

AAT Implementation Survey Results

A Report

Overview

Since September 2002, four Associate of Arts in Teaching degrees have been approved and endorsed respectively by the Illinois Community College Board and the Illinois Board of Higher Education in Secondary Science, Secondary Math, Special Education and Early Childhood. Upon receiving the Boards' endorsements, community colleges across the state immediately began developing program proposals for approval of these new degrees and, in turn, initiated recruitment of students into these programs.

With students entering the community college teacher pipeline, Illinois will begin seeing AAT graduates within the next two years. This has raised questions on how prepared universities are to support students who have earned an AAT degree and qualify for acceptance into teacher preparation programs. What policies and practices regarding transfer admissions protocol have been instituted to inform students, advisors, admissions and transfer staff?

The AAT Steering Committee, at its January 26th meeting addressed these concerns and moved to develop an AAT Implementation Survey that would gauge levels of degree acceptance, policy development, designated contact personnel, and course/standards documentation at four-year colleges and universities. On February 20th the Illinois Board of Higher Education emailed the AAT Implementation Survey to the presidents of all public and private institutions with undergraduate teacher preparation programs. Provosts and Deans of Education were cc'd on the email correspondence.

Content of Survey

The survey posed the following questions.

1. Acceptance of AAT degrees:
Will your institution accept the Associate of Arts in Teaching?
If so, which AAT degrees will be accepted?
2. Policy:
 - a. What policies have been established to facilitate transfer for students who complete an AAT degree?
 - b. Please provide the text included in your catalog, transfer pages, etc. regarding acceptance of the AAT degrees.
 - c. If your institution does not currently have a policy on acceptance, but is in the process of establishing a policy, please give an approximate date for initiation of the policy.

3. **Contact Person:**
The individual at your institution whom advisors and students should contact for information on your acceptance of the AAT.
4. **Courses/Standards:**
Document the courses and standards a student would be required to fulfill at your institution in order to complete a baccalaureate degree after transferring with the AAT. Please be as specific as possible. Understandably, your response might not include every permutation but should address the courses/standards that students with the AAT would most likely need to complete. Please align the course(s) with the standard(s) where applicable.
5. **Information:**
Attach any literature your institution has developed to inform students and stakeholders about the AAT degrees.

Survey responses

Fifty-two of the fifty-seven approved teacher preparation programs in Illinois have programs to which AAT degree holders can transfer. Of these a total of thirty-eight (73%) institutions responded to the survey--11 public universities (92%) and 27 (68%) private colleges/universities.

AAT Implementation Survey

Public Institutions

1. Acceptance of AAT

Institution	Accept AAT	Secondary Math	Secondary Science	Early Childhood	Special Ed
Chicago State	Y	Y	Y	Y	Graduate degree only
Eastern Illinois	Y	Y	Y	Y	Y
Governors State	Y	Y	Y	Y	Graduate degree only
Illinois State	Y	Y	N	N	N
Northern Illinois	Y	Y	N	Y	Y
Northeastern Illinois	*In progress	In progress	In progress	In progress	In progress
SIUC	In progress	In progress	In progress	In progress	In progress
SIUE	Y	Y	Y	N	N
UIC	<p>At the present time, only one two-year institution, Truman College, has contacted us regarding developing an AAT. I directed them to the program chairs for math and chemistry, to work out the details for coursework in the degree, but no further action was taken. I have talked to the math program chair, who may be amenable to acceptance of an AAT degree if the math prerequisites are agreed upon.</p> <p>At the present time, we generally accept credits from two-year institutions for introduction to education coursework, but this is done on a case-by-case basis. In addition, the College of Liberal Arts and Sciences follows the articulation agreements in place for accepting general education credits from two-year institutions. Kimberly Clark, Associate Director for Secondary Education in the College of Liberal Arts and Sciences Student Affairs Office reports that she has not been approached by any student desiring to be a teaching major who has an AAT degree.</p>				
UIS	Y	Y	Y	N	N
UIUC	Did not return survey				
Western Illinois	Y	Y	Y	Y	Y

*Note from cover email: I cannot complete most of the questions as we are still in the process of working the articulations out. We expect to accept math, special education and early childhood. Those faculty members are in the process of aligning the AAT and I have requested that those documents be completed and to me by the end of the semester. I hope to have them to the faculty senate in early fall 2006. The science AAT is a bit more difficult to align and I am not sure how long it will take to work it through.

2. Policy

Institution	What policies have been established to facilitate transfer for students who complete an AAT degree	Provide the text included in catalog, transfer pages, etc.	If institution doesn't have policy, but is in process, give

			approximate date for initiation.
Chicago State	No new policies have been established to facilitate transfer for students who complete an AAT degree. However, it should be noted that the current transfer policy includes language that waives the university placement examinations for undergraduate students, including transfers, majoring in a bachelor's degree program leading to teacher certification, who can document having passed the IL. Certification Test of Basic Skills at the time of their admission to the university (see Undergraduate Catalog 2004-2006, p. 45).	The new 2006-2008 has gone to print. Unfortunately, language pertaining to AAT degrees was not included.	Effective July 1, 2006, policies pertaining to AAT degrees will be available on the CSU web page.
Eastern Illinois	EIU has created separate checklists for each AAT program to allow students and advisors to see the required study plan for completion of the degrees in each area. Links from the College Teacher Education website will direct those interested to further info.	(The text for the catalogue will read similarly to the text for the web pages.) "EIU fully participates with AAT programs completed through state approved AAT programs beginning Fall, 2006. Checklists for completion of the degrees that can lead to certification are given on each Departmental website or in each department office."	EIU accepts students who have completed state approved AAT programs in Science, Math, Early Childhood, and Special Education. Initiation of the AAT programs will be as soon as there are eligible students. EIU is poised to accept these as early as Fall, 2006.
Governors State	GSU's existing admissions policies apply to any Associate's degree to include the AAT.	Current pages in the GSU catalog on the University's website refer to Associates degrees in general and therefore cover the AAT. This information can be viewed at http://gosgvt.edu/catalog . The transfer guide pages will include specific information on the applicability to the bachelors degree programs by July 2006 and will be posted on the web at www.govst.edu/articulation .	No answer
Illinois State	At present, ISU will accept the AAT degree in Math as a baccalaureate-oriented Associates degree. To our knowledge, there are no fully developed AAT degrees in Early Childhood and Special Education. We will review them as they are approved and would expect to	No catalog copy currently.	Effective with the 07-08 Undergraduate Catalog (May 2007)

	<p>accept them on the same basis as the AAT in math. However, because the AAT in Science does not include the full IAI transferable core (GECC), we will audit individual components of the AAT degrees separately. Students transferring with AAT degrees that do include IAI GECC, will satisfy ISU's Gen. Ed. requirement. Students transferring with AAT degrees that do not include complete IAI GECC will be allowed to complete the remaining courses here and will satisfy Gen E. requirements upon completion of the full IAI GECC. Other courses included in the AAT programs will be articulated according to our current articulation agreements with individual community college partners.</p>		
Northern Illinois	<p>Students with an AAT in Secondary Math, Early Childhood and Special Education will receive "Compact Benefits" at NIU: Admission to the university (not to a limited admissions major), Junior standing and university general education considered complete. Admission to the major in Early Childhood Education will remain competitive with regard to grade point average and application deadlines.</p>	<p>A graduate of an Illinois public community college who has not previously attended NIU and who has completed a baccalaureate-oriented A.A., A.S. or AAT in Early Childhood, Secondary Math or Special Ed. will be admitted to NIU. The student will enter with junior standing and all NIU general ed. requirements will be considered complete if the student has the following qualifications prior to enrolling at NIU. An A.A., A.S. or approved (see above) AAT in a baccalaureate-oriented program from an IL. public community college. At least a C average (2.00 on a 4.00 scale) as calculated by the community college. At least 60 semester hours of credit. Good standing at the last college attended.</p>	No answer
Northeastern Il. U.	Currently in process		September 2006
SIUC	We have no policies or plans to report at this time. However, we are prepared to move forward with the	No answer	We anticipate developing a policy related to acceptance during AY

	<p>development of plans related to accepting the approved AAT in Secondary Math and Secondary Science. We expect to do the same for Early Childhood and Special Education when they are approved.</p> <p>The Interim Dean and Associate Dean for Academics learned of the AAT initiative during Fall'05. We are committed to the development of policies that will facilitate the transfer of students who have completed an AAT degree. We will work with faculty and academic advisors for Math, Science, Special Ed. and Early Childhood to accomplish the task.</p>		'06-07. We would like for initiation of the policy to occur soon after appropriate planning has occurred for the approved AAT programs.
SIUE	<p>We do not have written policies at this time. We continue to believe that articulation agreements with community colleges will be the best way to ensure a smooth transfer from any community college to SIUE. When the models in the Math and Science AAT, for example require an Intro to Ed. and then a choice of one or two other professional education courses, the "choice" the community college makes is critical. If they choose Ed. Psych. For their AAT that will not replace the upper division Ed. Psych. Course we require of all of our teacher education majors.</p>	<p>No text on AATs is available at this time. We obviously need to be working on clear guidelines. Right now transfer is handled like any other transfer.</p>	<p>We are hoping to have policies prepared for Fall 06 or Spring 07.</p>
UIC	<p>No policies have yet been established.</p>	<p>No such language exists.</p>	<p>We are not currently in the process of establishing a policy. However, if an AAT degree is created by one of our feeder schools, we would establish the policy.</p>
UIS	<p>Students who transfer with an AAT in Math will transfer to UIS as juniors and are considered to have all their gen. ed. requirements met. Students who transfer with an AAT in Science will transfer to UIS as juniors, but will need to complete a gen. ed. course in social science and one in humanities.</p>	<p>No answer</p>	<p>No answer</p>
UIUC	<p>Did not return survey</p>		
Western Illinois	<p>Policies are being developed at this time.</p>	<p>Once policies have been fully developed, text will be added to catalog—will be completed shortly</p>	<p>Hopefully, for Fall, 2006 semester</p>

4. Courses/Standards

Institution	Information Included
Chicago State	Program alignment with AAT included for Secondary Biology, Secondary Chemistry, Secondary Math and Early Childhood
Eastern Illinois	Numerous standards are introduced to native and transfer students in lower division courses, embedded in agreed upon common syllabi/course requirements. All of these standards will be completed, assessed, and documented in upper division courses. Program alignment checklists included for Science, Math, Early Childhood-Family and Consumer Science with AAT, Early Childhood Education, Early Childhood-Special Education with AAT, and Special Education
Governors State	Program alignment with AAT included for Early Childhood and Secondary Science. Secondary Math (GSU's Math program began Fall

	2005 and presently the Math—Secondary Education course/standards rubrics are being developed for ISBE.
Illinois State	<p>Students transferring with AAT degrees will complete all remaining Illinois State University graduation requirements. These include (but are not limited to) major requirements, professional education requirements, and requirements specific to the appropriate bachelors degrees.</p> <p>Students will receive credit for all baccalaureate-oriented course hours taken as part of the AAT degree. Courses taken as part of the AAT degree that are articulated with Illinois State University courses will be appropriately counted as part of degree requirements. Psychology and pedagogy courses included in the AAT degrees will be articulated according to existing institutional agreements. The following provides general guidance only:</p> <p>Introduction to Education: Currently not articulated with required professional education coursework. Policy under review.</p> <p>Introduction to Technology in Education: Technology standards are met through a series of steps spread over several courses. Illinois State University does not have a single course that satisfies all technology standards. Students may be able to use material from their AAT portfolio to satisfy Illinois State University’s Technology Passport portfolio, upon appropriate faculty review.</p> <p>Educational Psychology: Generally articulated to ISU PSY 215 and will satisfy ISU’s requirement.</p> <p>Development: Articulated as PSY 112 or 113 depending on specific agreements. Courses will be placed appropriately as part of existing requirements.</p> <p>Students with Disabilities in School: Generally articulated to ISU’s SED 101. Course will be placed appropriately as part of existing requirements.</p> <p>Standards: Illinois State University coursework is aligned with Institutional Standards identified in our conceptual framework, “Realizing the Democratic Ideal,” Illinois Professional Teaching Standards, and (in the case of mathematics) the National Council for Teachers of Mathematics standards. Other content area courses are aligned with appropriate national specialized professional associations. Most standards are met by virtue of a developmental process and are measured at various points in the curriculum. A student entering with the AAT degree may present evidence of having met certain standards that can be reviewed by appropriate Illinois State University faculty.</p>
Northern Illinois	Program alignment provided for Secondary Math, Early Childhood, and Special Education
Northeastern Il. U.	No answer
SIUC	No answer
SIUE	Advising sheets provided for Secondary Math, Secondary Biology, Chemistry, Earth and Space Science and Physics, Early Childhood and Special Education
UIC	I’ve listed all of the coursework required to become certified in mathematics, chemistry, and physics for teacher education majors. I could envision that an AAT degree would include our introductory education courses (ED 200/ED 210) and general education requirements. For math , it is feasible that students could have taken Calculus I & II, but no articulation agreement exists. Calculus I & II and Math 210, chem. 112, and chem. 114 are required as prerequisites for physics and for chemistry , Calculus I, II, and III, General Physics I and II or Introductory Physics I and II are prerequisites. These are in addition to other general education requirements in English, foreign language, humanities, etc.

UIS	Program alignment provided for Secondary Math and Secondary Science.
UIUC	Did not respond to survey
Western Illinois	Included alignment information for Math, Science, Early Childhood and Special Education.

Concordia	Y	Y	Y	Y	Y
DePaul	N				
Dominican	Y	Y with conditions	Y with conditions	N	N
Eureka	This is the 1 st time that I had heard of this initiative and our education folks have not conducted a review so our response is rather thin at this point. I am allocating resources for such a review in the Fall as stated in the report. I am committed to removing any				

	unnecessary obstacles to cc transfers while we maintain our academic standards. We have had several projects this year to do just that. I look forward to being able to report to you're the results of our review in the future.				
Greenville	Y	Y	Y	Y	Y
Illinois Institute of Technology	Y	Y	Y	N	N
Illinois Wesleyan	N				
Judson	<p>At this time, the Teacher Education Division at Judson College doesn't feel prepared to answer the AAT Implementation Survey. We are seeking more information on the AAT degree models, as we're not clear as to what the proposal entails (what we could access on the ICCB website is somewhat vague). In conferring with several other private colleges, it appears that they are experiencing the same issue.</p> <p>We certainly want to be proactive and are very interested in what the AAT may mean for future students. With that intention, we will be attending the April 18th meeting on Sec. Science and Math. Are you offering a session on Early Childhood as well? Any further information you could provide would be most helpful. Once we feel qualified to respond, we will be happy to do so.</p>

Quincy	No answer	No answer	No answer	No answer	No answer
Roosevelt	<p>Over the past few years, Roosevelt U. has been most interested in the AAT programs that many of our cc partners are currently developing. Roosevelt faculty members have met on several occasions with cc faculty members and administrators to discuss the coursework requirements, the acceptance of the AAT degrees and the transition of students into our TEP.</p> <p>Recently, we received the Survey and wish to provide you with an update concerning the process of establishing protocol to accommodate incoming AAT graduates to RU. A program review of the AAT models is scheduled to begin this spring. The departments in Secondary Math, Science, Sp. Ed. and EC will be asked to review the AAT models for their program area to determine the acceptance of the AAT degree and if accepted, indicate the coursework aligned with standards needed to complete a baccalaureate degree. Upon completion, a policy of acceptance will be established for each AAT degree and shared with our Admissions, Advising and Marketing departments. It is our intention to have a written policy completed by September 2006.</p>				
St. Xavier	N				
Trinity Christian	Y	Y	Y	N	Y
Trinity Int. University	N				

2. Policy

Institution	What policies have been established to facilitate transfer for students who complete an AAT degree	Provide the text included in catalog, transfer pages, etc.	If institution doesn't have policy, but is in process, give approximate date for initiation.
Augustana	As yet, Augustana does not have a policy in place. We anticipate that we will treat AAT graduates like other transfer students, transfer students have tended to be very successful at Augustana.	None at this time.	We have no plans for implementing a specific AAT policy at this time.
Benedictine	No answer	No answer	The policy will be in place by the start of fall 2006 term (August 28, 2006)
Bradley	None, since ICC has not actively pursued the AAT & ICC is largest local provider of cc transfer students. ICC supplies about 90% of Bradley's transfer population	None as of yet.	Has not been determined
Columbia	Incoming transfer credits are evaluated on a case-by-case basis as they would be with any other student wishing to transfer to Columbia	No answer	No answer
Concordia	We have increased the number of credits which students can transfer into one of our programs. A degree completion plan has been developed for each of the AAT degrees.	We're in the process of preparing this.	The policy should go into effect no later than May 15.
DePaul	No answer	No answer	No answer
Dominican	In progress	No answer	May 1, 2006
Eureka	Any students completing a college transferable degree at an IL. cc who qualify under our admission standards are commonly admitted. They are granted credit by us for meeting Gen ed requirements consistent with the guidelines of IAI. We have not had a policy review for transfer of the AAT in regard to how well it lines up with our education majors if this is what is meant by acceptance in item #1. This is new territory for us. I plan on having such a review conducted next Fall.		
Greenville	We accept with a 2.75 GPA	No answer	No answer
Illinois Institute of Technology	We will allow courses taken in the AAT to transfer into our teacher education program. The biggest concern is that students need to complete a B.S. in a subject matter area to be admitted to our teacher ed. program. We offer no undergraduate ed. degrees.	There is no text to quote. These students will need to transfer in the same way as other transfers	No answer
Illinois Wesleyan	No answer	No answer	No answer
Judson	No answer	No answer	No answer
Knox	None at this time.	None at this time.	We have only just begun discussing this policy.

Lake Forest	None	We do not accept these degrees any differently than we accept associates of arts degrees. These students are admitted as transfer students and their transcripts are evaluated on an individual basis.	We are not in the process of doing this.
Lewis University	No answer	No answer	Fall, 2007
Loyola	No answer	No answer	No answer
MacMurray	No answer	No answer	July 31, 2006
McKendree	Policies are under development. However, AAT transfer students will be treated the same as other associate degree transfer to McKendree College with regard to acceptance of transfer coursework.	Catalog description included.	Anticipated implementation for Fall 2006 semester.
Millikin	For students wishing to transfer to our institution with an AAT degree, their degree is first evaluated by the registrar's office. Sequential and non-sequential requirements for Gen Ed. coursework at Millikin are complete upon transfer of an AAT degree. An academic advisor in the desired major reviews the transcript for coursework leading to a four year degree.	Catalog description included.	No answer
Monmouth	Focused program	Being created now. New wording will go into next Fall catalog	Next Fall catalog
North Central	No answer	No answer	No answer
Principia	We don't certify in any of the above areas presently. Students who transfer in from cc go through a transcript evaluation process. We look at each course to see if it matches our courses. If so, they receive credit for those courses. However, because we are a religious based college, we don't have many transfer students from our local area. The majority of our students come from other states and countries.	No answer	No answer
Quincy	We have only seen 2 drafts of proposed AAT from one institution and feel that it would be premature to comment in a blanket statement regarding all proposed AATs as we	See a	See a

	presume that just as each institution must designation its own articulation agreement so it would be with these documents....		
Roosevelt	No answer	No answer	September 2006
St. Xavier	Coursework will be accepted as transfer credit, but it will be evaluated on a course by course basis. We will not accept the AAT as part of an articulation.	No answer	No answer
Trinity Christian	We accept as any other AA degree. The degree allows a deduction in general ed. requirements	We have no specific policy regarding acceptance of the AAT.	No answer
Trinity Int. U.	No answer	No answer	No answer
