TO THE GOVERNOR AND MEMBERS OF THE 99th GENERAL ASSEMBLY

It is an honor to submit the Illinois Community College Board 2013-2014 Biannual Report. The Illinois Community College Board (ICCB) is committed to providing high-quality, accessible, and cost-effective educational opportunities. The ICCB oversees the 48 public community colleges in the 39 community college districts and has statutory responsibility for the statewide planning and coordination of the community college system. While the individual community college districts vary in terms of demographics, resources, and educational priorities, their status as locally governed institutions allows them to address varying local needs efficiently and effectively. The Illinois Community College System is the third largest in the nation, serving more than one million students each year.

The Biannual Report represents a summary of the Illinois Community College Board and the services it provides. This report is submitted in compliance with 110 ILCS 805/2-10 and contains an overview of the Board’s activities during calendar years 2013 and 2014, including:

- A summary of the Illinois community college system;
- Overview of Illinois community college system funding;
- Tuition rates by individual community college district;
- Summary of comprehensive instructional programs;
- Illinois Community College Board’s partnerships;
- Illinois Community College Board’s continuous improvements;
- Update on adult education programs;
- Illinois Community College Board efforts to link education, workforce, and economic development;
- Illinois community college system economic impact; and
- Illinois community college system enrollments.

RESPECTFULLY SUBMITTED,

Dr. Karen Hunter Anderson, PhD
Executive Director, Illinois Community College Board
