Section 469.10 Definitions

Terms defined in Section 16-128A of the Public Utilities Act [220 ILCS 5/16-128A] shall have the same meaning for purposes of this Part as they have under Section 16-128A of the Public Utilities Act, unless further defined in this Part. The following terms, when used in this Part, shall have the meaning ascribed to them in this Section.

"Act" means the Public Utilities Act [220 ILCS 5].

"Applicant" means a person or entity that files an application with the Illinois Commerce Commission (Commission) requesting certification pursuant to Section 16-128A of the Act to install, maintain, or repair electric vehicle charging stations.
"Certificate holder" or "Commission-certified IMR" means a person or entity that has received certification pursuant to this Part.

"Commercial purposes" means use by any person of an electric vehicle charging station not located on his or her own premises.

"Directly supervised" means that there is a qualified person on-site available for consultation and review of the installation, maintenance, or repair work of electric vehicle charging stations performed by apprentices.

"DOL certification of satisfactory completion" means that person has received a nationally recognized and portable Certificate of Completion from a United States Department of Labor (DOL) registered apprenticeship program.

"DOL-registered electrician apprenticeship program" means an electrician apprenticeship training program that is certified by the DOL.

"Electric utility" means

an corporation, company, limited liability company, association, joint stock company or association, firm, partnership or individual, their lessees, trustees, or receivers appointed by any court whatsoever that owns, controls, operates or manages, within Illinois, directly or indirectly, for public use, any plant, equipment or property used or to be used for or in connection with, or owns or controls any franchise, license, permit or right to engage in the production, storage, transmission, sale, delivery or furnishing of heat, cold, power, electricity; or a public utility, as defined in Section 3-105 of the Act, that has a franchise, license, permit or right to furnish or sell electricity to retail customers within a service area. [220 ILCS 5/3-105 and 16-102]

"Electric vehicle" means a battery-powered electric vehicle operated solely by electricity or a plug-in hybrid electric vehicle that operates on electricity and gasoline and has a battery that can be recharged from an external source. [20 ILCS 627/10]

"Electric vehicle charging station" means any facility or equipment that is used to charge a battery or other energy storage device of an electric vehicle. [220 ILCS 5/16-128A(d)]
"Entity" means an organization, institution, or being that has its own existence for legal or tax purposes and is involved in the business of installing, maintaining or repairing electric vehicle charging stations.

"IMR" or "IMRs" means electric vehicle charging station installer(s), maintainer(s), or repairer(s).

"Install", "installing", or "installation" means the major activities and actions required to connect, in accordance with applicable building and electrical codes, the conductors, connectors, and all associated fittings, devices, power outlets, or apparatuses mounted at the premises that are directly involved in delivering energy from the premises’ electrical wiring to the electric vehicle charging station.

"Maintain", "maintaining", or "maintenance" means the major activities and actions required to keep in an appropriate, safe condition and operation the conductors, connectors, and all associated fittings, devices, power outlets, or apparatuses mounted at the premises that are directly involved in delivering energy from the premises’ electrical wiring to the electric vehicle charging station.

"Qualified person" means a person who performs installation, maintenance or repair of electric vehicle charging stations and who has completed an apprenticeship as a journeyman electrician from a United States Department of Labor Registered Electrician Apprenticeship and Training Program and received a certification of satisfactory completion.

"Repair" or "repairing" means the major activities and actions required to restore to a safe, sound condition and operation the conductors, connectors, and all associated fittings, devices, power outlets, or apparatuses mounted at the premises that are directly involved in delivering energy from the premises’ electrical wiring to the electric vehicle charging station.

"Retail customer" means

a single entity using electric power or energy at a single premises and that either is receiving or is eligible to receive tariffed services from an electric utility or that is
served by a municipal system or electric cooperative; or

an entity that, on December 16, 1997, was receiving electric service from a public utility and was engaged in the practice of resale and redistribution of such electricity within a building prior to January 2, 1957, or was providing lighting services to tenants in a multi-occupancy building, but only to the extent such resale, redistribution or lighting service is authorized by the electric utility’s tariffs that were on file with the Commission on December 16, 1997. [220 ILCS 5/16-102]. For purposes of this Part, a "retail customer" includes that retail customer’s employees, officers, and agents. [220 ILCS 5/16-128A(d)]

"Self-installer” means an individual who (i) leases or purchases an electric vehicle charging station for his or her own personal use and (ii) installs an electric vehicle charging station on his or her own premises without the assistance of any other person. [220 ILCS 5/16-128A(d)]

Section 469.20 Applicability

After the initial compliance date specified in this Part, with the exception of a self-installer, all persons or entities that install, maintain, or repair electric vehicle charging stations in the State of Illinois shall be certified by the Commission under this Part prior to installing, maintaining, or repairing electric vehicle charging stations in the State of Illinois.

Section 469.30 Application Procedures

a) The applicant shall file its application for certification under this Part and provide all information required by this Part.

b) Contents of documents filed by applicants shall be consistent with Subpart B of the Commission’s "Rules of Practice" (83 Ill. Adm. Code 200).

c) Applications for certification shall be submitted with the applicable fee payment.

d) Applications for certification under this Part shall be filed with the Chief Clerk of the Commission and shall be verified by a corporate officer pursuant to Section 200.130 of the Commission’s "Rules of Practice" (83 Ill. Adm. Code 200.130).
Section 469.40  Required Application Information

Applications for certification under this Part shall contain the following information:

a) The applicant’s name (including d/b/a, if any), street address, telephone number, facsimile number, website, and e-mail address. The applicant shall provide the business name as that name appears on its Illinois Secretary of State’s registration, if applicable. The applicant shall provide assumed business names if and only if those names are registered with the Illinois Secretary of State’s. This information shall be kept current and any change shall be filed with the Chief Clerk of the Commission within 15 days after the change occurs.

b) Contact information including names, addresses, telephone numbers, facsimile numbers, and e-mail addresses, for persons or entities responsible for issues related to processing the application.

c) Applicant’s Federal Employer Identification Number (FEIN) or Taxpayer Identification Number (TIN), as applicable.

d) A certification that the applicant will comply with informational and reporting requirements established under this Part.

e) A statement that the applicant agrees to accept service by electronic means as provided for in Section 200.1050 of the Commission’s "Rules of Practice" (83 Ill. Adm. Code 200.1050).

f) An organizational chart demonstrating the applicant’s corporate structure, including all affiliated companies, if applicable.

g) An exhibit (with any confidential personal information such as a Social Security number redacted) containing an internal corporate organizational chart indicating the position and name of the qualified persons who will perform or directly supervise installations, maintenance, and repair of electric vehicle charging stations to satisfy the requirements of this Part.

h) Copies of the DOL certification of satisfactory completion of a DOL-registered
electrician apprenticeship program for each person whose qualifications are used to satisfy the requirements of this Part.

Section 469.50 Certification Requirements

An applicant shall be certified if its application satisfies the following requirements.

a) The applicant certifies that it will remain in compliance with all applicable laws and regulations and Commission rules and orders including, but not limited to, the requirements of Sections 16-128(a) and 16-128A of the Act and this Part.

b) The applicant certifies that it will ensure that its employees, agents or contractors that install, maintain, or repair electric vehicle charging stations, or the employees, agents or contractors of any entity, agent, or contractor with which it has contracted to perform those functions within the State of Illinois, shall:

1) Comply with applicable building and electrical codes, including those contained in the NEC;

2) Comply with the electric vehicle charging station manufacturer’s installation, maintenance, and repair instructions;

3) Install only electric vehicle charging stations that meet the standards UL2202 - Electric Vehicle (EV) Charging System Equipment, UL2231-1 - Personnel Protection Systems for Electric Vehicle (EV) Supply Circuits: General Requirements, UL2231-2 - Personnel Protection Systems for Electric Vehicle (EV) Supply Circuits: Particular Requirements for Protection Devices for Use in Charging System and UL2594 - Electric Vehicle Supply Equipment, developed by the Underwriters Laboratory, 333 Pfingsten Road, Northbrook, IL 60062;

4) Ensure that all IMR obligations required under this Part and Sections 16-128(a) and 16-128A of the Act are met prior to the placing into, or returning into, use any electric vehicle charging station that the certificate holder installed, maintained, or repaired; and

5) Submit notifications to the servicing electric utility in accordance with the
requirements specified in the applicable tariffs of the servicing electric utility, Section 16-128A of the Act, and this Part.

c) The applicant certifies that it will comply with applicable municipal licensing and bonding requirements to do business in the State of Illinois.

d) The applicant certifies that every installation, maintenance and repair of an electric vehicle charging station will be performed only by:

1) qualified persons, or

2) person(s) enrolled in a DOL-registered electrician apprenticeship program who are directly supervised by a qualified person.

e) The applicant certifies that it is licensed to do business in the State of Illinois.

Section 469.60 Certifications Conditioned Upon Compliance

Each certification issued to an applicant is conditioned upon compliance with the provisions of this Part and Sections 16-128(a) and 16-128A of the Act. Violation of this Part or the Act make the IMR subject to penalties, including certificate suspension, revocation, fines, or a combination of sanctions.

Section 469.70 Annual Recertification and Reporting

a) A certificate holder shall recertify annually to remain in good standing with the Commission. Recertification involves submitting a Recertification Report that includes the information required by this subsection (c) and, for any late reports, any applicable late fees.

b) By April 1 of each year, each certificate holder shall submit a Recertification Report identified with the name of the certificate holder as it appears in the most recent Commission order granting certification under this Part. The report shall be filed with the Chief Clerk of the Commission and shall be verified by a corporate officer pursuant
to Section 200.130 of the Commission’s "Rules of Practice" (83 Ill. Adm. Code 200.130).

c) The Recertification Report shall contain the following information:

1) A statement certifying that the certificate holder continues to maintain the required qualifications for the service authority granted in its certificate;

2) A list of all persons who installed, maintained or repaired vehicle charging stations on behalf of the certificate holder during the previous calendar year and the date the certificate holder first provided each such person’s qualifications;

3) A current list of qualified persons and the date the certificate holder provided supporting documentation of qualification for each such person. For persons for whom the certificate holder had not previously provided documentation of qualification, the certificate holder shall provide for each person a copy of each DOL certificate of satisfactory completion;

4) A statement confirming the certificate holder’s continuing compliance with all requirements set forth in this Part and Sections 16-128(a) and 16-128A of the Act; and

5) The number of electric vehicle charging stations, classified by customer class and charging capacity, that the certificate holder installed during the prior calendar year in each electric utility’s service area.

d) The report shall not contain customer identifying information.

e) All reports shall provide the name, telephone number, email address and mailing address of at least one person designated by the certificate holder to address questions pertaining to the report.

f) A certificate holder that does not submit a Recertification Report within 30 days of the April 1st annual recertification date is subject to late fees as specified in Section
Section 469.80  Complaint Procedures

Section 469.90  Commission Oversight

a) Upon complaint or on the Commission’s own motion, the Commission may investigate any and all activities subject to this Part or Sections 16-128(a) and 16-128A of the Act, including violations of this Part or of Sections 16-128(a) and 16-129A of the Act.

b) If, after notice and hearing, the Commission determines that an IMR is installing, maintaining, or repairing electric vehicle charging station facilities without Commission certification, the Commission shall issue penalties for noncompliance.

Section 469.100  Maintenance of Records

The certificate holder shall agree to adopt and follow rules and procedures ensuring that documentation regarding installing, maintaining, and repairing electric vehicle charging stations are retained for a period of not less than three calendar years after the calendar year in which they were created. These records shall be made available by request to the Commission or its Staff on a confidential and proprietary basis.

Section 469.110  Fees

a) The following fees shall apply:

1) Application for certification $50

2) Late filing annual recertification report (minimum $100) $10/day

3) Returned check fee $25
b) Application and recertification fees are nonrefundable.

c) All fees under this Part shall be paid by certified check, cashier’s check, or money order made payable to "Illinois Commerce Commission/IMR Certification". Each payment shall be accompanied by documentation identifying what fee is being paid, the IMR’s name, address, and Federal Employer Identification Number (FEIN)/Taxpayer Identification Number (TIN).

Section 469.120 Obligations of Electric Utilities, IMRs and Retail Customers

a) Electric Utilities

1) Each electric utility shall file a tariff or tariffs with the Commission setting forth the documentation that each IMR involved with the installation of an electric vehicle charging station in the electric utility’s service territory must provide to an electric utility. The electric utility’s tariffs shall require the following information from IMRs:

A) The name and contact information of the certificate holder;

B) The name and address of the retail customer on whose behalf the electric vehicle charging station is installed;

C) The location of each electric vehicle charging station that the IMR plans to install;

D) The intended date of the installation and number of charging stations planned for installation;

E) The actual completion date of the installation and number of charging stations actually installed;

F) The name of the qualified person(s) who performed the installation;
G) The load and technical specifications of the charging station(s); and

H) Whether the charging station is for personal or commercial use.

2) The electric utility’s tariffs shall require the following information from each retail customer who owns, uses, operates or maintains an electric vehicle charging station:

A) the location of the electric vehicle charging station;

B) the name, address, and electric utility account number of the retail customer who owns, uses, operates, or maintains the electric vehicle charging station;

C) the completion date of the installation of the electric vehicle charging station; and,

D) a certification that the electric vehicle charging station was installed by the retail customer as a self-installer, or evidence that the electric vehicle charging station was installed by a Commission-certified IMR.

3) Each electric utility shall ensure that documentation regarding installations of electric vehicle charging stations are retained for a period of not less than three calendar years after the calendar year in which they were created.

4) Each electric utility shall ensure that documentation regarding conversion of self-installed installations of electric vehicle charging stations to commercial use are retained for a period of not less than three calendar years after the calendar year in which they were created.

b) Electric Vehicle Charging Station Installers, Maintainers and Repairers
1) IMRs shall submit to the servicing electric utility the information specified in subsection (a)(1) and all information required by the servicing electric utility’s tariff or tariffs.

2) Prior to installation, the IMR shall provide notice in writing to the servicing electric utility of its plans to install an electric vehicle charging station; and

3) Within thirty days after the installation date, the IMR shall provide notice that the installation has been completed.

c) Retail Customers

1) Within thirty days of the installation date, retail customers shall submit to the servicing electric utility the information specified in subsection (a)(2) and all information required by the servicing electric utility’s tariff or tariffs.

2) If a retail customer self-installs an electric vehicle charging station and elects to convert the electric vehicle charging station from personal use to commercial purposes, then the retail customer shall take the following actions:

   A) Have a Commission-certified IMR inspect the electric vehicle charging station to evaluate the adequacy and safety of the electric vehicle charging station and provide the results of the inspection to the servicing electric utility; and

   B) Provide notice to the servicing electric utility at least thirty days in advance of the customer’s plans to use the electric vehicle charging station for commercial purposes.

Section 469.130 Initial Compliance Date

The initial date for compliance with this Part is January 1, 2014.
