Press Release
Columbia, IL

The Illinois Department of Transportation today announced that the bridge carrying Illinois Route 158 over Illinois Route 3 at Columbia will be reduced to one lane beginning Monday, August 30, 2010. Traffic signals will be in place to direct motorists. This bridge lane closure is required to allow the contractor to replace the bridge in stages. When the first stage is complete, traffic will be opened back to 2 lanes while the remainder of the bridge is replaced. All work should be completed by December 31, 2011. The contractor on this project is The Kilian Corporation of Mascoutah, Illinois. Cindy Travis Mueller is the Supervising Field Engineer for the Illinois Department of Transportation in this area. If you have any questions concerning this project, you may contact her at 618/346-3352.
