient of a grant awarded under this Part ceases to be a member of the Illinois National Guard, but has been active in the Illinois National Guard for at least five consecutive years and had his or her studies interrupted by being called to federal active duty for at least six months, then that recipient shall continue to be eligible for a grant for one year after his or her discharge from the Illinois National Guard, provided that the recipient has not already received the exemption from tuition and fees for the equivalent of four years of full-time enrollment under this Part.

j) Out-of-state residents will receive tuition and applicable fee benefits equivalent to those received by in-state residents at the Illinois institution; recipients attending out-of-district community colleges will receive tuition and applicable fee benefits equivalent to those at the in-district rate. Recipients shall not be responsible for paying the difference between in-state and out-of-state tuition nor will they be responsible for paying the difference between in-district and out-of-district tuition.
If a student is eligible for both an Illinois National Guard Grant and a MAP grant, the Illinois National Guard benefits must be used first. A student cannot decline an Illinois National Guard Grant in favor of using MAP.

5) A Complete Description of the Subjects and Issues Involved: ISAC annually reviews its rules in order to respond to market changes and client suggestions, to implement State and federal statutory amendments, to codify improvements due to technological advances, and to clarify issues that have arisen during the previous year. We also are continuing efforts to increase the level of standardization in procedures, format and terminology throughout our programmatic rules, in order to make them easier for our clients to use. In addition to making minor technical and grammatical changes throughout this Part, ISAC proposes the following substantive amendments:

   Section 2733.20(i)(3) is being modified in order to simplify the documentation required when the applicant is a member of the Armed Forces at the time of application, by eliminating the need to submit copies of various enlistment contracts and extensions. Section 2733.40(b) is being amended to clarify the appropriate documentation that is to be relied upon by the institution in establishing a qualified applicant's initial eligibility. The scope of the school certification required in Section 2733.40(c) is being narrowed to just the requirement for the applicant to maintain an acceptable grade point average, since that is the only eligibility criterion for which the school bears the primary responsibility for monitoring and certification.

Section 2735.20 Applicant Eligibility

a) A qualified applicant shall be:
ILLINOIS STUDENT ASSISTANCE COMMISSION

NOTICE OF PROPOSED AMENDMENTS

1) a citizen or eligible noncitizen;

2) a resident of Illinois;

3) maintaining satisfactory academic progress as determined by the institution;

4) enrolled in an eligible degree or certificate program (34 CFR 668.8) for a minimum of three credit hours, for either a semester or quarter term, throughout the institution's tuition refund/withdrawal adjustment period; and

5) enrolled at an ISAC-approved institution of higher learning.

b) MAP grant eligibility is based on the relative financial eligibility at an ISAC-approved institution of higher learning of the applicant's choice, and is reevaluated if the student's choice of institution changes.

c) Eligibility is restricted to undergraduate students.

1) MAP recipients must not have received a baccalaureate degree.

2) Graduate students are not eligible for MAP assistance. For purposes of this Part, an institution of higher learning shall classify as a "graduate student" any student who:

A) is enrolled in an academic program or course above the baccalaureate level which leads to any degree above the baccalaureate level; and

B) is not eligible to receive federal financial assistance (34 CFR 674.2, 675.2, 676.2) as an undergraduate student; and

C) has completed the equivalent of at least three years of full-time postsecondary study, either prior to entrance into the academic program or as part of the academic program itself.

d) If funding is available, assistance for summer terms shall be awarded separately.

(Source: Amended at 29 Ill. Reg. ______, effective ___________)
Section 2735.40 Institutional Procedures

a) MAP recipients must report to the institution all additional gift assistance that applies toward tuition and mandatory fees, such as tuition waivers and scholarships.

b) If a MAP recipient receives other assistance targeted specifically for tuition and fees, the combined assistance shall not exceed the total tuition and fee expenses incurred.

c) If an applicant is eligible for assistance under the Illinois National Guard (ING) Grant Program or the Illinois Veteran Grant (IVG) Program (23 Ill. Adm. Code 2730 and 2733), the applicant is not eligible for a full MAP grant because ING and IVG must be factored into the financial aid packaging prior to awarding MAP gift assistance. The institution may request payment of a partial MAP grant to finance fee expenses not covered by the above-referenced programs.

d) If an applicant is eligible to receive tuition or fee benefits through a prepaid or reimbursable tuition plan other than the Illinois Prepaid Tuition Program, College Illinois! (23 Ill. Adm. Code 2775), or through a payment to the institution of higher learning by the applicant's employer, the institution of higher learning shall request MAP payment in accordance with this subsection:

1) A prepaid tuition plan is any program which exempts a student from tuition charges because of a payment to the institution at a time prior to the student's enrollment. A reimbursable tuition plan is a program which reimburses a student for tuition costs after satisfactory completion of course work.

2) The institution of higher learning shall recalculate the applicant's MAP eligibility by decreasing the applicant's tuition and fee charges by the amount of benefits the applicant is eligible to receive from the sources in subsection (d)(1) of this Section. The institution of higher learning shall report the applicant's reduced grant award on the payment request.

e) The provisions of this Section shall not apply to benefits derived from the Baccalaureate Savings Act [110 ILCS 920] and 23 Ill. Adm. Code 2771.

f) Notwithstanding the provisions of other ISAC-administered programs, the total amount of a student's gift assistance may not exceed the cost of attendance used to calculate Title IV aid for that student. Any excess gift assistance is considered an

overaward and the institution of higher learning is required to reduce the MAP award and/or other gift assistance to prevent such an overaward. For the purposes of this calculation, federal veterans benefits are not counted as gift assistance.

g) Institutions of higher learning shall submit payment requests to ISAC. By submitting a payment request, an institution is certifying that the qualified applicants meet the requirements of Section 2735.20, Applicant Eligibility.

h) For any institution of higher learning which has concurrent registration opportunities, the following policy pertains:

1) The recipient must indicate his/her institution of record on the MAP application.

2) The payment of the term award by ISAC will require the institution of record to receive MAP payment on behalf of any other institutions and the institution of record shall distribute the appropriate share of the award to the other institutions. Payment by ISAC will not be made to more than one institution.

3) The amount paid cannot exceed the maximum term award for students at the institution of record, or the tuition and mandatory fee costs at the institution of record if the costs are less than the maximum term award.

4) Concurrent registration is limited to ISAC-approved institutions of higher learning.

5) The recipient's academic records at the institution of record must document the total number of credit hours for which the student is enrolled.

i) If an Illinois institution operates an out-of-state center, residents of Illinois enrolled in classes at the out-of-state center may receive MAP benefits in accordance with Section 2735.30(u).

j) If an announced recipient's credit hour enrollment decreases, the institution shall only request payment up to the amount of actual tuition and mandatory fee expenses incurred.

k) Upon receipt of a payment request from the institution of record, ISAC remits MAP grant funds to the institution of record on behalf of the recipient. The

Institution of record shall credit these funds to the recipient's account.

1) MAP grants are divided into two semester or three quarter regular term payments and are paid directly to the approved institution of record that certifies to ISAC that the applicant is an eligible recipient.

   1) ISAC will annually establish priority claim dates for the submission of payment requests and inform schools of the required priority dates.

   2) Late payment requests will result in delayed processing of payments. Payment requests are processed in the sequence of receipt by ISAC and as funds are available.

   3) Institutions may submit their payment requests beginning ten days prior to the start of classes for the term for which they are requesting payment.

m) Institutional Processing of Payments

   1) Within 30 days after and including the date of receiving payment of any MAP funds claimed or advanced pursuant to this Section, the institution shall credit the MAP funds against the recipients' tuition and mandatory fee charges for the appropriate term.

   2) Institutions are required to reconcile payments received through MAP and, as applicable, submit all necessary corrections to student records on a timely basis. Any payments received by the institution that are determined in the reconciliation to be refunds payable to ISAC are to be processed and returned to ISAC no later than 60 days following the end of the academic term unless ISAC has already deducted outstanding refunds from institutional payment requests during the applicable fiscal year. Refunds may be caused by billing errors, retroactive withdrawals and other miscellaneous reasons. Refunds showing as owed to ISAC must be remitted within 30 days after the end of the institution's regular school year. Should the payment arrive after the end of the regular school year, the institution will have 60 days following receipt of payment to complete the reconciliation process and return any refunds due.

   3) Award payments made in the name of one recipient cannot be applied to another recipient at the same institution. A refund of the payment made must be submitted to ISAC, and a supplemental request for payment must be processed for the proper recipient.
ILLINOIS STUDENT ASSISTANCE COMMISSION

NOTICE OF PROPOSED AMENDMENTS

4) To provide sufficient time for processing and vouchering through the State Comptroller's Office in Springfield, all payment requests must be received by ISAC no later than August 1 due to the State's fiscal year lapse period ending August 31.

5) Payment requests received after August 1 for the prior academic year will be processed as time and available funds permit; however, final action may require institutions to go to the Illinois Court of Claims to obtain payment for approved claims. (See the Court of Claims Act [705 ILCS 505].)

PART 2763
MINORITY TEACHERS OF ILLINOIS (MTI) SCHOLARSHIP PROGRAM

Section 2763.10 Summary and Purpose
Section 2763.20 Applicant Eligibility
Section 2763.30 Program Procedures
Section 2763.40 Institutional Procedures

AUTHORITY: Implementing Section 50 and authorized by Section 20(f) of the Higher Education Student Assistance Act [110 ILCS 947/50 and 20(f)].

Section 2763.30 Program Procedures

a) A completed ISAC application for the MTI Scholarship Program must be postmarked on or before March 1 immediately preceding the regular school year for which the scholarship is being requested, in order to receive priority consideration for an award.

1) Applications are available from qualified institutions of higher learning, State legislative and Congressional offices, and ISAC's Springfield, Deerfield and Chicago offices.
ILLINOIS STUDENT ASSISTANCE COMMISSION

NOTICE OF PROPOSED AMENDMENT

2) ISAC will make renewal applications available to all qualified students who were awarded MTI Scholarships during the preceding regular school year.

3) If the application is incomplete, ISAC will notify the applicant. The applicant will then have an opportunity to furnish the missing information; however, the application will only be considered for processing as of the date when the application is complete and received at ISAC's Deerfield office.

b) At least 30 percent of the funds appropriated for scholarships awarded under this Section in each fiscal year shall be reserved for male qualified applicants. If the Commission does not receive enough applications from qualified male minorities on or before January 1 of each fiscal year to award 30% of the funds appropriated for these scholarships to qualified male minority applicants, then the Commission may award a portion of the reserved funds to qualified female minority applicants. [110 ILCS 947/50]

c) Notwithstanding the provisions of subsection (b) of this Section, awards will be made first to renewing applicants.

d) No recipient may receive more than 8 semesters/12 quarters of scholarship assistance under this program.

e) Scholarship funds are applicable towards up to two semesters/three quarters of study within a regular school year.

f) The total number of scholarships awarded in a given fiscal year is contingent upon available funding. If appropriated funds are insufficient to provide all qualified applicants with a scholarship, available funds shall be allocated in accordance with subsections (b) and (c) of this Section and on the basis of the dates that the completed applications are received in ISAC's Deerfield office. However, preference may be given to qualified applicants enrolled at or above the junior level.

g) Qualified applicants may be required to furnish the postsecondary institution at which they are enrolled with a copy of their high school transcripts, any other documentation verifying high school graduation, or a copy of their GED certificates.

h) Prior to receiving scholarship assistance under this Part, the qualified applicant
must sign a Teaching Agreement/Promissory Note that is submitted to ISAC. The Teaching Agreement/Promissory Note shall include the following stipulations:

1) the recipient pledges to teach, on a full-time equivalent basis, for one year for each year of scholarship aid received, or for any portion of a year for which aid was received, under this Part;

2) the recipient shall begin teaching within one year following the completion of the program for which the recipient received assistance under this Part, and shall teach on a continuous basis for the required period of time;

3) the teaching requirement will be fulfilled at a nonprofit Illinois public, private or parochial preschool, elementary school or secondary school at which no less than 30 percent of the enrolled students are minority students, as certified by the Illinois State Board of Education (ISBE);

4) if the teaching requirement is not fulfilled, the scholarship converts to a loan and the recipient must repay the entire amount of the scholarships prorated according to the fraction of the teaching obligation not completed, plus interest at a rate of interest equal to five percent and, if applicable, reasonable collection fees;

5) the recipient agrees to provide ISAC with evidence of compliance with program requirements (e.g., responses to annual follow-up questionnaires, etc.); and

6) the recipient promises to use the proceeds of the scholarship for educational expenses.

i) A recipient of a scholarship awarded under this Part shall not be in violation of the agreement entered into pursuant to Section 2763.30(h) during periods in which the recipient:

2) is enrolled on a full-time basis as a graduate student in a course of study related to the field of teaching at an institution of higher learning;

3) is temporarily totally disabled, for not more than three years, as

4) is actively seeking but unable to find full-time employment as a teacher at a school that satisfies the criteria set forth in subsection (h)(3) of this Section for one continuous period not to exceed two years, and is able to provide evidence of that fact; or

5) is taking additional courses, on at least a half-time basis, needed to obtain certification as a teacher in Illinois.

j) If a recipient is required to repay any portion of the scholarship, the repayment period shall be completed within ten years after the scholarship converts to a loan. This ten-year period may be extended if the recipient:

1) serves, for not more than three years, as a member of the United States Armed Forces;

2) is temporarily disabled, for not more than three years, as established by the sworn affidavit of a licensed physician;

3) is seeking and unable to find full-time employment, for one continuous period not to exceed two years, and is able to provide evidence of that fact; or

4) withdraws from a course of study leading to certification as a teacher but is enrolled full-time in another academic discipline; or

5) is pursuing a graduate course of study and is enrolled on a full-time basis for one continuous period of time not to exceed three years.

k) During the time a recipient qualifies for any of the extensions listed in subsection (j) of this Section, he or she shall not be required to make payments and interest shall not accrue.

l) A recipient shall enter repayment status on the earliest of the following dates:

1) the first day of the first calendar month after the recipient has ceased to pursue a course of study leading to certification as a teacher at the preschool, elementary or secondary level, but not before six months have elapsed after the cessation of at least half-time enrollment in such a course of study;

2) the date the recipient informs ISAC that he or she does not plan to fulfill the teaching obligation; or

3) the day after the latest date upon which the recipient must have begun teaching after completing the postsecondary education for which the scholarship was awarded.

Section
2771.10 Summary and Purpose
2771.20 Applicant Eligibility
2771.30 Program Procedures
2771.40 Institutional Procedures

AUTHORITY: Implementing and authorized by Section 8 of the Baccalaureate Savings Act [110 ILCS 920/8].

Section 2771.30 Program Procedures

a) Application Procedures

1) Applications for a BIG shall be available from the Illinois Student Assistance Commission (ISAC) and eligible non-profit institutions of higher learning.

2) A complete application for BIG assistance shall include certifications from: the bondholder, the student beneficiary and the Registrar of the institution of higher learning at which the student beneficiary is enrolled.

3) A bondholder or a student beneficiary must submit a BIG application

between August 1 and May 30 of the academic year for which assistance is being requested. All grants under this program are subject to sufficient annual appropriations for this program by the General Assembly.

4) ISAC may require applicants to provide documentation verifying that the bondholder owned the bonds for the requisite length of time.

5) One student beneficiary may be designated for each bond redeemed. In cases where two individuals jointly own a college savings bond, only one student beneficiary may be designated.

b) Application Certifications

1) The bondholder shall certify that:

A) the aggregate compound accreted value at maturity of the college savings bond(s) was not more than $25,000;

B) at least 70 percent of the proceeds of the college savings bond(s) have been or will be used for educational expenses incurred by the student beneficiary during an academic year;

C) the student named on the application has been designated as the beneficiary of the bond proceeds;

D) no other student has been designated as the student beneficiary for the same college savings bond;

E) the information provided on the application with regard to the bonds is true and correct, including the date on which the bond(s) were issued, the date on which the bond(s) were acquired and the date on which the bond(s) matured; and

F) the preceding certifications are being provided for the academic year in which the application is being submitted.

2) The student beneficiary shall certify that:

A) his or her address, Social Security Number and other identifying information is accurate;
NOTICE OF PROPOSED AMENDMENT

B) at least 70% of the proceeds of the College Savings Bonds will be used for educational expenses;

C) he or she is enrolled at an eligible non-profit institution of higher learning;

D) he or she will use the BIG proceeds to finance educational expenses which are reasonably incurred during an academic year, including tuition and fees, room and board, books and supplies, child care expenses, laundry, travel and other personal expenses related to attendance at the institution of higher learning; and

E) he or she will not use the BIG proceeds to finance costs incurred in an academic program of divinity for any religious denomination or in a course of study to become a minister, priest, rabbi or other professional in the field of religion.

c) The dollar value of the BIG shall be determined according to the Table of Grant Amounts (see Appendix A of this Part); provided, however, that:

1) the compound accreted value of the bonds shall not exceed $25,000 in any given academic year;

   Example: A BIG could not be claimed for more than 5 bonds of $5,000 compound accreted value each in any given year. Even if 12 bonds of $5,000 compound accreted value each, or $60,000 total, had been purchased on behalf of a beneficiary, a BIG could be paid only for the first $25,000.

2) 70 percent of the compound accreted value of the bonds for which a BIG is being claimed in a given academic year does not exceed the beneficiary's cost of attendance at the institution of higher learning for that year.

   Example: The beneficiary's cost of attending University A is $14,000. Since $14,000 is 70 percent of $20,000, a BIG could not be claimed for bonds with a compound accreted value in excess of $20,000. Even if 5 bonds of $5,000 compound accreted value each, or $25,000 total, had been purchased on behalf of the

beneficiary, in this case a BIG could be paid only on the first $20,000.

d) Both the proceeds of the bond(s) and the BIG assistance must be used by the student beneficiary in the academic year in which the bond matures or in the academic year immediately following maturity.

e) Applicants may request that their eligibility for ISAC gift assistance be recalculated to exclude up to $25,000 in accumulated bonds and interest, pursuant to ISAC Appeal Procedures (see 23 Ill. Adm. Code 2700.70). Recalculations will only be performed for those students who complete the required federal needs analysis process.

Qualified Charitable Organizations which wish to seek contributions from State employees at their work place shall comply with this Code of Conduct.

1) A Qualified Charitable Organization may not use the name or address of an employee or annuitant obtained through SECA for fundraising purposes when that employee or annuitant has expressly stated in writing that his/her name may not be so used or sold by that Qualified Charitable Organization. Any employee or annuitant who does not provide such a written statement to a Qualified Charitable Organization shall be considered to have "released" his/her name and address to that Qualified Organization.

2) If an employee or annuitant releases his/her name to a Qualified Charitable Organization, the Qualified Charitable Organization may use the employee's or annuitant's name for the purpose of acknowledging the employee's or annuitant's contribution and/or educating the employee or annuitant further regarding the Qualified Charitable Organization; however, no employee's or annuitant's name that a Qualified Charitable Organization has been able to obtain only by virtue of such organization's participation in SECA may be used by such Qualified Charitable Organization for fund raising purposes other than in the SECA campaign, and may not be sold or given to another organization or entity.

The letter may be submitted to the Advisory Board, which will then forward the letter to the Qualified Charitable Organization.

NOTICE OF ADOPTED AMENDMENTS

2) The following actions are prohibited for the Qualified Charitable Organizations:

D) setting, requesting or encouraging that a department or agency set personal dollar goals or quotas.

DE) encouraging contributions to particular organizations.

b) Within ten working days after receipt of the complaint, the Department shall contact the party subject of the complaint and supply them with a copy of the written complaint and supporting documentation. The party subject of the complaint shall submit a response to the Department within 10 days after receipt of the complaint or the decision will be made without input from that party. Within ten working days after receiving the response, the Department will respond to the complainant denying the complaint, identifying the proposed resolution or taking other action, which may include conducting a hearing.

c) Any such decision of the Department may be appealed to the Committee on Campaign Conduct within 10 calendar days after receipt of the response to the complaint.

d) The goal of the Committee shall be to act on the appeal, which may include holding a public hearing, and make a final determination within 10 working days after receipt of the appeal.

e) A Qualified Charitable Organization, or a benefiting agency of a Qualified Charitable Organization, may be denied participation in the SECA campaign for failure to comply with this Code of Campaign Conduct. Denial shall be for the next entire campaign period. Early reinstatement will be considered if the organization provides sufficient assurance that it will comply with these Code of Campaign Conduct rules. Restrictions may be placed on the Qualified Charitable Organization or benefiting agency if allowed early reinstatement. Suspension from a campaign shall not require a Qualified Charitable Organization to again meet basic qualifying criteria as set forth in the statute.

f) To help other Qualified Charitable Organizations avoid suspension, the Department may circulate written reminders of conduct or actions as outlined in Section 2650.40 that are or have been found to be violations of the Code. Section 2650.70 Allocation of Expenses to SECA Participants Membership

a) Expenses of SECA will be borne by the Qualified Charitable Organizations in an amount or proportion determined by a majority vote of those Qualified Charitable Organizations which will be participating in the SECA Campaign.

6) the primary language spoken by the parents;

7) the service delivery agency and/or provider involved in the dispute; and

8) evidence supporting the remedy or proposed resolution (i.e., IFSP, Family Resource Inventory, bill payment, etc.).

The letter shall be confidential and only used for purposes of resolution of the dispute and as agreed to by the child's parents.

d) Upon receipt of request for an impartial proceeding, parties involved in the dispute shall be offered the option of mediation as set forth in Section 500.145.

e) During the pendency of any proceeding involving a complaint, unless the parent and the Department agree otherwise, the child must continue to receive the appropriate Part C EI services currently being provided. If the complaint involves application for initial Part C services, the child must receive those services that are not in dispute.

f) The parent shall be informed of free or low cost legal and other related services available in the area if the parent requests that information or the parent or agency initiates a resolution under this Section. Regional intake entities shall maintain that information and make it available upon request or if a proceeding is initiated under this Section.

g) Upon written request for an impartial proceeding, the Department shall appoint an impartial hearing officer. The Department shall maintain a list of hearing officers. An impartial hearing officer must:

1) be licensed to practice law in Illinois;

2) have knowledge about the provisions of IDEA Part C and the Illinois Early Intervention Services System Act, the needs of eligible children and their families, and services available to them under those statutes;

3) not be an employee of the Department or a State educational agency, LEA or private service provider involved in the provision of early intervention services or care of the child;

4) not have a personal or professional interest that would conflict with his/her objectivity in implementing the process.

h) Complaints under this Part shall be submitted to the Department as soon as possible, but at least within three months after the complaint's knowledge of the disputed activity.

i) Organizations and/or providers and/or individuals with whom the complainant has a dispute shall be parties to the proceeding as deemed necessary by the impartial hearing officer in order to resolve the dispute.

j) Within five days after receiving written notification from the Department of Human Services, the appointed hearing officer shall contact the parties to determine a time and place reasonably convenient to the parties for a hearing and any pre-hearing conferences. The hearing officer shall provide the parties at least ten days' written notice of the dates, times, and locations of any pre-hearing conferences and of the hearing.

k) The hearing officer may conduct a pre-hearing conference either in person or by telephone in order to narrow the issues, determine stipulations by the parties, exchange evidence and names of witnesses, and consider other matters that may aid in efficient disposition of the case. At the conclusion of the pre-hearing conference, the hearing officer will prepare a written report of the conference to be entered into the hearing record memorializing the discussion, any stipulations, and scheduling accommodations made for parties or witnesses.

l) Any party to a hearing has a right to:

1) be accompanied (at the party's expense) and advised by counsel and by individuals with special knowledge or training with respect to children with disabilities;

2) present evidence and confront, cross-examine, and compel the attendance of witnesses;

3) prohibit the introduction of any evidence at the proceeding that has not been disclosed to that party at least five days before the proceedings; and

4) obtain a written or electronic verbatim record of the hearing.
m) Parents involved in hearings must be given the right to:

1) obtain written findings of fact and decision within 45 days after receipt of the request for impartial resolution;

2) have the child who is the subject of the hearing present; and

3) open the hearing to the public (hearings shall be closed to the public unless the parent requests them to be open).

n) As soon as possible, but at least five business days prior to the hearing, each party shall disclose to all other parties all evaluations completed by that date and recommendations based on those evaluations that the party intends to use at the hearing, as well as other evidence to be offered at hearing and other relevant documentation.

o) The regional intake entity shall disclose the complete record of the child to the Department within five business days after receipt of the letter requesting a proceeding under this Section.

q) The hearing officer is authorized to conduct the hearing, administer oaths, issue subpoenas to compel testimony or production of documents, rule on motions, grant continuances, call or examine witnesses, and take such other action as may be necessary to provide the parties with an opportunity to be heard fairly and expeditiously.

r) At the hearing, the party requesting the administrative resolution has the burden of proceeding first and demonstrating by a preponderance of the evidence that the provision or proposed provision of EI services for the child violates Part C, the State Act, or this Part.

s) Upon completion of the submission of evidence and testimony, parties shall be given a reasonable period of time to present written or oral arguments to complete the process within 45 days.
DEPARTMENT OF HUMAN SERVICES

NOTICE OF ADOPTED AMENDMENTS

t) The hearing officer shall maintain and prepare a record of the proceeding and shall prepare written findings and a decision that shall be served upon the parties. The record shall contain the letter requesting the proceeding, evidence submitted at the hearing, a transcript or recording of the hearing, prehearing conference reports, motions, orders and all other material that is part of the record.

u) Any and all written findings and decisions shall be transmitted to the Illinois Interagency Council on Early Intervention and be made available to the public without personally identifying information.

v) Either party may request a delay in convening the hearing and/or the pre-hearing conference for good cause. The party requesting the delay shall do so in writing to the hearing officer, with a copy served at the same time to all parties. Section 500.145 Mediation

a) Parties/Purpose

1) Any party having a dispute involving the identification, evaluation, or placement of a child for early intervention services, or the provision of early intervention services, may request mediation regardless of whether a request for an impartial administrative proceeding has been or will be made. The mediation request may occur prior to or simultaneously with a request for an administrative proceeding and is open to any and all parties (public agencies, private agencies, parents) having standing in the disputes.

2) The purpose of a mediation process is to provide an alternative to the impartial administrative resolution as a way to resolve disagreements between parents and early intervention services personnel. In virtually all
DEPARTMENT OF HUMAN SERVICES

NOTICE OF ADOPTED AMENDMENTS

cases, it is less costly and less adversarial than an administrative proceeding. Neither party is asked to abandon its beliefs about the child's ability. Rather, the parties are asked to consider alternatives that could be incorporated into the child's Individualized Family Service Plan and to be aware of the concerns and problems expressed by the other party.

b) Requests for mediation must be made in writing to:

Chief
Bureau of Administrative Hearings
Department of Human Services
100 S. Grand Ave. East – 3rd Floor
Harris Building
Springfield, Illinois 62762

with a copy sent to:

Chief
Bureau of Early Intervention
Department of Human Services
222 South College, 2nd Floor
623 East Adams – 2nd Floor
P.O. Box 19429
Springfield, Illinois 62704-1958

with a copy sent to:

Chief
Bureau of Early Intervention
Department of Human Services
222 South College, 2nd Floor
623 East Adams – 2nd Floor
P.O. Box 19429
Springfield, Illinois 62704-1958

The written request shall include the name and address of the child and of the person requesting mediation, a description of the nature of the problem of the child, including the facts related to the problem, a proposed resolution to the problem, supporting relevant documentation of the facts, and the name and address of service providers.

d) If a request for administrative resolution is made, mediation will be offered. Mediation may not be used to delay or deny the right to an administrative resolution or other rights under Part C.

e) The mediation will be conducted by a qualified and impartial mediator who is trained in effective mediation techniques and who is knowledgeable in laws and regulations relating to early intervention services under Part C. A mediator may not be an employee of an agency providing services to the child at issue nor of the Department, nor have a personal or professional conflict of interest.
DEPARTMENT OF HUMAN SERVICES

NOTICE OF ADOPTED AMENDMENTS

f) The mediation is offered at no cost to the parties. It must be voluntary by all parties.

g) The mediator shall assure that a mediation conference is convened and concluded in a timely fashion and in no event later than the administrative resolution of a complaint under Section 500.140 if one was requested.

h) The mediator will contact the parties to set a mutually convenient date, time and location for the mediation conference, to answer any questions the parties may have regarding the process, and to request additional information from the parties.

i) The role of the mediator is that of a neutral facilitator assisting parents and early intervention personnel to resolve their disagreement. Although the mediator is in control of the session, he/she is not the decision maker and may not compel action by either party. The mediator allows the parties to present their positions, establishes an understanding of the disagreement, determines points of agreement, and offers suggestions/proposals for resolution, attempting to help the parties achieve a mutual solution that is in the best interests of the child. The mediator facilitates the process. He or she summarizes positions and may help the parties consider possible alternatives.

j) If agreement is reached by the parties, it shall be set forth in a written mediation agreement signed by authorized representatives of the parties to the dispute. No record is kept of the discussions at the meeting. The mediation agreement will record only the date of the mediation, the parties to the mediation and terms agreed upon.

k) Discussions that occur during the mediation process shall be confidential and may not be used as evidence in any subsequent administrative hearing or civil proceeding. The parties will be asked to sign a confidentiality pledge prior to the commencement of the mediation. Only the fact that mediation occurred and the terms of any mediation agreement reached are admissible in subsequent proceedings.

l) Participants in the mediation conference should be limited to those necessary to resolution of the dispute and shall include persons authorized to act on behalf of the parties. In determining participants, the parties and mediator should be guided by desire to achieve mutual non-adversarial problem solving with the child's interests and the interests of the EI Services System as the goal.
m) The parties are expected to approach the mediation session in good faith and with the intention of attempting to reach an agreement. It is important that all parties approach the session with a willingness to listen and to consider all aspects of the issues in the interests of the child and of the EI Services System. They are active participants in the session and, if agreement is reached, develop the terms of the agreement with the assistance of the mediator.

n) The mediation allows an uninterrupted opportunity for both parties to present their views in a non-adversarial setting. It allows parents and early intervention program personnel to focus on their common concerns, rather than their differences. Even if an agreement is not reached, there is the potential of both parties leaving the session with an enhanced perspective of the issues, and with a more positive working relationship.

o) Regional intake entities, service coordinators and other participants in the EI Services System shall encourage resolution of disputes by mediation.

Section 500.170 State Complaint Procedure

a) Individuals or organizations may file written, signed complaints with the Department of Human Services stating that a State agency, regional intake entity or provider is violating a law or rule regarding the Part C early intervention program. The statement must contain the facts that support the complaint. The alleged violation must have occurred not more than one year before the date the complaint is received by the Department, unless a longer period is reasonable because:

1) The alleged violation continues for that child or other children; or

2) The complainant is requesting reimbursement or corrective action for a violation that occurred not more than three years before the complaint is received.

b) The Department shall have 60 calendar days from receipt of the complaint to investigate and issue a written decision to the complainant and interested parties, addressing each allegation in the complaint. During this time, the Department may carry out an independent on-site investigation if deemed necessary and must give the complainant an opportunity to submit additional information, either

orally or in writing, about the allegations made in the complaint. Complaints must be submitted in writing to:

Chief
Bureau of Early Intervention
Department of Human Services
222 South College, 2nd Floor
623 East Adams—2nd Floor
P.O. Box 19429
Springfield, Illinois 62704-19429

Phone: 62704-195862794-9429

After reviewing all relevant information, the Department must issue a written decision to the complainant and the subject of the complaint as to whether the public agency is violating a requirement of Part C, addressing each allegation in the complaint and containing findings of fact as well as conclusions, the reasons for the final decision, and, if the complaint was found to be valid, corrective actions required to correct the causes of the complaint.

d) Final decisions are enforceable and binding. They may be amended only upon agreement in writing between the Department and the organization or individual upon whom corrective actions are imposed.

e) Organizations or individuals upon whom corrective actions are imposed may request reasonable technical assistance or alternative corrective actions. However, these requests do not change the final decision unless it is amended in writing between the Department and the party.

f) The 60 day time period in subsection (b) may be extended if exceptional circumstances exist with respect to a particular complaint.

g) The lead agency shall monitor implementation of the final decision to determine that corrective actions and timelines have been met.

h) Organizations or individuals upon whom corrective actions are imposed may be terminated from participation in Part C programs if corrective actions are not met.

i) If an issue raised in a written complaint (or any part of a complaint) is also the subject of an administrative resolution under Section 500.140, the Department must set aside any part that is being addressed under the procedure in Section 500.140 but resolve any other issues within the 60 day timeline.
DEPARTMENT OF HUMAN SERVICES

NOTICE OF ADOPTED AMENDMENTS

j) If an issue is raised in a written complaint that has already been decided in a proceeding under Section 500.140, the previous decision is binding and the complainant must be so informed.

k) A complaint alleging failure of a public agency or private service provider to implement a decision under Section 500.140 must be resolved by the Department.

   Section 805.30(a) was amended to read as follows:

   a) Injurious species shall not be possessed, propagated, bought, sold, bartered or offered to be bought, sold, bartered, transported, traded, transferred or loaned to any other person or institution unless a permit is first obtained from the Department of Natural Resources in accordance with Section 805.40 of this Part, except persons engaged in interstate transport for lawful commercial purposes who do not buy, sell, barter, trade, transfer, loan or offer to do so in Illinois may transport injurious species across Illinois without an injurious species permit from the Department.
DEPARTMENT OF NATURAL RESOURCES

NOTICE OF ADOPTED AMENDMENTS

1) Under no circumstances shall an interstate transporter:

A) transfer any injurious species from one container to another; nor

B) exchange or discharge from a container containing injurious species without first obtaining written permission from the Department:

   i) water;

   ii) bedding;

   iii) soluble material; or

   iv) insoluble material.

2) The Department shall grant permission under subsection (a)(1)(B) only if:

A) it approves of the final disposition of the water, bedding, or material; and

B) the transporter satisfies the Department that there is no possibility of release into the environment.

12) Have all the changes agreed upon by the agency and JCAR been made as indicated in the agreements issued by JCAR? Yes

13) Will this rulemaking replace any emergency rulemaking currently in effect? No

14) Are there any amendments pending on this Part? No

15) Summary and purpose of rulemaking: These amendments add two species of Asian carp (bighead carp and silver carp) to the injurious species list. Various projects are underway to protect the Great Lakes from an invasion by Asian carp. Adding these species to the listing of injurious species will assist in this effort by removing a potential source of introduction through live bait, aquaculture, and live-fish shipments. The Section on unlawful acts was amended to add language regarding interstate transport of injurious species across Illinois.

The amendments also move a method already incorporated by reference into appropriate alphanumeric order.

9) Notice of Proposal Published in Illinois Register: October 29, 2004; 28 Ill. Reg. 13954

10) Has JCAR issued a statement of objection to these amendments? No. Section 17.5 of the Environmental Protection Act [415 ILCS 5/17.5] provides that Section 5-35 of the Administrative Procedure Act [5 ILCS 100/5-35] does not apply to this rulemaking. Because this rulemaking is not subject to Section 5-35 of the APA, it is not subject to First Notice or to Second Notice review by the Joint Committee on Administrative Rules (JCAR).

11) Differences between proposal and final version: A table that appears in the Board's opinion and order of January 20, 2005 in docket R05-6 summarizes the differences between the amendments adopted in that order and those proposed by the Board in an opinion and order dated January 20, 2005, in docket R05-6. Many of the differences are explained in greater detail in the Board's opinion and order adopting the amendments.

The differences are limited to minor corrections and the restoration of a small segment of text inadvertently marked for deletion in the proposed amendments. The changes are intended to have no substantive effect. The intent is to add clarity to the rules without deviation from the substance of the federal amendments on which this proceeding is based.

12) Have all the changes agreed upon by the Board and JCAR been made as indicated in the agreements issued by JCAR? No. Section 17.5 of the Environmental Protection Act [415 ILCS 5/17.5] provides that Section 5-35 of the Administrative Procedure Act [5 ILCS 100/5-35] does not apply to this rulemaking. Because this rulemaking is not subject to Section 5-35 of the APA, it is not subject to First Notice or to Second Notice review by JCAR.

Since the Notices of Proposed Amendments appeared in the October 29, 2004 issue of the Illinois Register, the Board received a number of suggestions for revisions from JCAR. The Board evaluated each suggestion and incorporated a number of changes into the text as a result, as detailed in the opinion and order of January 20, 2005 in docket R05-6, as indicated in item 11 above. See the January 20, 2005 opinion and order in docket R05-6 for additional details on the JCAR suggestions and the Board actions with regard to each. One table in that opinion itemizes the changes made in response to various suggestions. Another table indicates JCAR suggestions not incorporated into the text, with a brief explanation for each.
NOTICE OF ADOPTED AMENDMENTS

13) Will these amendments replace any emergency amendments currently in effect? No

14) Are there any other amendments pending on this Part? No

15) Summary and Purpose of Amendments: This docket includes federal SDWA amendments that USEPA adopted in the period January 1, 2004 through June 30, 2004, and on August 25, 2004. The amendments approve one new analytical method for analysis of total coliforms and E. coli and three new methods for analysis of uranium in drinking water. Another amendment makes a number of minor corrections to various federal rules, including the Long Term 1 Enhanced Surface Water Treatment Rule, the Surface Water Treatment Rule, and the Lead and Copper Rule.

A fuller discussion of the issues involved in this rulemaking appears in the October 7, 2004 opinion and order in docket R05-6. The following briefly summarizes the federal actions considered in this rulemaking.

USEPA amended the federal SDWA regulations three times during the period January 1, 2004 though June 30, 2004. These actions are summarized below:

**February 13, 2004 (69 Fed. Reg. 7156)**
USEPA approved an additional analytical method for coliforms and E. coli in drinking water.

By a direct final rule, USEPA approved three additional analytical methods for uranium in drinking water. (This rule was withdrawn on August 25, 2004, as described below.)

**June 29, 2004 (69 Fed. Reg. 38850)**
USEPA adopted a number of minor corrections to various rules, including the Long Term 1 Enhanced Surface Water Treatment Rule, the Surface Water Treatment Rule, and the Lead and Copper Rule.

The Board engages in ongoing monitoring of federal actions. As of the October 7, 2004 opinion and order, the Board had identified two simultaneous and related USEPA actions since June 30, 2004, that further amend the SDWA rules. Both actions relate directly to the subject matter of the June 2, 2004 amendments that are involved in this docket. Those two actions are described as follows:
POLLUTION CONTROL BOARD

NOTICE OF ADOPTED AMENDMENTS

By a final rule, USEPA approved the three additional analytical methods for uranium in drinking water that it had approved on June 2, 2004, by a direct final rule. (Note the June 2, 2004 notice of proposed rule at 69 Fed. Reg. 31068.)

In response to adverse public comments, USEPA withdrew its June 2, 2004 direct final rule that approved three additional analytical methods for uranium in drinking water.

Tables appear in the Board's opinion and order of January 20, 2005 in docket R05-6 that list numerous corrections and amendments that are not based on current federal amendments. The tables contain deviations from the literal text of the federal amendments underlying these amendments, as well as corrections and clarifications that the Board made in the base text involved. Persons interested in the details of those corrections and amendments should refer to the January 20, 2005 opinion and order in docket R05-6.

Section 17.5 of the Environmental Protection Act [415 ILCS 5/17.5] provides that Section 5-35 of the Administrative Procedure Act [5 ILCS 100/5-35] does not apply to this rulemaking. Because this rulemaking is not subject to Section 5-35 of the APA, it is not subject to First Notice or to Second Notice review by the Joint Committee on Administrative Rules (JCAR).

SUBPART B: FILTRATION AND DISINFECTION

Section 611.231 Source Water Quality Conditions

The Agency must consider the following source water quality conditions in determining whether to require filtration pursuant to Section 611.211:

a) The fecal coliform concentration must be equal to or less than 20/100 ml, or the total coliform concentration must be equal to or less than 100/100 ml (measured as specified in Section 611.531(a) or (b) and 611.532(a)) in representative samples of the source water immediately prior to the first or only point of disinfectant application in at least 90 percent of the measurements made for the 6 previous months that the system served water to the public on an ongoing basis. If a system measures both fecal and total coliforms, the fecal coliform criterion, but not the total coliform criterion, in this subsection, must be met.

b) The turbidity level cannot exceed 5 NTU (measured as specified in Section 611.531(a) and 611.531(d)) and 611.532(b) in representative samples of the source water immediately prior to the first or only point of disinfectant application unless the following are true:

1) The Agency determines that any such event was caused by circumstances that were unusual and unpredictable; and

2) As a result of any such event there have not been more than two events in the past 12 months the system served water to the public, or more than five events in the past 120 months the system served water to the public,
NOTICE OF ADOPTED AMENDMENTS

in which the turbidity level exceeded 5 NTU. An "event" is a series of consecutive days during which at least one turbidity measurement each day exceeds 5 NTU.

e) Each CWS must take its raw water from the best available source that is economically reasonable and technically possible.

BOARD NOTE: This is an additional State requirement.

d) Use of recycled sewage treatment plant effluent by a CWS on a routine basis must not be permitted.

BOARD NOTE: This is an additional State requirement.

Section 611.233 Treatment Technique Violations

a) A supplier is in violation of a treatment technique requirement if the following is true:

1) Filtration is required because either of the following:

   A) The supplier fails to meet any one of the criteria in Section 611.231 and 611.232; or

   B) The Agency has determined, pursuant to Section 611.211, that filtration is required; and

2) The supplier fails to install filtration by the date specified in Section 611.230.

b) A supplier that has not installed filtration is in violation of a treatment technique requirement if either of the following is true:

1) The turbidity level (measured as specified in Section 611.531(a)611.531(d) and 611.532(b)) in a representative sample of the source water immediately prior to the first or only point of disinfection

application exceeds 5 NTU; or

2) The system is identified as a source of a waterborne disease outbreak.

(Source: Amended at 29 Ill. Reg. 2287, effective January 28, 2005)

Section 611.241 Unfiltered PWSs

Each supplier that does not provide filtration treatment must provide disinfection treatment as follows:

a) The disinfection treatment must be sufficient to ensure at least 99.9 percent (3-log) inactivation of Giardia lamblia cysts and 99.99 percent (4-log) inactivation of viruses, every day the system serves water to the public, except any one day each month. Each day a system serves water to the public, the supplier must calculate the CT_{99.9} value from the system's treatment parameters using the procedure specified in Section 611.532(c) and determine whether this value is sufficient to achieve the specified inactivation rates for Giardia lamblia cysts and viruses.

1) If a system uses a disinfectant other than chlorine, the system may demonstrate to the Agency, through the use of an Agency-approved protocol for on-site disinfection challenge studies or other information, that CT_{99.9} values other than those specified in Appendix B of this Part, Tables 2.1 and 3.1 or other operational parameters are adequate to demonstrate that the system is achieving minimum inactivation rates required by this subsection.

2) The demonstration must be made by way of a SEP application pursuant to Section 611.110.

b) The disinfection system must have either of the following:

1) Redundant components, including an auxiliary power supply with automatic start-up and alarm to ensure that disinfectant application is maintained continuously while water is being delivered to the distribution system; or

2) Automatic shut-off of delivery of water to the distribution system
POLLUTION CONTROL BOARD

NOTICE OF ADOPTED AMENDMENTS

whenever there is less than 0.2 mg/ℓ of RDC in the water. If the Agency determines, by a SEP issued pursuant to Section 611.110, that automatic shut-off would cause unreasonable risk to health or interfere with fire protection, the system must comply with subsection (b)(1).

c) The RDC in the water entering the distribution system, measured as specified in Sections 611.531(b) and 611.531(e) and 611.532(e), cannot be less than 0.2 mg/ℓ for more than 4 hours.

d) RDC in the distribution system.

1) The RDC in the distribution system, measured as total chlorine, combined chlorine or chlorine dioxide, as specified in Sections 611.531(b) and 611.531(e) and 611.532(f), cannot be undetectable in more than 5 percent of the samples each month for any two consecutive months that the system serves water to the public. Water in the distribution system with HPC less than or equal to 500/ml, measured as specified in Section 611.531(a) and 611.531(e), is deemed to have a detectable RDC for purposes of determining compliance with this requirement. Thus, the value "V" in the following formula cannot exceed 5 percent in one month, for any two consecutive months.

\[
V = \frac{100 (c + d + e)}{(a + b)}
\]

where the terms mean the following:

- a = Number of instances where the RDC is measured;
- b = Number of instances where the RDC is not measured, but HPC is measured;
- c = Number of instances where the RDC is measured but not detected and no HPC is measured;
- d = Number of instances where the RDC is measured but not detected, and where the HPC is greater than 500/ml; and
- e = Number of instances where the RDC is not measured and HPC is greater than 500/ml.
NOTICE OF ADOPTED AMENDMENTS

2) Subsection (d)(1) does not apply if the Agency determines, pursuant to Section 611.213, that a supplier has no means for having a sample analyzed for HPC by a certified laboratory under the requisite time and temperature conditions specified by Section 611.531(a) and that the supplier is providing adequate disinfection in the distribution system.

BOARD NOTE: Derived from 40 CFR 141.72(a) (2003).

Section 611.242 Filtered PWSs

Each supplier that provides filtration treatment must provide disinfection treatment as follows:

a) The disinfection treatment must be sufficient to ensure that the total treatment processes of that system achieve at least 99.9 percent (3-log) inactivation or removal of Giardia lamblia cysts and at least 99.99 percent (4-log) inactivation or removal of viruses.

b) The RDC in the water entering the distribution system, measured as specified in Section 611.531(b) and 611.533(b), cannot be less than 0.2 mg/l for more than 4 hours.

c) RDC in the distribution system.

1) The RDC in the distribution system, measured as total chlorine, combined chlorine, or chlorine dioxide, as specified in Section 611.531(b) and 611.533(c), cannot be undetectable in more than 5 percent of the samples each month, for any two consecutive months that the system serves water to the public. Water in the distribution system with HPC less than or equal to 500/ml, measured as specified in Section 611.531(a), is deemed to have a detectable RDC for purposes of determining compliance with this requirement. Thus, the value "V" in the following formula cannot exceed 5 percent in one month, for any two consecutive months.

\[ V = \frac{100(c + d + e)}{(a + b)} \]

where the terms mean the following:

e = Number of instances where the RDC is not measured and HPC is greater than 500/ml.

2) Subsection (c)(1) does not apply if the Agency determines, pursuant to Section 611.213, that a supplier has no means for having a sample analyzed for HPC by a certified laboratory under the requisite time and temperature conditions specified by Section 611.531(a) and that the supplier is providing adequate disinfection in the distribution system.

Section 611.250 Filtration

A supplier that uses a surface water source or a groundwater source under the direct influence of surface water, and does not meet all of the criteria in Sections 611.231 and 611.232 for avoiding filtration, must have provided treatment consisting of both disinfection, as specified in Section 611.242, and filtration treatment that complies with the requirements of subsection (a), (b), (c), (d), or (e) by June 29, 1993, or within 18 months after the failure to meet any one of the criteria for avoiding filtration in Sections 611.231 and 611.232, whichever is later. Failure to meet any requirement after the date specified in this introductory paragraph is a treatment technique violation.

a) Conventional filtration treatment or direct filtration.

1) For a system using conventional filtration or direct filtration, the turbidity level of representative samples of the system's filtered water must be less
than or equal to 0.5 NTU in at least 95 percent of the measurements taken each month, measured as specified in Section 611.531(a) and 611.533(a), except that if the Agency determines, by a SEP issued pursuant to Section 611.110, that the system is capable of achieving at least 99.9 percent removal or inactivation of Giardia lamblia cysts at some turbidity level higher than 0.5 NTU in at least 95 percent of the measurements taken each month, the Agency must substitute this higher turbidity limit for that system. However, in no case may the Agency approve a turbidity limit that allows more than 1 NTU in more than five percent of the samples taken each month, measured as specified in Section 611.531(a) and 611.533(a).

2) The turbidity level of representative samples of a system's filtered water must at no time exceed 5 NTU.

3) Beginning January 1, 2001, a supplier serving at least 10,000 or more persons must meet the turbidity requirements of Section 611.743(a).

4) Beginning January 1, 2005, a supplier that serves fewer than 10,000 people must meet the turbidity requirements in Section 611.955.

b) Slow sand filtration.

1) For a system using slow sand filtration, the turbidity level of representative samples of the system's filtered water must be less than or equal to 1 NTU in at least 95 percent of the measurements taken each month, measured as specified in Section 611.531(a) and 611.533(a), except that if the Agency determines, by a SEP issued pursuant to Section 611.110, that there is no significant interference with disinfection at a higher level, the Agency must substitute the higher turbidity limit for that system.

2) The turbidity level of representative samples of a system's filtered water must at no time exceed 5 NTU, measured as specified in Section 611.531(a) and 611.533(a).

c) Diatomaceous earth filtration.

1) For a system using diatomaceous earth filtration, the turbidity level of representative samples of the system's filtered water must be less than or equal to 1 NTU in at least 95 percent of the measurements taken each
NOTICE OF ADOPTED AMENDMENTS

2) The turbidity level of representative samples of a system's filtered water must at no time exceed 5 NTU, measured as specified in Section 611.531(a) and 611.533(a).

d) Other filtration technologies. A supplier may use a filtration technology not listed in subsections (a) through (c) if it demonstrates, by a SEP application pursuant to Section 611.110, to the Agency, using pilot plant studies or other means, that the alternative filtration technology, in combination with disinfection treatment that meets the requirements of Section 611.242, consistently achieves 99.9 percent removal or inactivation of Giardia lamblia cysts and 99.99 percent removal or inactivation of viruses. For a supplier that makes this demonstration, the requirements of subsection (b) apply. Beginning January 1, 2002, a supplier serving 10,000 or more persons must meet the requirements for other filtration technologies in Section 611.743(b). Beginning January 1, 2005, a supplier that serves fewer than 10,000 people must meet the requirements for other filtration technologies in Section 611.955.

Section 611.261 Unfiltered PWSs: Reporting and Recordkeeping

A supplier that uses a surface water source and does not provide filtration treatment must report monthly to the Agency the information specified in this Section beginning December 31, 1990, unless the Agency has determined that filtration is required, in which case the Agency must, by a SEP issued pursuant to Section 611.110, specify alternative reporting requirements, as appropriate, until filtration is in place. A supplier that uses a groundwater source under the direct influence of surface water and does not provide filtration treatment must report monthly to the Agency the information specified in this Section beginning December 31, 1990, or six months after the Agency determines that the groundwater source is under the direct influence of surface water, whichever is later, unless the Agency has determined that filtration is required, in which case the Agency must, by a SEP issued pursuant to Section 611.110, specify alternative reporting requirements, as appropriate, until filtration is in place.

NOTICE OF ADOPTED AMENDMENTS

BOARD NOTE: See Section 611.300(d) for an elevated nitrate level for non-CWSs. USEPA removed and reserved the MCL for nickel on June 29, 1995, at 60 Fed. Reg. 33932, as a result of a judicial order in Nickel Development Institute v. EPA, No. 92-1407, and Specialty Steel Industry of the U.S. v. Browner, No. 92-1410 (D.C. Cir. Feb. 23 & Mar. 6, 1995), while retaining the contaminant, analytical methodology, and detection limit listings for this contaminant.

c) USEPA has identified the following as BAT for achieving compliance with the MCL for the IOCs identified in subsection (b) of this Section, except for fluoride:

At 40 CFR 141.62(d) (2003), USEPA identified the following as the affordable technology, treatment technique, or other means available to systems serving 10,000 persons or fewer for achieving compliance with the maximum contaminant level for arsenic:

Small System Compliance Technologies (SSCTs)¹ for Arsenic²

| Small system compliance technology | Affordable for listed small system categories³ |

\textsuperscript{1} Section 1412(b)(4)(E)(ii) of the federal SDWA (42 USC 300g-1(b)(4)(E)(ii)) specifies that SSCTs must be affordable and technically feasible for a small system supplier.
\textsuperscript{2} SSCTs for As\textsuperscript{V}. Pre-oxidation may be required to convert As\textsuperscript{III} to As\textsuperscript{V}.
\textsuperscript{3} The federal SDWA specifies three categories of small system suppliers: (1) those serving 25 or more, but fewer than 501 persons, (2) those serving more than 500 but fewer than 3,301 persons, and (3) those serving more than 3,300 but fewer than 10,001 persons.
\textsuperscript{4} When POU or POE devices are used for compliance, programs to ensure proper long-term operation, maintenance, and monitoring must be provided by the water supplier to ensure adequate performance.
\textsuperscript{5} Unlikely to be installed solely for arsenic removal. May require pH adjustment to optimal range if high removals are needed.
\textsuperscript{6} Technologies reject a large volume of water – may not be appropriate for areas where water quantity may be an issue.
\textsuperscript{7} To obtain high removals, iron to arsenic ratio must be at least 20:1.

SUBPART I: DISINFECTANT RESIDUALS, DISINFECTION BYPRODUCTS, AND DISINFECTION BYPRODUCT PRECURSORS

Section 611.382 Monitoring Requirements

a) General requirements.
NOTICE OF ADOPTED AMENDMENTS

1) A supplier must take all samples during normal operating conditions.

2) A supplier may consider multiple wells drawing water from a single aquifer as one treatment plant for determining the minimum number of TTHM and HAA5 samples required with Agency approval.

3) Failure to monitor in accordance with the monitoring plan required under subsection (f) of this Section is a monitoring violation.

4) Where compliance is based on a running annual average of monthly or quarterly samples or averages and the supplier's failure to monitor makes it impossible to determine compliance with MCLs or MRDLs, this failure to monitor will be treated as a violation for the entire period covered by the annual average.

5) A supplier must use only data collected under the provisions of this Subpart I or under the Information Collection Rule (40 CFR 141, Subpart M) to qualify for reduced monitoring.

b) Monitoring requirements for disinfection byproducts (DBPs).

1) TTHMs and HAA5.

   A) Routine monitoring. A supplier must monitor at the following frequency:

      i) A Subpart B system supplier that serves 10,000 or more persons must collect four water samples per quarter per treatment plant. At least 25 percent of all samples collected each quarter must be collected at locations representing maximum residence time. The remaining samples may be taken at locations representative of at least average residence time in the distribution system and representing the entire distribution system, taking into account the number of persons served, the different sources of water, and the different treatment methods.

      ii) A Subpart B system supplier that serves from 500 to 9,999 persons must collect one water sample per quarter per
treatment plant. The samples must be collected from locations representing maximum residence time.

iii) A Subpart B system supplier that serves fewer than 500 persons must collect one sample per year per treatment plant during month of warmest water temperature. The samples must be collected from locations representing maximum residence time. If the sample (or average of annual samples, if more than one sample is taken) exceeds the MCL, the supplier must increase the monitoring frequency to one sample per treatment plant per quarter, taken at a point reflecting the maximum residence time in the distribution system, until the supplier meets the standards in subsection (b)(1)(D) of this Section.

iv) A supplier that uses only groundwater not under direct influence of surface water, which uses chemical disinfectant, and which serves 10,000 or more persons must collect one water sample per quarter per treatment plant. The samples must be collected from locations representing maximum residence time.

v) A supplier that uses only groundwater not under direct influence of surface water, which uses chemical disinfectant, and which serves fewer than 10,000 persons must collect one sample per year per treatment plant during month of warmest water temperature. The samples must be collected from locations representing maximum residence time. If the sample (or average of annual samples, if more than one sample is taken) exceeds MCL, the supplier must increase monitoring to one sample per treatment plant per quarter, taken at a point reflecting the maximum residence time in the distribution system, until the supplier meets standards in subsection (b)(1)(D) of this Section.

BOARD NOTE: If a supplier elects to sample more frequently than the minimum required, at least 25 percent of all samples collected each quarter (including those taken in excess of the required frequency) must be taken at locations that represent the maximum residence time of the water in the distribution system.
NOTICE OF ADOPTED AMENDMENTS

The remaining samples must be taken at locations representative of at least average residence time in the distribution system. For a supplier using groundwater not under the direct influence of surface water, multiple wells drawing water from a single aquifer may be considered one treatment plant for determining the minimum number of samples required, with Agency approval.

B) A supplier may reduce monitoring, except as otherwise provided, in accordance with the following:

i) A Subpart B system supplier that serves 10,000 or more persons and which has a source water annual average TOC level, before any treatment, of less than or equal to 4.0 mg/l may reduce monitoring if it has monitored for at least one year and its TTHM annual average is less than or equal to 0.040 mg/l and HAA5 annual average is less than or equal to 0.030 mg/l. The reduced monitoring allowed is a minimum of one sample per treatment plant per quarter at a distribution system location reflecting maximum residence time.

ii) A Subpart B system supplier that serves from 500 to 9,999 persons and which has a source water annual average TOC level, before any treatment, of less than or equal to 4.0 mg/l may reduce monitoring if it has monitored at least one year and its TTHM annual average is less than or equal to 0.040 mg/l and HAA5 annual average is less than or equal to 0.030 mg/l. The reduced monitoring allowed is a minimum of one sample per treatment plant per year at a distribution system location reflecting maximum residence time during month of warmest water temperature.

BOARD NOTE: Any Subpart B system supplier serving fewer than 500 persons may not reduce its monitoring to less than one sample per treatment plant per year.

iii) A supplier using only groundwater not under direct influence of surface water using chemical disinfectant and serving 10,000 or more persons may reduce monitoring if it has monitored at least one year and its TTHM annual
average is less than or equal to 0.040 mg/l and HAA5 annual average is less than or equal to 0.030 mg/l. The reduced monitoring allowed is a minimum of one sample per treatment plant per year at a distribution system location reflecting maximum residence time during month of warmest water temperature.

iv) A supplier using only groundwater not under direct influence of surface water using chemical disinfectant and serving fewer than 10,000 persons may reduce monitoring if it has monitored at least one year and its TTHM annual average is less than or equal to 0.040 mg/l and HAA5 annual average is less than or equal to 0.030 mg/l for two consecutive years or TTHM annual average is less than or equal to 0.020 mg/l and HAA5 annual average is less than or equal to 0.015 mg/l for one year. The reduced monitoring allowed is a minimum of one sample per treatment plant per three year monitoring cycle at a distribution system location reflecting maximum residence time during month of warmest water temperature, with the three-year cycle beginning on January 1 following the quarter in which the supplier qualifies for reduced monitoring.

C) A supplier on a reduced monitoring schedule may remain on that reduced schedule as long as the average of all samples taken in the year (for a supplier that must monitor quarterly) or the result of the sample (for a supplier that must monitor no more frequently than annually) is no more than 0.060 mg/l and 0.045 mg/l for TTHMs and HAA5, respectively. A supplier that does not meet these levels must resume monitoring at the frequency identified in subsection (b)(1)(A) of this Section (minimum monitoring frequency column) in the quarter immediately following the monitoring period in which the supplier exceeds 0.060 mg/l for TTHMs or 0.045 mg/l for HAA5. For a supplier using only groundwater not under the direct influence of surface water and serving fewer than 10,000 persons, if either the TTHM annual average is greater than 0.080 mg/l or the HAA5 annual average is greater than 0.060 mg/l, the supplier must go to increased monitoring identified in subsection (b)(1)(A) of this Section.
NOTICE OF ADOPTED AMENDMENTS

(sample location column) in the quarter immediately following the monitoring period in which the supplier exceeds 0.080 mg/l for TTHMs or 0.060 mg/l for HAA5.

D) A supplier on increased monitoring may return to routine monitoring if, after at least one year of monitoring, its TTHM annual average is less than or equal to 0.060 mg/l and its HAA5 annual average is less than or equal to 0.045 mg/l.

E) The Agency may return a supplier to routine monitoring.

2) Chlorite. A CWS or NTNCWS supplier using chlorine dioxide, for disinfection or oxidation, must conduct monitoring for chlorite.

A) Routine monitoring.

i) Daily monitoring. A supplier must take daily samples at the entrance to the distribution system. For any daily sample that exceeds the chlorite MCL, the supplier must take additional samples in the distribution system the following day at the locations required by subsection (b)(2)(B) of this Section, in addition to the sample required at the entrance to the distribution system.

ii) Monthly monitoring. A supplier must take a three-sample set each month in the distribution system. The supplier must take one sample at each of the following locations: near the first customer, at a location representative of average residence time, and at a location reflecting maximum residence time in the distribution system. Any additional routine sampling must be conducted in the same manner (as three-sample sets, at the specified locations). The supplier may use the results of additional monitoring conducted under subsection (b)(2)(B) of this Section to meet the requirement for monitoring in this subsection (b)(2)(A)(ii).

B) Additional monitoring. On each day following a routine sample monitoring result that exceeds the chlorite MCL at the entrance to the distribution system, the supplier must take three chlorite
distribution system samples at the following locations: as close to the first customer as possible, in a location representative of average residence time, and as close to the end of the distribution system as possible (reflecting maximum residence time in the distribution system).

C) Reduced monitoring.

i) Chlorite monitoring at the entrance to the distribution system required by subsection (b)(2)(A)(i) of this Section may not be reduced.

ii) Chlorite monitoring in the distribution system required by subsection (b)(2)(A)(ii) of this Section may be reduced to one three-sample set per quarter after one year of monitoring where no individual chlorite sample taken in the distribution system under subsection (b)(2)(A)(ii) of this Section has exceeded the chlorite MCL and the supplier has not been required to conduct monitoring under subsection (b)(2)(B) of this Section. The supplier may remain on the reduced monitoring schedule until either any of the three individual chlorite samples taken quarterly in the distribution system under subsection (b)(2)(A)(ii) of this Section exceeds the chlorite MCL or the supplier is required to conduct monitoring under subsection (b)(2)(B) of this Section, at which time the supplier must revert to routine monitoring.

3) Bromate.

A) Routine monitoring. A CWS or NTNCWS supplier using ozone, for disinfection or oxidation, must take one sample per month for each treatment plant in the system using ozone. A supplier must take samples monthly at the entrance to the distribution system while the ozonation system is operating under normal conditions.

B) Reduced monitoring. A supplier required to analyze for bromate may reduce monitoring from monthly to once per quarter, if the supplier demonstrates that the average source water bromide concentration is less than 0.05 mg/l based upon representative
POLLUTION CONTROL BOARD

NOTICE OF ADOPTED AMENDMENTS

monthly bromide measurements for one year. The supplier may remain on reduced bromate monitoring until the running annual average source water bromide concentration, computed quarterly, is equal to or greater than 0.05 mg/ℓ based upon representative monthly measurements. If the running annual average source water bromide concentration is equal to or greater than 0.05 mg/ℓ, the supplier must resume routine monitoring required by subsection (b)(3)(A) of this Section.

c) Monitoring requirements for disinfectant residuals.

1) Chlorine and chloramines.

A) Routine monitoring. A CWS or NTNCWS supplier that uses chlorine or chloramines must measure the residual disinfectant level in the distribution system at the same point in the distribution system and at the same time as total coliforms are sampled, as specified in Section 611.521. A Subpart B system supplier may use the results of residual disinfectant concentration sampling conducted under Section 611.532 for unfiltered systems or Section 611.533 for systems that filter, in lieu of taking separate samples.

B) Reduced monitoring. Monitoring may not be reduced.

2) Chlorine dioxide.

A) Routine monitoring. A CWS, an NTNCWS, or a transient non-CWS supplier that uses chlorine dioxide for disinfection or oxidation must take daily samples at the entrance to the distribution system. For any daily sample that exceeds the MRDL, the supplier must take samples in the distribution system the following day at the locations required by subsection (c)(2)(B) of this Section, in addition to the sample required at the entrance to the distribution system.

B) Additional monitoring. On each day following a routine sample monitoring result that exceeds the MRDL, the supplier must take three chlorine dioxide distribution system samples. If chlorine dioxide or chloramines are used to maintain a disinfectant residual in the distribution system, or if chlorine is used to maintain a
disinfectant residual in the distribution system and there are no disinfection addition points after the entrance to the distribution system (i.e., no booster chlorination), the supplier must take three samples as close to the first customer as possible, at intervals of at least six hours. If chlorine is used to maintain a disinfectant residual in the distribution system and there are one or more disinfection addition points after the entrance to the distribution system (i.e., booster chlorination), the supplier must take one sample at each of the following locations: as close to the first customer as possible, in a location representative of average residence time, and as close to the end of the distribution system as possible (reflecting maximum residence time in the distribution system).

C) Reduced monitoring. Monitoring may not be reduced.

d) Monitoring requirements for disinfection byproduct (DBP) precursors.

1) Routine monitoring. A Subpart B system supplier that uses conventional filtration treatment (as defined in Section 611.101) must monitor each treatment plant for TOC not past the point of combined filter effluent turbidity monitoring and representative of the treated water. A supplier required to monitor under this subsection (d)(1) must also monitor for TOC in the source water prior to any treatment at the same time as monitoring for TOC in the treated water. These samples (source water and treated water) are referred to as paired samples. At the same time as the source water sample is taken, a system must monitor for alkalinity in the source water prior to any treatment. A supplier must take one paired sample and one source water alkalinity sample per month per plant at a time representative of normal operating conditions and influent water quality.

2) Reduced monitoring. A Subpart B system supplier with an average treated water TOC of less than 2.0 mg/ℓ for two consecutive years, or less than 1.0 mg/ℓ for one year, may reduce monitoring for both TOC and alkalinity to one paired sample and one source water alkalinity sample per plant per quarter. The supplier must revert to routine monitoring in the month following the quarter when the annual average treated water TOC greater than or equal to 2.0 mg/ℓ.
e) Bromide. A supplier required to analyze for bromate may reduce bromate monitoring from monthly to once per quarter, if the supplier demonstrates that the average source water bromide concentration is less than 0.05 mg/ℓ based upon representative monthly measurements for one year. The supplier must continue bromide monitoring to remain on reduced bromate monitoring.

f) Monitoring plans. Each supplier required to monitor under this Subpart I must develop and implement a monitoring plan. The supplier must maintain the plan and make it available for inspection by the Agency and the general public no later than 30 days following the applicable compliance dates in Section 611.380(b). A Subpart B system supplier serving more than 3,300 persons must submit a copy of the monitoring plan to the Agency no later than the date of the first report required under Section 611.384. After review, the Agency may require changes in any plan elements. The plan must include at least the following elements:

1) Specific locations and schedules for collecting samples for any parameters included in this Subpart I;

2) How the supplier will calculate compliance with MCLs, MRDLs, and treatment techniques; and

3) If approved for monitoring as a consecutive system, or if providing water to a consecutive system, under the provisions of Section 611.500, the sampling plan must reflect the entire distribution system.

(Source: Amended at 29 Ill. Reg. 2287, effective January 25, 2005)

Section 611.383 Compliance Requirements

a) General requirements.

1) Where compliance is based on a running annual average of monthly or quarterly samples or averages and the supplier fails to monitor for TTHM, HAA5, or bromate, this failure to monitor will be treated as a monitoring violation for the entire period covered by the annual average. Where compliance is based on a running annual average of monthly or quarterly samples or averages and the supplier's failure to monitor makes it impossible to determine compliance with the MRDL for chlorine or
chioramines, this failure to monitor will be treated as a monitoring violation for the entire period covered by the annual average.

2) All samples taken and analyzed under the provisions of this Subpart I must be included in determining compliance, even if that number is greater than the minimum required.

3) If, during the first year of monitoring under Section 611.382, any individual quarter's average will cause the running annual average of that supplier to exceed the MCL for total trihalomethanes, haloacetic acids (five), or bromate or the MRDL for chlorine or chloramine, the supplier is out of compliance at the end of that quarter.

b) Disinfection byproducts (DBPs).

1) TTHMs and HAA5.

A) For a supplier monitoring quarterly, compliance with MCLs in Section 611.312 must be based on a running annual arithmetic average, computed quarterly, of quarterly arithmetic averages of all samples collected by the supplier as prescribed by Section 611.382(b)(1).

B) For a supplier monitoring less frequently than quarterly, the supplier demonstrates MCL compliance if the average of samples taken that year under the provisions of Section 611.382(b)(1) does not exceed the MCLs in Section 611.312. If the average of these samples exceeds the MCL, the supplier must increase monitoring to once per quarter per treatment plant, and such a system is not in violation of the MCL until it has completed one year of quarterly monitoring, unless the result of fewer than four quarters of monitoring will cause the running annual average to exceed the MCL, in which case the supplier is in violation at the end of that quarter. A supplier required to increase to quarterly monitoring must calculate compliance by including the sample that triggered the increased monitoring plus the following three quarters of monitoring.

C) If the running annual arithmetic average of quarterly averages covering any consecutive four-quarter period exceeds the MCL,
NOTICE OF ADOPTED AMENDMENTS

the supplier is in violation of the MCL and must notify the public pursuant to Subpart V of this Part in addition to reporting to the Agency pursuant to Section 611.384.

D) If a PWS fails to complete four consecutive quarter's monitoring, compliance with the MCL for the last four-quarter compliance period must be based on an average of the available data.

2) Bromate. Compliance must be based on a running annual arithmetic average, computed quarterly, of monthly samples (or, for months in which the supplier takes more than one sample, the average of all samples taken during the month) collected by the supplier, as prescribed by Section 611.382(b)(3). If the average of samples covering any consecutive four-quarter period exceeds the MCL, the supplier is in violation of the MCL and must notify the public pursuant to Subpart V of this Part, in addition to reporting to the Agency pursuant to Section 611.384. If a PWS supplier fails to complete 12 consecutive months' monitoring, compliance with the MCL for the last four-quarter compliance period must be based on an average of the available data.

3) Chlorite. Compliance must be based on an arithmetic average of each three sample set taken in the distribution system as prescribed by Section 611.382(b)(2)(A)(ii) and Section 611.382(b)(2)(B). If the arithmetic average of any three sample set exceeds the MCL, the supplier is in violation of the MCL and must notify the public pursuant to Subpart V of this Part, in addition to reporting to the Agency pursuant to Section 611.384.

c) Disinfectant residuals.

1) Chlorine and chloramines.

A) Compliance must be based on a running annual arithmetic average, computed quarterly, of monthly averages of all samples collected by the supplier under Section 611.382(c)(1). If the average of quarterly averages covering any consecutive four-quarter period exceeds the MRDL, the supplier is in violation of the MRDL and must notify the public pursuant to Subpart V of this Part, in addition to reporting to the Agency pursuant to Section 611.384.
B) In cases where a supplier switches between the use of chlorine and chloramines for residual disinfection during the year, compliance must be determined by including together all monitoring results of both chlorine and chloramines in calculating compliance. Reports submitted pursuant to Section 611.384 must clearly indicate that residual disinfectant was analyzed for each sample.

2) Chlorine dioxide.

A) Acute violations. Compliance must be based on consecutive daily samples collected by the supplier under Section 611.382(c)(2). If any daily sample taken at the entrance to the distribution system exceeds the MRDL, and on the following day one (or more) of the three samples taken in the distribution system exceeds the MRDL, the supplier is in violation of the MRDL and must take immediate corrective action to lower the level of chlorine dioxide below the MRDL and must notify the public pursuant to the procedures for acute health risks in Subpart V of this Part, in addition to reporting to the Agency pursuant to Section 611.384. Failure to take samples in the distribution system the day following an exceedence of the chlorine dioxide MRDL at the entrance to the distribution system will also be considered an MRDL violation and the supplier must notify the public of the violation in accordance with the provisions for acute violations under Subpart V of this Part, in addition to reporting to the Agency pursuant to Section 611.384.

B) Nonacute violations. Compliance must be based on consecutive daily samples collected by the supplier under Section 611.382(c)(2). If any two consecutive daily samples taken at the entrance to the distribution system exceed the MRDL and all distribution system samples taken are below the MRDL, the supplier is in violation of the MRDL and must take corrective action to lower the level of chlorine dioxide below the MRDL at the point of sampling and must notify the public pursuant to the procedures for nonacute health risks in Subpart V of this Part, in addition to reporting to the Agency pursuant to Section 611.384. Failure to monitor at the entrance to the distribution system the day following an exceedence of the chlorine dioxide MRDL at the entrance to the distribution system is also an MRDL violation and the supplier must notify the public of the violation in accordance
POLLUTION CONTROL BOARD

NOTICE OF ADOPTED AMENDMENTS

with the provisions for nonacute violations under Subpart V of this Part, in addition to reporting to the Agency pursuant to Section 611.384.

d) Disinfection byproduct (DBP) precursors. Compliance must be determined as specified by Section 611.385(c). A supplier may begin monitoring to determine whether Step 1 TOC removals can be met 12 months prior to the compliance date for the supplier. This monitoring is not required and failure to monitor during this period is not a violation. However, any supplier that does not monitor during this period, and then determines in the first 12 months after the compliance date that it is not able to meet the Step 1 requirements in Section 611.141(b)(2) and must therefore apply for alternate minimum TOC removal (Step 2) requirements, is not eligible for retroactive approval of alternate minimum TOC removal (Step 2) requirements as allowed pursuant to Section 611.385(b)(3) and is in violation of an NPDWR. A supplier may apply for alternate minimum TOC removal (Step 2) requirements any time after the compliance date. For a supplier required to meet Step 1 TOC removals, if the value calculated under Section 611.385(c)(1)(D) is less than 1.00, the supplier is in violation of the treatment technique requirements and must notify the public pursuant to Subpart V of this Part, in addition to reporting to the Agency pursuant to Section 611.384.

SUBPART L: MICROBIOLOGICAL MONITORING AND ANALYTICAL REQUIREMENTS

Section 611.526 Analytical Methodology

a) The standard sample volume required for total coliform analysis, regardless of analytical method used, is 100 ml.

b) Suppliers need only determine the presence or absence of total coliforms; a determination of total coliform density is not required.

1) Total Coliform Fermentation Technique, as set forth in Standard Methods, 18\textsuperscript{th}, 19\textsuperscript{th}, or 20\textsuperscript{th} ed.: Methods 9221 A and B, as follows:

A) Lactose broth, as commercially available, may be used in lieu of lauryl tryptose broth if the supplier conducts at least 25 parallel tests between this medium and lauryl tryptose broth using the water normally tested and this comparison demonstrates that the false-positive rate and false-negative rate for total coliforms, using lactose broth, is less than 10 percent;

B) If inverted tubes are used to detect gas production, the media should cover these tubes at least one-half to two-thirds after the sample is added; and

C) No requirement exists to run the completed phase on 10 percent of all total coliform-positive confirmed tubes.

2) Total Coliform Membrane Filter Technique, as set forth in Standard Methods, 18\textsuperscript{th}, 19\textsuperscript{th}, or 20\textsuperscript{th} ed.: Methods 9222 A, B, and C.

3) Presence-Absence (P-A) Coliform Test, as set forth in: Standard Methods, 18\textsuperscript{th}, 19\textsuperscript{th}, or 20\textsuperscript{th} ed.: Method 9221 D, as follows:

A) No requirement exists to run the completed phase on 10 percent of all total coliform-positive confirmed tubes; and

B) Six-times formulation strength may be used if the medium is filter-sterilized rather than autoclaved.

4) ONPG-MUG test: Standard Methods, 18\textsuperscript{th}, 19\textsuperscript{th}, or 20\textsuperscript{th} ed.: Method 9223. (The ONPG-MUG test is also known as the Autoanalysis Colilert System).

5) Colisure Test (Autoanalysis Colilert System). (The Colisure Test may be read after an incubation time of 24 hours.)

for the purposes of the surface water treatment rule, under Section 611.531, for which quantitation of total coliforms is necessary. For these reasons, USEPA included Standard Methods: Method 9221 C for the surface water treatment rule, but did not include it for the purposes of the total coliform rule, under this Section.

6) E*Colite® Test (Charm Sciences, Inc.).

7) m-ColiBlue24® Test (Hatch Company).

8) Readycult Coliforms 100 Presence/Absence Test.

9) Membrane Filter Technique using Chromocult Coliform Doliiform Agar.

10) Colitag® Test.

d) This subsection corresponds with 40 CFR 141.21(f)(4), which USEPA has marked "reserved." This statement maintains structural consistency with the federal regulations.

e) Suppliers must conduct fecal coliform analysis in accordance with the following procedure:

1) When the MTF Technique or P-A Coliform Test is used to test for total coliforms, shake the lactose-positive presumptive tube or P-A vigorously and transfer the growth with a sterile 3-mm loop or sterile applicator stick into brilliant green lactose bile broth and EC medium, defined below, to determine the presence of total and fecal coliforms, respectively.

2) For approved methods that use a membrane filter, transfer the total coliform-positive culture by one of the following methods: remove the membrane containing the total coliform colonies from the substrate with sterile forceps and carefully curl and insert the membrane into a tube of EC medium; (the laboratory may first remove a small portion of selected colonies for verification); swab the entire membrane filter surface with a sterile cotton swab and transfer the inoculum to EC medium (do not leave the cotton swab in the EC medium); or inoculate individual total coliform-positive colonies into EC medium. Gently shake the inoculated tubes of EC medium to insure adequate mixing and incubate in a waterbath at 44.5 ±0.2° C for 24 ±2 hours. Gas production of any amount in the inner
fermentation tube of the EC medium indicates a positive fecal coliform test.

3) EC medium is described in Standard Methods, 18th ed., 19th ed., and 20th ed.: Method 9221E.

4) Suppliers need only determine the presence or absence of fecal coliforms; a determination of fecal coliform density is not required.

f) Suppliers must conduct analysis of E. coli in accordance with one of the following analytical methods, incorporated by reference in Section 611.102:

1) EC medium supplemented with 50 µg/ℓ of MUG (final concentration). EC medium is as described in subsection (e) of this Section. MUG may be added to EC medium before autoclaving. EC medium supplemented with 50 µg/ℓ MUG is commercially available. At least 10 mℓ of EC medium supplemented with MUG must be used. The inner inverted fermentation tube may be omitted. The procedure for transferring a total coliform-positive culture to EC medium supplemented with MUG is as in subsection (e) of this Section for transferring a total coliform-positive culture to EC medium. Observe fluorescence with an ultraviolet light (366 nm) in the dark after incubating tube at 44.5 ±2° C for 24 ±2 hours; or

2) Nutrient agar supplemented with 100 µg/ℓ MUG (final concentration), as described in Standard Methods, 19th ed. and 20th ed.: Method 9222 G. This test is used to determine if a total coliform-positive sample, as determined by the MF technique, contains E. coli. Alternatively, Standard Methods, 18th ed.: Method 9221 B may be used if the membrane filter containing a total coliform-positive colony or colonies is transferred to nutrient agar, as described in Method 9221 B (paragraph 3), supplemented with 100 µg/ℓ MUG. If Method 9221 B is used, incubate the agar plate at 35° Celsius for four hours, then observe the colony or colonies under ultraviolet light (366-nm) in the dark for fluorescence. If fluorescence is visible, E. coli are present.

3) Minimal Medium ONPG-MUG (MMO-MUG) Test, as set forth in Appendix D of this Part. (The Autoanalysis Colilert System is a MMO-MUG test.) If the MMO-MUG test is total coliform positive after a 24-hour incubation, test the medium for fluorescence with a 366-nm ultraviolet light (preferably with a six-watt lamp) in the dark. If
fluorescence is observed, the sample is E. coli-positive. If fluorescence is questionable (cannot be definitively read) after 24 hours incubation, incubate the culture for an additional four hours (but not to exceed 28 hours total), and again test the medium for fluorescence. The MMO-MUG test with hepes buffer is the only approved formulation for the detection of E. coli.

4) The Colisure Test (Autoanalysis Colilert System).
5) The membrane filter method with MI agar.
6) The E*Colite® Test.
7) The m-ColiBlue24® Test.
8) Readycult Coliforms 100 Presence/Absence Test.
9) Membrane Filter Technique using Chromocult Coliform Doliform Agar.
10) Colitag® Test.

As an option to the method set forth in subsection (f)(3) of this Section, a supplier with a total coliform-positive, MUG-negative, MMO-MUG test may further analyze the culture for the presence of E. coli by transferring a 0.1 mL, 28-hour MMO-MUG culture to EC medium + MUG with a pipet. The formulation and incubation conditions of the EC medium + MUG, and observation of the results, are described in subsection (f)(1) of this Section.

This subsection corresponds with 40 CFR 141.21(f)(8), a central listing of all documents incorporated by reference into the federal microbiological analytical methods. The corresponding Illinois incorporations by reference are located at Section 611.102. This statement maintains structural parity with USEPA regulations.

Section 611.532 Unfiltered PWSs
A supplier that uses a surface water source and does not provide filtration treatment must monitor, unless the Agency has determined, pursuant to Section 611.211, that filtration is required. If the Agency determines that filtration is required, it must specify alternative monitoring requirements, as appropriate, until filtration is in place. A supplier that uses a groundwater source under the direct influence of surface water and which does not provide filtration treatment must monitor within six months after the Agency has determined, pursuant to Section 611.212, that the groundwater source is under the direct influence of surface water unless the Agency has determined that filtration is required, in which case the Agency must specify alternative monitoring requirements, as appropriate, until filtration is in place.

a) Fecal coliform or total coliform density measurements as required by Section 611.231(a) must be performed on representative source water samples immediately prior to the first or only point of disinfectant application. The supplier must sample for fecal or total coliforms at the minimum frequency specified in Table B of this Part each week the supplier serves water to the public. Also, one fecal or total coliform density measurement must be made every day the supplier serves water to the public and the turbidity of the source water exceeds 1 NTU (these samples count towards the weekly coliform sampling requirement) unless the Agency determines that the supplier, for logistical reasons outside the supplier's control cannot have the sample analyzed within 30 hours of collection.

b) Turbidity measurements as required by Section 611.231(b) must be performed on representative grab samples of source water immediately prior to the first or only point of disinfectant application every four hours (or more frequently) that the supplier serves water to the public. A supplier may substitute continuous turbidity monitoring for grab sample monitoring if it validates the continuous measurement for accuracy on a regular basis using a protocol approved by a SEP issued pursuant to Section 611.110.

c) The total inactivation ratio for each day that the supplier is in operation must be determined based on the CT$_{99.9}$ values in Appendix B of this Part, as appropriate. The parameters necessary to determine the total inactivation ratio must be monitored as follows:

1) The temperature of the disinfected water must be measured at least once per day at each RDC sampling point.

2) If the supplier uses chlorine, the pH of the disinfected water must be measured at least once per day at each chlorine RDC sampling point.
POLLUTION CONTROL BOARD

NOTICE OF ADOPTED AMENDMENTS

3) The disinfectant contact times ("T") must be determined for each day during peak hourly flow.

4) The RDCs ("C") of the water before or at the first customer must be measured each day during peak hourly flow.

5) If a supplier uses a disinfectant other than chlorine, the supplier may monitor by other methods approved pursuant to Section 611.241(a)(1) and (a)(2).

d) The total inactivation ratio must be calculated as follows:

1) If the supplier uses only one point of disinfectant application, the supplier may determine the total inactivation ratio based on either of the following two methods:

   A) One inactivation ratio \( Ai = CT_{calc}/CT_{99.9} \) is determined before or at the first customer during peak hourly flow and, if the \( Ai \) is greater than 1.0, the 99.9 percent Giardia lamblia inactivation requirement has been achieved; or

   B) Successive \( Ai \) values, representing sequential inactivation ratios, are determined between the point of disinfectant application and a point before or at the first customer during peak hourly flow. Under this alternative, the following method must be used to calculate the total inactivation ratio:

   i) Determine the following, for each sequence:

   \[ Ai = CT_{calc}/CT_{99.9} \]

   ii) Add the \( Ai \) values together, as follows:

   \[ B = \sum (Ai) \]

   iii) If \( B \) is greater than 1.0, the 99.9 percent Giardia lamblia inactivation requirement has been achieved.

2) If the supplier uses more than one point of disinfectant application before or at the first customer, the supplier must determine the CT value of each
disinfection sequence immediately prior to the next point of disinfectant application during peak hourly flow. The Ai value of each sequence and B must be calculated using the method in subsection (d)(1)(B) of this Section to determine if the supplier is in compliance with Section 611.241.

3) Although not required, the total percent inactivation (PI) for a supplier with one or more points of RDC monitoring may be calculated as follows:

\[
PI = 100 - \frac{100}{10^3 B}
\]

e) The RDC of the water entering the distribution system must be monitored continuously, and the lowest value must be recorded each day, except that if there is a failure in the continuous monitoring equipment, grab sampling every four hours may be conducted in lieu of continuous monitoring, but for no more than five working days following the failure of the equipment, and suppliers serving 3,300 or fewer persons may take grab samples in lieu of providing continuous monitoring on an ongoing basis at the frequencies prescribed in Table C of this Part. If at any time the RDC falls below 0.2 mg/l in a system using grab sampling in lieu of continuous monitoring, the supplier must take a grab sample every four hours until the RDC is equal to or greater than 0.2 mg/l.

f) Points of measurement.

1) The RDC must be measured at least at the same points in the distribution system and at the same time as total coliforms are sampled, as specified in Subpart L of this Section, except that the Agency must allow a supplier that uses both a surface water source or a groundwater source under direct influence of surface water, and a groundwater source to take disinfectant residual samples at points other than the total coliform sampling points if the Agency determines, by a SEP issued pursuant to Section 611.110, that such points are more representative of treated (disinfected) water quality within the distribution system. HPC may be measured in lieu of RDC.

2) If the Agency determines, pursuant to Section 611.213, that a supplier has no means for having a sample analyzed for HPC, measured as specified in subsection (a) of this Section, the requirements of subsection (f)(1) of this Section do not apply to that supplier.

Section 611.533 Filtered PWSs

A supplier that uses a surface water source or a groundwater source under the influence of surface water and provides filtration treatment must monitor in accordance with this Section.

a) Turbidity measurements as required by Section 611.250 must be performed on representative samples of the PWS's filtered water every four hours (or more frequently) that the supplier serves water to the public. A supplier may substitute continuous turbidity monitoring for grab sample monitoring if it validates the continuous measurement for accuracy on a regular basis using a protocol approved by a SEP issued pursuant to Section 611.110. For any suppliers using slow sand filtration or filtration treatment other than conventional treatment, direct filtration, or diatomaceous earth filtration, the Agency shall, by special exception permit condition, reduce the sampling frequency to once per day if it determines that less frequent monitoring is sufficient to indicate effective filtration performance. For suppliers serving 500 or fewer persons, the Agency shall, by a SEP issued pursuant to Section 611.110, reduce the turbidity sampling frequency to once per day, regardless of the type of filtration treatment used, if the Agency determines that less frequent monitoring is sufficient to indicate effective filtration performance.

b) RDC entering distribution system.

1) Suppliers serving more than 3300 persons. The RDC of the water entering the distribution system must be monitored continuously, and the lowest value must be recorded each day, except that, if there is a failure in the continuous monitoring equipment, grab sampling every four hours may be conducted in lieu of continuous monitoring, but for no more than five working days following the failure of the equipment.

2) Suppliers serving 3,300 or fewer persons may take grab samples in lieu of providing continuous monitoring on an ongoing basis at the frequencies each day prescribed in Table C. If at any time the RDC falls below 0.2 mg/ℓ in a system using grab sampling in lieu of continuous monitoring, the supplier must take a grab sample every four hours until RDC is equal to or greater than 0.2 mg/ℓ.
POLLUTION CONTROL BOARD

NOTICE OF ADOPTED AMENDMENTS

c) Points of measurement.

1) The RDC must be measured at least at the same points in the distribution system and at the same time as total coliforms are sampled, as specified in Sections 611.521 through 611.527 et seq., except that the Agency must allow a supplier that uses both a surface water source or a groundwater source under direct influence of surface water, and a groundwater source, to take RDC samples at points other than the total coliform sampling points if the Agency determines that such points are more representative of treated (disinfected) water quality within the distribution system. HPC, measured as specified in Section 611.531(a), may be measured in lieu of RDC.

2) Subsection (c)(1) of this Section does not apply if the Agency determines, pursuant to Section 611.213(c), that a system has no means for having a sample analyzed for HPC by a certified laboratory under the requisite time and temperature conditions specified by Section 611.531(a) and that the supplier is providing adequate disinfection in the distribution system.

Section 611.732 Beta Particle and Photon Radioactivity

Monitoring and compliance requirements for manmade radioactivity. To determine compliance with the maximum contaminant levels in Section 611.330(d) for beta particle and photon radioactivity, a supplier must monitor at a frequency as follows:

a) Effective December 8, 2003, a CWS supplier (either a surface water or groundwater supplier) designated by the Agency, by a SEP issued pursuant to Section 611.110, as vulnerable must sample for beta particle and photon radioactivity. A supplier must collect quarterly samples for beta emitters and annual samples for tritium and strontium-90 at each entry point to the distribution system (hereafter called a sampling point), beginning within one quarter after being notified by the Agency. A supplier already designated by the Agency must continue to sample until the Agency reviews and either reaffirms or removes the designation, by a SEP issued pursuant to Section 611.110.

1) If the gross beta particle activity minus the naturally occurring potassium-40 beta particle activity at a sampling point has a running annual average (computed quarterly) less than or equal to 50 pCi/ℓ (screening level), the Agency may reduce the frequency of monitoring at that sampling point to once every three years. A supplier must collect all samples required in subsection (a) of this Section during the reduced monitoring period.

2) For a supplier in the vicinity of a nuclear facility, the Agency may allow the CWS supplier to utilize environmental surveillance data collected by the nuclear facility in lieu of monitoring at the supplier's entry points, where the Agency determines if such data is applicable to a particular water system, by a SEP issued pursuant to Section 611.110. In the event that there is a release from a nuclear facility, a supplier that is using surveillance data must begin monitoring at the community water supplier's entry points in accordance with subsection (b)(1) of this Section.

b) Effective December 8, 2003, a CWS supplier (either a surface water or groundwater supplier) designated by the Agency, by a SEP issued pursuant to Section 611.110, as utilizing waters contaminated by effluents from nuclear facilities must sample for beta particle and photon radioactivity. A supplier must
collect quarterly samples for beta emitters and iodine-131 and annual samples for
tritium and strontium-90 at each entry point to the distribution system (hereafter
called a sampling point), beginning within one quarter after being notified by the
Agency. A supplier already designated by the Agency as a supplier using waters
contaminated by effluents from nuclear facilities must continue to sample until
the Agency reviews and either reaffirms or removes the designation, by a SEP
issued pursuant to Section 611.110.

1) Quarterly monitoring for gross beta particle activity must be based on the
analysis of monthly samples or the analysis of a composite of three
monthly samples.

BOARD NOTE: In corresponding 40 CFR 141.26(b)(2)(i), USEPA
recommends the use of a composite of three monthly samples.

2) For iodine-131, a composite of five consecutive daily samples must be
analyzed once each quarter. The Agency may, by a SEP issued pursuant
to Section 611.110, order more frequent monitoring for iodine-131 where
it is identified in the finished water.

3) Annual monitoring for strontium-90 and tritium must be conducted by
means of the analysis of a composite of four consecutive quarterly
samples or analysis of four quarterly samples.

BOARD NOTE: In corresponding 40 CFR 141.26(b)(2)(iii), USEPA
recommends the analysis of four consecutive quarterly samples.

4) If the gross beta particle activity minus the naturally occurring potassium-
40 beta particle activity at a sampling point has a running annual average
(computed quarterly) less than or equal to 15 pCi/ℓ, the Agency may, by a
SEP issued pursuant to Section 611.110, reduce the frequency of
monitoring at that sampling point to once every three years. The supplier
must collect the same type of samples required in subsection (b) of this
Section during the reduced monitoring period.

5) For a supplier in the vicinity of a nuclear facility, the Agency may allow
the CWS to utilize environmental surveillance data collected by the
nuclear facility in lieu of monitoring at the system's entry points, where
the Agency determines, by a SEP issued pursuant to Section 611.110, that
such data is applicable to the particular water system. In the event that
POLLUTION CONTROL BOARD

NOTICE OF ADOPTED AMENDMENTS

there is a release from a nuclear facility, a supplier that uses such surveillance data must begin monitoring at the CWS's entry points in accordance with subsection (b) of this Section.

c) Effective December 8, 2003, a CWS supplier designated by the Agency to monitor for beta particle and photon radioactivity can not apply to the Agency for a waiver from the monitoring frequencies specified in subsection (a) or (b) of this Section.

d) Effective December 8, 2003, a CWS supplier may analyze for naturally occurring potassium-40 beta particle activity from the same or equivalent sample used for the gross beta particle activity analysis. A supplier is allowed to subtract the potassium-40 beta particle activity value from the total gross beta particle activity value to determine if the screening level is exceeded. The potassium-40 beta particle activity must be calculated by multiplying elemental potassium concentrations (in mg/ℓ) by a factor of 0.82.

e) Effective December 8, 2003, if the gross beta particle activity minus the naturally occurring potassium-40 beta particle activity exceeds the appropriate screening level, an analysis of the sample must be performed to identify the major radioactive constituents present in the sample and the appropriate doses must be calculated and summed to determine compliance with Section 611.330(d)(1), using the formula in Section 611.330(d)(2). Doses must also be calculated and combined for measured levels of tritium and strontium to determine compliance.

f) Effective December 8, 2003, a supplier must monitor monthly at the sampling points that exceeds the maximum contaminant level in Section 611.330(d) beginning the month after the exceedence occurs. A supplier must continue monthly monitoring until the supplier has established, by a rolling average of three monthly samples, that the MCL is being met. A supplier that establishes that the MCL is being met must return to quarterly monitoring until it meets the requirements set forth in subsection (a)(1)(a)(2) or (b)(4)(b)(4) of this Section.

g) Until December 8, 2003, CWSs using surface water sources and serving more than 100,000 persons and such other CWSs as the Agency, by a SEP issued pursuant to Section 611.110, requires must monitor for compliance with Section 611.331 by analysis of a composite of four consecutive quarterly samples or analysis of four quarterly samples. Compliance with Section 611.331 is assumed without further analysis if the average annual concentration of gross beta particle activity is less than 50 pCi/ℓ and if the average annual concentrations of tritium
and strontium-90 are less than those listed in Section 611.331, provided that if both radionuclides are present the sum of their annual dose equivalents to bone marrow must not exceed 4 millirem/year.

1) If the gross beta particle activity exceeds 50 pCi/ℓ, an analysis of the sample must be performed to identify the major radioactive constituents present and the appropriate organ and total body doses must be calculated to determine compliance with Section 611.331.

2) If the MCLs are exceeded, the Agency shall, by a SEP issued pursuant to Section 611.110, require the supplier to conduct additional monitoring to determine the concentration of man-made radioactivity in principal watersheds.

3) The Agency shall, pursuant to subsection (j) of this Section, by a SEP issued pursuant to Section 611.110, require suppliers of water utilizing only groundwater to monitor for man-made radioactivity.

h) Until December 8, 2003, CWS suppliers must monitor at least every four years following the procedure in subsection (g) of this Section.

i) Until December 8, 2003, the Agency must, by a SEP issued pursuant to Section 611.110, require any CWS supplier utilizing waters contaminated by effluents from nuclear facilities to initiate quarterly monitoring for gross beta particle and iodine-131 radioactivity and annual monitoring for strontium-90 and tritium.

1) Quarterly monitoring for gross beta particle activity must be based on the analysis of monthly samples or the analysis of a composite of three monthly samples. If the gross beta particle activity in a sample exceeds 15 pCi/ℓ, the same or an equivalent sample must be analyzed for strontium-89 and cesium-134. If the gross beta particle activity exceeds 50 pCi/ℓ, an analysis of the sample must be performed to identify the major radioactive constituents present and the appropriate organ and total body doses must be calculated to determine compliance with Section 611.331.

2) For iodine-131, a composite of five consecutive daily samples must be analyzed once each quarter. The Agency shall, by a SEP issued pursuant to Section 611.110, require more frequent monitoring when iodine-131 is identified in the finished water.
3) The Agency shall, by a SEP issued pursuant to Section 611.110, require annual monitoring for strontium-90 and tritium by means of the analysis of a composite of four consecutive quarterly samples or analysis of four quarterly samples.

4) The Agency shall, by a SEP issued pursuant to Section 611.110, allow the substitution of environmental surveillance data taken in conjunction with a nuclear facility for direct monitoring of manmade radioactivity by the supplier where the Agency determines such data is applicable to the CWS.

j) Until December 8, 2003, if the average annual MCL for man-made radioactivity set forth in Section 611.331 is exceeded, the CWS supplier must give notice to the Agency and to the public as required by Subpart T. Monitoring at monthly intervals must be continued until the concentration no longer exceeds the MCL or until a monitoring schedule as a condition to a variance, adjusted standard, or enforcement action becomes effective.

BOARD NOTE: Subsections (a) through (f) derive from 40 CFR 141.26(b) (2003).

SUBPART X: ENHANCED FILTRATION AND DISINFECTION – SYSTEMS SERVING FEWER THAN 10,000 PEOPLE

Section 611.953 Disinfection Profile

a) Applicability. A disinfection profile is a graphical representation of a system’s level of Giardia lamblia or virus inactivation measured during the course of a year. A Subpart B community or non-transient non-community water system that serves fewer than 10,000 persons must develop a disinfection profile unless the Agency, by a SEP issued pursuant to Section 611.110, determines that a profile is unnecessary. The Agency may approve the use of a more representative data set for disinfection profiling than the data set required under subsections (c) through (g) of this Section.

b) Determination that a disinfection profile is not necessary. The Agency may only determine that a disinfection profile is not necessary if the system’s TTHM and HAA5 levels are below 0.064 mg/ℓ and 0.048 mg/ℓ, respectively. To determine these levels, TTHM and HAA5 samples must have been collected after January 1, 1998, during the month with the warmest water temperature, and at the point of
POLLUTION CONTROL BOARD

NOTICE OF ADOPTED AMENDMENTS

maximum residence time in the distribution system. The Agency may, by a SEP issued pursuant to Section 611.110, approve the use of a different data set to determine these levels if it determines that the data set is representative TTHM and HAA5 data.

c) Development of a disinfection profile. A disinfection profile consists of the following three steps:

1) First, the supplier must collect data for several parameters from the plant, as discussed in subsection (d) of this Section, over the course of 12 months. If the supplier serves between 500 and 9,999 persons it must have begun to collect data no later than July 1, 2003. If the supplier serves fewer than 500 persons, it must begin to collect data no later than January 1, 2004.

2) Second, the supplier must use this data to calculate weekly log inactivation as discussed in subsections (e) and (f) of this Section; and

3) Third, the supplier must use these weekly log inactivations to develop a disinfection profile as specified in subsection (g) of this Section.

d) Data required for a disinfection profile. A supplier must monitor the following parameters to determine the total log inactivation using the analytical methods in Section 611.231, once per week on the same calendar day, over 12 consecutive months:

1) The temperature of the disinfected water at each residual disinfectant concentration sampling point during peak hourly flow;

2) If a supplier uses chlorine, the pH of the disinfected water at each residual disinfectant concentration sampling point during peak hourly flow;

3) The disinfectant contact times ("T") during peak hourly flow; and

4) The residual disinfectant concentrations ("C") of the water before or at the first customer and prior to each additional point of disinfection during peak hourly flow.

e) Calculations based on the data collected. The tables in Appendix B of this Part must be used to determine the appropriate $\text{CT}_{99.0}$ value. The supplier must
calculate the total inactivation ratio as follows, and multiply the value by 3.0 to determine log inactivation of Giardia lamblia:

1) If the supplier uses only one point of disinfectant application, it must determine either of the following:

   A) One inactivation ratio ($\frac{CT_{\text{calc}}}{CT_{99.9}}$) before or at the first customer during peak hourly flow; or

   B) Successive $\frac{CT_{\text{calc}}}{CT_{99.9}}$ values, representing sequential inactivation ratios, between the point of disinfectant application and a point before or at the first customer during peak hourly flow. Under this alternative, the supplier must calculate the total inactivation ratio by determining $\frac{CT_{\text{calc}}}{CT_{99.9}}$ for each sequence and then adding the $\frac{CT_{\text{calc}}}{CT_{99.9}}$ values together to determine $\sum \frac{CT_{\text{calc}}}{CT_{99.9}}$.

2) If the supplier uses more than one point of disinfectant application before the first customer, it must determine the $\frac{CT_{\text{calc}}}{CT_{99.9}}$ value of each disinfection segment immediately prior to the next point of disinfectant application, or for the final segment, before or at the first customer, during peak hourly flow using the procedure specified in subsection (e)(1)(B) of this Section.

f) Use of chloramines, ozone, or chlorine dioxide as a primary disinfectant. If a supplier uses chloramines, ozone, or chlorine dioxide for primary disinfection, the supplier must also calculate the logs of inactivation for viruses and develop an additional disinfection profile for viruses using methods approved by the Agency.

g) Development and maintenance of the disinfection profile in graphic form. Each log inactivation serves as a data point in the supplier’s disinfection profile. A supplier will have obtained 52 measurements (one for every week of the year). This will allow the supplier and the Agency the opportunity to evaluate how microbial inactivation varied over the course of the year by looking at all 52 measurements (the supplier's disinfection profile). The supplier must retain the disinfection profile data in graphic form, such as a spreadsheet, which must be available for review by the Agency as part of a sanitary survey. The supplier must use this data to calculate a benchmark if the supplier is considering changes to disinfection practices.

Section 611.956 Individual Filter Turbidity Requirements

a) Applicability. A Subpart B system supplier that serves fewer than 10,000 persons and utilizing conventional filtration or direct filtration must conduct continuous monitoring of turbidity for each individual filter in a supplier's system. The following requirements apply to continuous turbidity monitoring:

1) Monitoring must be conducted using an approved method in Section 611.231;

2) Calibration of turbidimeters must be conducted using procedures specified by the manufacturer;

3) Results of turbidity monitoring must be recorded at least every 15 minutes;

4) Monthly reporting must be completed according to Section 611.957(a); and

5) Records must be maintained according to Section 611.957(b).

b) Failure of turbidity monitoring equipment. If there is a failure in the continuous turbidity monitoring equipment, the supplier must conduct grab sampling every four hours in lieu of continuous monitoring until the turbidimeter is back on-line. The supplier has 14 days to resume continuous monitoring before a violation is incurred.

c) Special requirements for systems with two or fewer filters. If a supplier’s system only consists of two or fewer filters, the supplier may conduct continuous monitoring of combined filter effluent turbidity in lieu of individual filter effluent turbidity monitoring. Continuous monitoring must meet the same requirements set forth in subsections (a)(1) through (a)(4) and (b) of this Section.

d) Follow-up action. Follow-up action is required according to the following requirements:
POLLUTION CONTROL BOARD

NOTICE OF ADOPTED AMENDMENTS

1) If the turbidity of an individual filter (or the turbidity of combined filter effluent (CFE) for a system with two filters that monitor CFE in lieu of individual filters) exceeds 1.0 NTU in two consecutive recordings 15 minutes apart, the supplier must report to the Agency by the 10th of the following month and include the filter numbers, corresponding dates, turbidity values that exceeded 1.0 NTU, and the cause (if known) for the exceedences.

2) If a supplier was required to report to the Agency for three months in a row and turbidity exceeded 1.0 NTU in two consecutive recordings 15 minutes apart at the same filter (or CFE for systems with two filters that monitor CFE in lieu of individual filters), the supplier must conduct a self-assessment of the filters within 14 days of the day on which the filter exceeded 1.0 NTU in two consecutive measurements for the third straight month, unless a CPE, as specified in subsection (d)(3) of this Section, was required. A supplier that has a system with two filters that monitor CFE in lieu of individual filters must conduct a self assessment on both filters. The self-assessment must consist of at least the following components: assessment of filter performance, development of a filter profile, identification and prioritization of factors limiting filter performance, assessment of the applicability of corrections, and preparation of a filter self-assessment report. If a self-assessment is required, the date that it was triggered and the date that it was completed.

3) If a supplier was required to report to the Agency for two months in a row and turbidity exceeded 2.0 NTU in two consecutive recordings 15 minutes apart at the same filter (or CFE for systems with two filters that monitor CFE in lieu of individual filters), the supplier must arrange to have a comprehensive performance evaluation (CPE) conducted by the Agency or a third party approved by the Agency not later than 60 days following the day the filter exceeded 2.0 NTU in two consecutive measurements for the second straight month. If a CPE has been completed by the Agency or a third party approved by the Agency within the 12 prior months or the system and Agency are jointly participating in an ongoing comprehensive technical assistance (CTA) project at the system, a new CPE is not required. If conducted, a CPE must be completed and submitted to the Agency no later than 120 days following the day the filter exceeded 2.0 NTU in two consecutive measurements for the second straight month.
NOTICE OF ADOPTED AMENDMENTS

e) Special individual filter monitoring for a lime-softening system. If a supplier's system utilizes lime softening, the supplier may apply to the Agency for alternative turbidity exceedence levels for the levels specified in subsection (d) of this Section. The supplier must be able to demonstrate to the Agency that higher turbidity levels are due to lime carryover only, and not due to degraded filter performance.

Appendix G – Endnotes

1. Violations and other situations not listed in this table (e.g., reporting violations and failure to prepare Consumer Confidence Reports) do not require notice, unless otherwise determined by the Agency by a SEP issued pursuant to Section 611.110. The Agency may, by a SEP issued pursuant to Section 611.110, further require a more stringent public notice tier (e.g., Tier 1 instead of Tier 2 or Tier 2 instead of Tier 3) for specific violations and situations listed in this Appendix, as authorized under Sections 611.902(a) and 611.903(a).

2. Definition of the abbreviations used: "MCL" means maximum contaminant level, "MRDL" means maximum residual disinfectant level, and "TT" means treatment technique.

3. The term "violations of National Primary Drinking Water Regulations (NPDWR)" is used here to include violations of MCL, MRDL, treatment technique, monitoring, and testing procedure requirements.

4. Failure to test for fecal coliform or E. coli is a Tier 1 violation if testing is not done after any repeat sample tests positive for coliform. All other total coliform monitoring and testing procedure violations are Tier 3 violations.

5. A supplier that violates the turbidity MCL of 5 NTU based on an average of measurements over two consecutive days must consult with the Agency within 24 hours after learning of the violation. Based on this consultation, the Agency may subsequently decide to issue a SEP pursuant to Section 611.110 that elevates the violation to a Tier 1 violation. If a supplier is unable to make contact with the Agency in the 24-hour period, the violation is automatically elevated to a Tier 1 violation.

6. A supplier with a treatment technique violation involving a single exceedence of a maximum turbidity limit under the Surface Water Treatment Rule (SWTR), the Interim Enhanced Surface
POLLUTION CONTROL BOARD

NOTICE OF ADOPTED AMENDMENTS

Water Treatment Rule (IESWTR), or the Long Term 1 Enhanced Surface Water Treatment Rule are required to consult with the Agency within 24 hours after learning of the violation. Based on this consultation, the Agency may subsequently decide to issue a SEP pursuant to Section 611.110 that elevates the violation to a Tier 1 violation. If a supplier is unable to make contact with the Agency in the 24-hour period, the violation is automatically elevated to a Tier 1 violation.

7. The Surface Water Treatment Rule (SWTR) remains in effect for a supplier serving at least 10,000 persons; the Interim Enhanced Surface Water Treatment Rule adds additional requirements and does not in many cases supercede the SWTR.

8. The arsenic MCL citations are effective January 23, 2006. Until then, the citations are Sections 611.330(b) and 611.612(c).

9. The arsenic Tier 3 violation MCL citations are effective January 23, 2006. Until then, the citations are Sections 611.100, 611.101, and 611.612.

10. Failure to take a confirmation sample within 24 hours for nitrate or nitrite after an initial sample exceeds the MCL is a Tier 1 violation. Other monitoring violations for nitrate are Tier 3.

11. This endnote 11 corresponds with the endnote to the table in Appendix A to Subpart Q of 40 CFR 141 (2003), which stated a past effective date. This statement maintains structural consistency with the federal regulations.

12. This endnote 12 corresponds with the endnote to the table in Appendix A to Subpart Q of 40 CFR 141 (2003), which stated a past effective date. This statement maintains structural consistency with the federal regulations.

13. A Subpart B community or non-transient non-community system supplier must comply with new DBP MCLs, disinfectant MRDLs, and related monitoring requirements. A Subpart B transient non-community system supplier serving 10,000 or more persons that uses chlorine dioxide as a disinfectant or oxidant or a Subpart B transient non-community system supplier that serves fewer than 10,000 persons, which uses only groundwater not under the direct influence of surface water, and which uses chlorine dioxide as a disinfectant or oxidant must comply with the chlorine dioxide MRDL.

14. This endnote 14 corresponds with the endnote to the table in Appendix A to Subpart Q of 40 CFR 141 (2003), which stated a past effective date. This statement maintains structural consistency with the federal regulations.
15. Failure to monitor for chlorine dioxide at the entrance to the distribution system the day after exceeding the MRDL at the entrance to the distribution system is a Tier 2 violation.

16. If any daily sample taken at the entrance to the distribution system exceeds the MRDL for chlorine dioxide and one or more samples taken in the distribution system the next day exceed the MRDL, Tier 1 notification is required. A failure to take the required samples in the distribution system after the MRDL is exceeded at the entry point also triggers Tier 1 notification.

17. Some water suppliers must monitor for certain unregulated contaminants listed in Section 611.510.

18. This citation refers to sections 1415 and 1416 of the federal Safe Drinking Water Act. Sections 1415 and 1416 require that "a schedule prescribed...for a public water system granted relief equivalent to a SDWA section 1415 variance or a section 1416 exemption must require compliance by the system...."

19. In addition to sections 1415 and 1416 of the federal Safe Drinking Water Act, 40 CFR 142.307 specifies the items and schedule milestones that must be included in relief equivalent to a SDWA section 1415 small system variance. In granting any form of relief from an NPDWR, the Board will consider all applicable federal requirements for and limitations on the State's ability to grant relief consistent with federal law.

20. Other waterborne emergencies require a Tier 1 public notice under Section 611.902(a) for situations that do not meet the definition of a waterborne disease outbreak given in Section 611.101, but which still have the potential to have serious adverse effects on health as a result of short-term exposure. These could include outbreaks not related to treatment deficiencies, as well as situations that have the potential to cause outbreaks, such as failures or significant interruption in water treatment processes, natural disasters that disrupt the water supply or distribution system, chemical spills, or unexpected loading of possible pathogens into the source water.

BOARD NOTE: Derived from Appendix A to Subpart Q to 40 CFR 141 (2003).

Appendix H – Endnotes

1. "MCLG" means maximum contaminant level goal.

2. "MCL" means maximum contaminant level.

3. For a water supplier analyzing at least 40 samples per month, no more than 5.0 percent of the monthly samples may be positive for total coliforms. For a supplier analyzing fewer than 40 samples per month, no more than one sample per month may be positive for total coliforms.
4. There are various regulations that set turbidity standards for different types of systems, including Section 611.320, the 1989 Surface Water Treatment Rule (SWTR), the 1998 Interim Enhanced Surface Water Treatment Rule (IESWTR), and the 2002 Long Term 1 Enhanced Surface Water Treatment Rule (LT1ESWTR). The MCL for the monthly turbidity average is 1 NTU; the MCL for the 2-day average is 5 NTU for a supplier that is required to filter but has not yet installed filtration (Section 611.320).

5. "NTU" means nephelometric turbidity unit.

6. There are various regulations that set turbidity standards for different types of systems, including Section 611.320, the 1989 Surface Water Treatment Rule (SWTR), the 1998 Interim Enhanced Surface Water Treatment Rule (IESWTR), and the 2002 Long Term 1 Enhanced Surface Water Treatment Rule. A supplier subject to the SWTR (both filtered and unfiltered) may not exceed 5 NTU. In addition, in filtered systems, 95 percent of samples each month must not exceed 0.5 NTU in systems using conventional or direct filtration and must not exceed 1 NTU in systems using slow sand or diatomaceous earth filtration or other filtration technologies approved by the Agency.

7. "TT" means treatment technique.

8. There are various regulations that set turbidity standards for different types of systems, including Section 611.320, the 1989 Surface Water Treatment Rule (SWTR), the 1998 Interim Enhanced Surface Water Treatment Rule (IESWTR), and the 2002 Long Term 1 Enhanced Surface Water Treatment Rule. A supplier subject to the IESWTR (systems serving at least 10,000 people, using surface water or groundwater under the direct influence of surface water), that use conventional filtration or direct filtration, the turbidity level of a system's combined filter effluent may not exceed 0.3 NTU in at least 95 percent of monthly measurements, and the turbidity level of a system's combined filter effluent must not exceed 1 NTU at any time. A supplier subject to the IESWTR using technologies other than conventional, direct, slow sand, or diatomaceous earth filtration must meet turbidity limits set by the Agency. For a supplier subject to the LT1ESWTR (a supplier that serves fewer than 10,000 people, using surface water or groundwater under the direct influence of surface water) that uses conventional filtration or direct filtration, after January 1, 2005, the turbidity level of the supplier's combined filter effluent may not exceed 0.3 NTU in at least 95 percent of monthly measurements, and the turbidity level of the supplier's combined filter effluent must not exceed 1 NTU at any time. A supplier subject to the LT1ESWTR using technologies other than conventional, direct, slow sand, or diatomaceous earth filtration must meet turbidity limits set by the Agency.

NOTICE OF ADOPTED AMENDMENTS

9. The bacteria detected by heterotrophic plate count (HPC) are not necessarily harmful. HPC is simply an alternative method of determining disinfectant residual levels. The number of such bacteria is an indicator of whether there is enough disinfectant in the distribution system.

10. SWTR, IESWTR, and LT1ESWTR treatment technique violations that involve turbidity exceedences may use the health effects language for turbidity instead.

11. These arsenic values are effective January 23, 2006. Until then, the MCL is 0.05 mg/ℓ and there is no MCLG.

12. Millions of fibers per liter.

13. Action Level = 0.015 mg/ℓ.

14. Action Level = 1.3 mg/ℓ.

15. Millirems per year.

16. Picocuries per liter.

17. This endnote 17 corresponds with the endnote to the table in Appendix B to Subpart Q of 40 CFR 141 (2003), which stated a past effective date. This statement maintains structural consistency with the federal regulations.

18. A surface water system supplier or a groundwater system supplier under the direct influence of surface water is regulated under Subpart B of this Part. A Subpart B community water system supplier or a non-transient non-community system supplier that serves 10,000 or more persons must comply with DBP MCLs and disinfectant maximum residual disinfectant levels (MRDLs). All other community and non-transient non-community system suppliers must meet the MCLs and MRDLs beginning January 1, 2004. Subpart B transient non-community system suppliers serving 10,000 or more persons and using chlorine dioxide as a disinfectant or oxidant must comply with the chlorine dioxide MRDL. Subpart B transient non-community system suppliers serving fewer than 10,000 persons and systems using only groundwater not under the direct influence of surface water and using chlorine dioxide as a disinfectant or oxidant must comply with the chlorine dioxide MRDL beginning January 1, 2004.

19. This endnote 19 corresponds with the endnote to the table in Appendix B to Subpart Q of 40 CFR 141 (2003), which expired by its own terms on January 1, 2004. This statement maintains structural consistency with the federal regulations.
20. The MCL for total trihalomethanes is the sum of the concentrations of the individual trihalomethanes.

21. The MCL for haloacetic acids is the sum of the concentrations of the individual haloacetic acids.

22. "MRDLG" means maximum residual disinfectant level goal.

23. "MRDL" means maximum residual disinfectant level.

BOARD NOTE: Derived from Appendix B to Subpart Q to 40 CFR 141 (2003).

15) **Summary and purpose of amendments:** Provide guidance for taxpayers seeking to claim the credit for employee child care costs under 35 ILCS 5/210.5.

The Tax Shelter Voluntary Compliance Law, enacted by Public Act 93-840 (July 30, 2004), creates the Voluntary Compliance Program, a special amnesty program for taxpayers who have participated in tax shelters if they file amended returns reversing the effects of the tax shelters and pay the resulting tax. This rulemaking prescribes the procedures for participating in the Voluntary Compliance Program and explains the consequences of participation and failure to participate.

### Section 100.2196 Employee Child Care Assistance Program Tax Credit (IITA Section 210.5)

<table>
<thead>
<tr>
<th>(a)</th>
<th>Beginning with tax years ending on or after December 31, 2000, each corporate taxpayer is entitled to a credit against the tax imposed by subsections (a) and (b) of Section 201 of the Act in:</th>

<tr>

<td><strong>5% of the annual amount paid by the corporate taxpayer in providing the child care facility for the children of its employees.</strong> (IITA Section 210.5(a))</td>
</tr>
</tbody>
</table>

The 30% credit for start-up costs is allowed only for tax years ending on or before December 31, 2004. The 5% credit for annual expenses is allowed for all years ending on or after December 31, 2000 and is exempt from the sunset provisions of IITA Section 250.

| (b) | To receive the tax credit under IITA Section 210.5, a corporate taxpayer must either independently provide and operate a child care facility for the children of its employees or join in a partnership with one or more other corporations to jointly provide and operate a child care facility for the children of employees of the corporations in the partnership. (IITA Section 210.5(a)) Amounts paid to a child care facility that is not operated by the taxpayer or by such a partnership do not qualify for the credit. **For purposes of this credit, a "child care facility" is limited to a child care facility located in Illinois.** (IITA Section 210.5(c)) |

| (c) | For purposes of this credit, the term "start-up costs" qualifying for the 30% credit means the cost of planning, site-preparation, construction, renovation, or acquisition of a child care facility. (IITA Section 210.5(c)) Such costs are the capital expenditures incurred in creating a new facility or expanding an existing facility, both tangible and intangible. In the case of a capitalized asset, the 30% credit is allowed in the year the asset is placed in service in the child care facility. |
NOTICE OF ADOPTED AMENDMENTS

1) Uncapitalized expenses incurred in connection with the child care facility prior to commencing operations are start-up costs. For example, salaries paid prior to the opening of the facility to the employees hired to operate the facility are start-up costs. Such expenses qualify for the 30% credit in the tax year expensed, even if the facility is not in operation by the end of the tax year.

2) Capital expenditures that are expensed rather than depreciated under IRC Section 179 qualify as start-up costs in the same manner as expenditures that are actually capitalized and amortized.

3) In the case of property previously acquired by the taxpayer and later converted to use in the child care facility, the start-up cost shall be the adjusted basis of such property at the time of conversion, plus any capital costs of renovation or modification to make the property ready for use in the child care facility.

4) Any expenditure that qualifies for the federal employer-provided child care credit as an amount paid or incurred to acquire, construct, rehabilitate or expand property to be used in a new or expanded child care facility under the provisions of IRC Section 45F(c)(1)(A)(i) shall qualify for the 30% credit, even if the requirements of IRC Section 45F(c)(1)(A)(i)(II) or (III) are not met and provided that the facility is operated by the employer corporation or a partnership described in subsection (b).

**EXAMPLE:** An employer acquires a building to be used as a child care facility and the land on which the building is located. The cost of the building qualifies for the federal credit, but the cost of the land does not qualify because IRC Section 45F(c)(1)(A)(i)(II) provides that only depreciable property may qualify for the federal credit. The cost of both the building and the land will qualify for the credit allowed under this IITA Section 210.5.

d) The annual amount paid by the employer qualifying for the 5% credit shall include all expenses (including depreciation and amortization) incurred in connection with the operation of the child care facility that are deducted during the taxable year. Depreciation and amortization of capitalized items and IRC Section 179 deductions qualify for the credit whenever the original expenditure qualified as a start-up cost for the 30% credit, provided that the asset continues to
be used in the operation of the child care facility. In the year the facility commences operations, only expenses deductible in the period after the commencement of operations qualify for the 5% credit. Expenses of the facility deducted prior to the commencement of operations qualify only for the 30% credit as start-up costs. Any expense qualifying for the federal employer-provided child care credit under IRC Section 45F(c)(1)(A)(ii) for a tax year shall also qualify for the 5% credit in the same tax year. Any expense for which the employer claims the 5% credit authorized under this Section cannot qualify for the 5% Dependent Care Assistance Program Credit under IITA Section 210. (See IITA Section 210.5(a).)

e) Any credit allowed under this Section that is unused in the year the credit is earned may be carried forward and applied to the tax liability of the 5 taxable years following the excess credit year until it is used. (IITA Section 210.5(b)) Any 30% credit earned in tax years ending on or before the December 31, 2004 sunset date may be carried forward to tax years ending after that date. The credit must be applied to the earliest year for which there is a tax liability. If there are credits from more than one tax year that are available to offset a liability, then the earlier credit must be applied first. (IITA Section 210(b))

f) A corporate taxpayer claiming the credit provided by IITA Section 210.5 needs to maintain records sufficient to document the costs associated with the provision of a child care facility and the "start-up costs" expended to provide a child care facility. Documentation must take the form of vouchers paid, cancelled checks or other proof of payment. Should the expenditure not be solely for child care, the documentation should explain how the amount allocated for child care was determined.

If the child care provided includes care for non-employee children, the costs must be allocated between employee children and non-employee children. The method of allocation used must be reasonable and documented.

g) The credit is allowed only to corporations subject to tax under IITA Section 201(a) and (b). Neither Subchapter S corporations nor shareholders of Subchapter S corporations are allowed to claim the credit.

NOTICE OF ADOPTED AMENDMENTS

Section 100.9900  Tax Shelter Voluntary Compliance Program

a) Section 35-5(a) of the Tax Shelter Voluntary Compliance Law [35 ILCS 20/35-5(a)] provides that the Department shall establish and administer a tax shelter Voluntary Compliance Program as provided in this Section for eligible taxpayers subject to tax under the Illinois Income Tax Act. The tax shelter voluntary compliance program shall be conducted from October 15, 2004 to January 31, 2005 and shall apply to tax liabilities under Section 201 of the Illinois Income Tax Act attributable to the use of tax avoidance transactions for taxable years beginning before January 1, 2004. The Voluntary Compliance Program provides for abatement of penalties that would otherwise be imposed on underpayment or underreporting of Illinois income tax liabilities attributable to participation in tax shelters. The Tax Shelter Voluntary Compliance Law directs the Department to adopt rules, issue forms and instructions, and take such other actions as it deems necessary to implement the provisions of the Voluntary Compliance Program.

b) Definitions. For purposes of this Section:

1) Tax Avoidance Transaction. Section 35-10 of the Tax Shelter Voluntary Compliance Law [35 ILCS 20/35-10] provides that "tax avoidance transaction" means any plan or arrangement devised for the principal purpose of avoiding federal income tax. Tax avoidance transactions include, but are not limited to, "listed transactions" as defined in Treasury Regulations Section 1.6011-4(b)(2).

2) Eligible Liability

A) "Eligible Liability" means the excess, if any, of:

i) the Illinois income tax liability for a taxable year properly computed without allowing the net tax benefits of any tax avoidance transaction over; or

ii) the Illinois income tax liability for that taxable year properly computed allowing the tax benefits of any tax avoidance transactions in which the taxpayer participated.

B) The Illinois income tax liabilities under subsection (b)(2)(A)(i) shall be computed without allowing the net tax benefits of any tax avoidance transaction for the taxable year at issue, whether or not
such benefits are ultimately determined to be allowable and without allowing any benefits in the taxable year at issue that result from tax avoidance transactions in which the taxpayer participated in other tax years, such as, for example, by increasing any Illinois net loss or credit available to carry over into the taxable year at issue.

3) Voluntary Compliance Program Period. The "Voluntary Compliance Program Period" is October 15, 2004 through January 31, 2005, inclusive.

c) Participation in the Voluntary Compliance Program. Participation in the Voluntary Compliance Program is made separately for each taxable year. In order to participate in the Voluntary Compliance Program for a taxable year, a taxpayer must, during the Voluntary Compliance Program Period:

1) File Form VCP-1, Voluntary Compliance Participation Agreement, with an amended return reporting Illinois net income and tax for the taxable year, computed without regard to any tax avoidance transactions affecting Illinois net income for that taxable year.

A) Any taxpayer who, as a result of participating in a tax avoidance transaction, determined that it had no Illinois income tax liability for a taxable year therefore chose not to file a return for that taxable year may participate in the Voluntary Compliance Program by filing an original return for that taxable year and reporting its Illinois net income and tax for the taxable year, computed without regard to any tax avoidance transactions affecting Illinois net income or tax for that taxable year.

B) A trust, estate, exempt organization, partnership or Subchapter S corporation shall file a Form IL-843, Amended Return or Notice of Change in Income, with a revised return in the proper form.

C) A partnership or Subchapter S corporation may file a composite return for that taxable year on behalf of any partners or shareholders eligible to be included in a composite return.

D) No return filed outside the Voluntary Compliance Program Period will qualify for relief under this Section. An unprocessable return filed during the Voluntary Compliance Program Period will qualify
DEPARTMENT OF REVENUE

NOTICE OF ADOPTED AMENDMENTS

for relief under this Section only if a processable return is filed within 30 days after the Department has issued a notice to that taxpayer that the return filed was unprocessable.

E) Failure to correct an underreporting of tax that is not the result of participation in a tax avoidance transaction shall not preclude relief under this Section.

2) Pay the full amount of the Eligible Liability, plus interest on the Eligible Liability.

A) Failure to pay any penalty or to pay any liability (or interest on such liability) other than the Eligible Liability shall not preclude relief under this Section.

B) If the Eligible Liability was eligible for amnesty under the Tax Delinquency Amnesty Act, interest that must be paid under this subsection (c)(2) shall be computed at 200% of the rate that would otherwise have been imposed under UPIA Section 3-2, as provided in UPIA Section 3-2(d).

C) In the case of a taxpayer who makes a good faith attempt to compute the correct amount of interest due on the Eligible Liability, attaches to its amended return a schedule showing its computation of interest due on the Eligible Liability, and pays the amount so shown during the Voluntary Compliance Program Period, failure to pay the full amount of interest due shall not preclude relief under this Section if the full amount of interest determined by the Department to be due on the Eligible Liability is paid within 30 days after the Department has issued a Notice and Demand for the unpaid amount.

D) No payment made under protest under Section 2a.1 of the State Officers and Employees Money Disposition Act [30 ILCS 230/2a.1] shall be considered a payment made during the Voluntary Compliance Program Period under this subsection (c)(2).

3) Make the election to participate under Voluntary Compliance without Appeal or Voluntary Compliance with Appeal.
NOTICE OF ADOPTED AMENDMENTS

A) The election shall be made by checking the appropriate box on the Form VCP-1, Voluntary Compliance Participation Agreement.

B) Once made, the election may not be revoked.

C) A separate election shall be made for each taxable year for which the taxpayer chooses to participate in the Voluntary Compliance program.

D) No relief shall be allowed to any taxpayer for any taxable year for which the taxpayer fails to properly make the election in accordance with this subsection (c)(3).

d) Effect of Electing Voluntary Compliance without Appeal. If a taxpayer properly elects Voluntary Compliance without Appeal:

1) No claim for refund or credit shall be allowed with respect to the Eligible Liability. The taxpayer's rights to claim a refund or credit for other amounts paid that are not attributable to the tax avoidance transaction shall not be affected by this election.

2) The following penalties that are otherwise applicable to the Eligible Liability for such taxable year shall be abated:

A) The negligence penalty imposed under IITA Section 1002(a), including any doubling of the penalty under UPIA Section 3-5(d).

B) The fraud penalty imposed under IITA Section 1002(b), including any doubling of the penalty under UPIA Section 3-6(c).

C) The penalty for underpayment of tax imposed under IITA Section 1005(a), including any doubling of that penalty under UPIA Section 3-3(i).

D) The reportable transaction penalty imposed under IITA Section 1005(b).

E) The 100% interest penalty imposed under IITA Section 1005(c).
DEPARTMENT OF REVENUE

NOTICE OF ADOPTED AMENDMENTS

F) The underreporting penalty imposed under UPIA Section 3-3(b-15)(2).

G) In the case of an Eligible Liability reported on an original return filed during the Voluntary Compliance Program Period, the penalty for failure to pay estimated tax imposed by IITA Section 804(a), including any doubling of that penalty under UPIA Section 3-3(i).

H) Because the Voluntary Compliance Program Period will expire before the date the first disclosure of participation in a reportable transaction could be due under IITA Section 501(b), filing of an amended return during the Voluntary Compliance Program Period reversing the tax benefits of a reportable transaction will avoid penalty under IITA Section 1001(b) for failure to disclose a reportable transaction.

3) None of the penalties listed in this subsection (d)(2) shall be abated under the Voluntary Compliance Program to the extent imposed with respect to a liability assessed prior to October 15, 2004. No other penalties (including, but not limited to, any penalties for late payment of tax or underpayment of tax resulting from any underpayment other than the Eligible Liability) are abated or avoided merely by participation in the Voluntary Compliance Program. However, participation in the Voluntary Compliance Program will not affect any right the taxpayer would otherwise have to abatement of penalties or to contest the imposition of penalties.

4) The Department shall not seek civil or criminal prosecution against the taxpayer for such taxable year with respect to tax avoidance transactions, except as otherwise provided in Tax Shelter Voluntary Compliance Law.

5) A claim for a refund of the Eligible Liability by a taxpayer who has elected Voluntary Compliance without Appeal shall be denied, but filing such claim will not disqualify the taxpayer from participation in the Voluntary Compliance Program.

e) Effect of Electing Voluntary Compliance with Appeal. If a taxpayer properly elects Voluntary Compliance with Appeal:
NOTICE OF ADOPTED AMENDMENTS

1) Any otherwise-allowable claim for refund or credit shall be allowed with respect to the Eligible Liability, provided that, notwithstanding IITA Section 909(e), the taxpayer may not file a written protest until after either of the following:

   A) the date the Department issues a notice of denial; or
   B) the earlier of:

      i) the date which is 180 days after the date of a final determination by the Internal Revenue Service with respect to the transactions at issue;

      ii) the date that is three years after the date the claim for refund was filed; or

      iii) the date that is one year after full payment of all tax, including penalty and interest.

2) Participation in the Voluntary Compliance Program with Appeal shall not affect any right the taxpayer otherwise has to claim a refund or credit or protest the denial of such claim for any amount paid other than the Eligible Liability.

3) Penalties

   A) The following penalties for the taxable year that are otherwise applicable to the Eligible Liability for such taxable year shall be abated:

      i) The reportable transaction penalty imposed under IITA Section 1005(b).

      ii) The 100% interest penalty imposed under IITA Section 1005(c).

   B) Because the Voluntary Compliance Program Period will expire before the date the first disclosure of participation in a reportable transaction could be due under IITA Section 501(b), filing of an amended return during the Voluntary Compliance Program Period
reversing the tax benefits of a reportable transaction will avoid penalty under IITA Section 1001(b) for failure to disclose a reportable transaction.

C) Neither of the penalties listed in this subsection (e)(3)(A)(i) and (ii) shall be abated under the Voluntary Compliance Program to the extent imposed with respect to a liability assessed prior to October 15, 2004. No other penalties are abated or avoided merely by participation in the Voluntary Compliance Program. However, participation in the Voluntary Compliance Program will not affect any right the taxpayer would otherwise have to abatement of penalties or to contest the imposition of penalties.

4) The Department shall not seek civil or criminal prosecution against the taxpayer for such taxable year with respect to tax avoidance transactions, except as otherwise provided in the Tax Shelter Voluntary Compliance Law.

f) Failure to Comply with All Requirements for Participation in the Voluntary Compliance Program. If the Department determines that a taxpayer who has been granted relief under this Section has failed to comply with all requirements of this Section, any penalties that had been abated shall be deemed assessed as of January 31, 2005, and shall be immediately due and collectible, provided that nothing in this subsection shall preclude abatement of a penalty for reasonable cause, if otherwise applicable, or deprive the taxpayer of any process otherwise available for seeking abatement of an assessed penalty.

g) Participation in the Voluntary Compliance Program shall not be considered evidence that the taxpayer in fact engaged in a tax avoidance transaction.

NOTICE OF ADOPTED RULES

Section 1400.30 Procedure

c) ISAC shall, upon being informed of individual's desire to file a formal grievance, instruct the individual how to receive a copy of this procedure and the Grievance Form.

Section 1400.40 Designated Coordinator Level

The complainant shall submit these documents to the Executive Director, together with a short written statement explaining the reasons for dissatisfaction with the Designated Coordinator's written response, within 15 business days after receipt by the complainant of the Designated Coordinator's response.

b) Within 15 business days, the Executive Director shall appoint a three-member panel to review the grievance at the Final Level. One member shall be designated chairman. ILLINOIS STUDENT ASSISTANCE COMMISSION

NOTICE OF ADOPTED RULES

ISAC shall ensure that all stages of the grievance procedure are readily accessible to and usable by individuals with disabilities.

Section 1400.70 Case-By-Case Resolution

Each grievance involves a unique set of factors that includes but is not limited to: the specific nature of the disability; the essential eligibility requirements, the benefits to be derived, and the nature of the service, program or activity at issue; the health and safety of others; and whether an accommodation would constitute a fundamental alteration to the program, service or activity or undue hardship on ISAC. Accordingly, termination of a grievance at any level, whether through the granting of relief or otherwise, shall not constitute a precedent on which any other complainants should rely.

9) **Notice of Proposal Published in Illinois Register**: September 17, 2004; 28 Ill. Reg. 12816

10) **Has JCAR issued a Statement of Objection to this amendment?** No

11) **Differences between proposed and final version**: Although there have been no substantive changes to the amendment since it was originally proposed, in response to a Statement of Recommendation issued by JCAR on the companion emergency rulemaking, ISAC has made extensive language changes to more clearly state eligibility standards.

12) **Have all the changes agreed upon by the agency and JCAR been made as indicated in the agreement letter issued by JCAR?** Yes

13) **Will this rulemaking replace an emergency rulemaking currently in effect?** Yes

14) **Are there any amendments pending on this Part?** No

15) **Summary and Purpose of Rulemaking**: This amendment modifies the Applicant Eligibility criteria set forth in Section 2733.20. The Illinois Veteran Grant provides grants covering tuition and certain fees for qualified veterans attending state universities and community colleges. Under previous administrative rules, Illinois residents who were
members of a Reserve component and who were called to active duty for at least one year, or at least one day in a foreign country in a time of hostilities in that country, needed to have completed their initial enlistment contract before they were eligible to receive the Veteran Grant. In addition, members of the National Guard were not eligible for the Veteran Grant while they were active in the Guard. Both of these limitations are being withdrawn in order to provide more equitable access to educational benefits for active-duty National Guard and Reserve members consistent with those provided to military personnel in the regular component of the U.S. Armed Forces.

- The Department is considering amending its rules of evidence to explicitly allow the admission of an arresting officers narrative investigative report at implied consent hearings conducted by the Department, even when the officer fails to appear in response to a subpoena issued by the Department. (§1001.100(d));

- Shorten the period of time within which an out-of-state petitioner must provide the information required by the rules of the Secretary of State in order to obtain driving relief. The time frame currently in effect (90 days) has proven to be too long. (1001.100(n)(6));

- The Department is considering sending by electronic mail notices of hearing and final orders entered after a hearing. This practice would require the amendment of the rule on Orders (1001.110(d)) – add notification by electronic transmission;
SECRETARY OF STATE

JANUARY 2005 REGULATORY AGENDA

- Remove the limitation on applying for a formal hearing once every four (4) months §1001.50(a);
- Remove the rule which requires a petitioner who has been issued a restricted driving permit to drive on the permit for 75% of its length before applying for reinstatement (§1001.430(i));
- The Department’s rule currently allows treatment providers to compose updated evaluations. We intend to clarify this rule by making it clear that only treatment providers that provide “primary” treatment will be allowed to compose updated evaluations (§1001.440(a)(6)(A)(2)); and
- The Department’s rule on Uniform Reports or original evaluations as recently amended to require that a chronological alcohol/drug use history be included or attached as part of the evaluation. We intend to extend this requirement to Investigative Evaluation. §1001.440(a)(4) and .440(a)(6)(D)).
