BEFORE THE

ILLINOIS COMMERCE COMMISSION

PUBLIC UTILITY REGULAR OPEN MEETING

Wednesday, November 26, 2019

Chicago, Illinois

Met pursuant to notice at 10:30 A.M.,
at 160 North LaSalle Street, Chicago, Illinois.

PRESENT:

CARRIE ZALEWSKI, Chairwoman

MARIA BOCANEGRA, Commissioner

BRIEN J. SHEAHAN, Commissioner (telephonically)

SADZI M. OLIVA, Commissioner

D. ETHAN KIMBREL, Commissioner

SULLIVAN REPORTING COMPANY, by
BRAD BENJAMIN, CSR
LICENSE NO. 084-004805
CHAIRWOMAN ZALEWSKI: Hi. I have 10:30. I'm going to go ahead and get started.

Good morning. Are we ready to proceed in Springfield?

CHIEF CLERK: Yes. We are.

CHAIRWOMAN ZALEWSKI: Thank you.

Under the Open Meetings Act, I call the November 26th, 2019, Regular Open Meeting to order. Commissioners Bocanegra, Oliva, and Kimbrel, are with me in Chicago. We have a quorum.

Commissioner Sheahan is seeking to participate by phone. Commissioner Sheahan, are you with us?

COMMISSIONER SHEAHAN: I am. Thank you.

CHAIRWOMAN ZALEWSKI: Thank you.

Are there any objections to allowing Commissioner Sheahan to participate by phone?

(No response.)

CHAIRWOMAN ZALEWSKI: Hearing none, Commissioner Sheahan is granted permission to participate.

We have no requests to speak from
members of the public. However, with us today, we have Charles Matthews, President and CEO of Peoples Gas and North Shore Gas Company. Under Item O-1, we have a report by Mr. Matthews on the status of compliance with the Order of Docket 14-0496. For logistical purposes we will start our today's agenda with that item.

Mr. Matthews, please proceed. Thank you.

MR. MATTHEWS: Good morning, Chairman, Commissioners. It's great to be here to provide our annual update to the Commission.

CHIEF CLERK: I'm sorry. We can't hear him in Springfield.

MR. MATTHEWS: Sorry.

Okay. Good morning. This is the fifth year we've provided this update since WEC Energy Group acquired Peoples Gas and North Shore Gas in 2015. And I can't believe it's been that long. It seems like just yesterday. But I am glad to say we've made great strides on many fronts since then. And I'm pleased to say we remain in full compliance
with all of the conditions in the Commission's order authorizing the merger.

Before I tell you about what's happening at Peoples Gas and North Shore Gas, I'd like to mention a few things at the corporate level. Earlier this year WEC Energy Group announced a new methane reduction goal across all of its energy companies. This initiative will reduce methane emissions from the company's natural gas distribution lines by 30 percent by the year 2030 from a 2011 baseline. Peoples Gas will play a critical role in meeting that target through its System Modernization Program, which I'll tell you more about in a minute.

I also want to mention that Forbes magazine recently named WEC Energy Group as one of the nation's best employers for diversity. And I'll tell you more about our record on diversity here in Illinois later.

Finally, WEC Energy Group was named among the top 100 corporate citizens by Corporate Responsibility Magazine. That selection was based on the company's record on energy and the environment,
governance, employee relations, human rights, financial performance, philanthropy, and community support.

Now, let me tell you about what's happening here in Illinois. It's been a busy year for us, and I have a lot to report. After my remarks, I will be happy to answer any questions you might have.

As I did last year, I'd like to start by talking about safety. The safety of our customers, employees, and the public is always our top priority. And I'm pleased to tell you we are well on our way to enhancing the safety and reliability of our infrastructure through our System Modernization Program.

Through SMP we are converting our system from low to medium pressure. About half of our system is currently medium pressure, and we're working to upgrade the remainder. As you know, medium-pressure systems are safer because they include individual regulators to reduce pressure at each meter, external shut-off valves that first
responders can access in emergencies, and excess-flow valves to stop the flow of natural gas in the event of a leak.

We're also replacing outdated cast and ductile iron gas mains with modern plastic piping. Earlier this year we removed the oldest section of gas pipe in our system. It had been installed under Orleans Street in 1859. That gives you a sense of the urgency and importance of SMP.

Last year we put into service more than 95 miles of new natural gas main. We also installed 7,800 service lines and moved more than 16,000 meters from inside to outside to enhance safety. This year we are on pace to install more than 90 miles of gas main.

In the meantime, we utilize safety procedures, training, and monitoring technology to keep the older portions of our delivery system working safely. That includes slam-shut valves to protect against overpressurization.

As of today, about 28 percent of the total work planned for SMP has been completed. We're
currently working in various neighborhoods throughout the city. Construction is wrapping up in South Edgebrook; Stony Island Park; and Morgan Park, west of the expressway. Meanwhile, construction continues in several other neighborhoods including Mayfair, which was the highest ranked community on our most recent risk assessment.

SMP is already making a significant impact in terms of safety. Since 2010 SMP improvements have contributed to a 58 percent decrease in the number of leaks in our delivery system.

As you know, early next year we will receive the results of an independent engineering study by Kiefner and Associates on the condition of our delivery system. I commend the Commission for its leadership on this initiative. We look forward to using the Kiefner study to guide the next phase of SMP.

I'd now like to talk a little more about what we're doing to improve customer service and enhance our customer experience.
Since I spoke to you last year, we finished installing automatic reading devices on our meters at North Shore Gas. The project has eliminated the need for estimated bills, providing customers a more timely reporting of their usage.

As you may remember, last year I spoke about substantial investments in our Customer Information System. Customers are now seeing the benefits of those investments, whether they're interacting with us online or through our call center.

Earlier this month we launched a mobile app to make it more convenient for our customers to manage their accounts. We designed the app with our customers in mind. In fact, during the design process we gathered direct input from customers and employees through user-experience testing and a pilot program. Additionally, we continue to utilize social media to communicate with our customers to push out safety and energy-saving tips and answer concerns posted on Facebook and Twitter.
We also continue our highly successful We Care program in which we follow up with every customer after service appointments. So far this year we've spoken directly to more than 60,000 customers, and more than 90 percent of them were satisfied with the service they received. That percentage has remained consistent since we started the program several years ago, and we're very proud of that record.

To better assist our low-income customers, we significantly expanded the reach of our Share the Warmth assistance program last year by suspending the requirement that customers make a matching payment to receive a grant. The results have been dramatic. For the second year in a row, we've awarded Share the Warmth grants to 14,000 customers, more than double the number awarded in previous years. For 2020 we've allocated $3 million for Share the Warmth.

I also would like to mention energy efficiency. Since we implemented our energy efficiency program eight year ago, we've awarded more
than $100 million dollars in incentives to help
customers make energy-saving upgrades to their homes
and businesses. This year alone we're projecting to
award more than $19 million in incentives.

Improvements made through the programs have resulted
in overall savings of over 70 million therms of
natural gas for our customers -- enough to serve
59,000 homes per year.

We've also been working with our
policy sector of customers to increase their
participation in our energy efficiency program.

Since 2017, the Chicago Transit Authority has
received $250,000 in incentives to make upgrades that
reduced usage by more than 100,000 therms. And the
Chicago Public Schools has received more than
$250,000 in incentives and saved more than 400,000
therms.

Now, let me give you a quick snapshot
of our workforce and training initiatives. Peoples
Gas and North Shore Gas continue to be a major source
of employment and economic opportunity. As I've
mentioned in the past, we are in the midst of a large
wave of retirements. Over the next three years we expect 16 percent of our employees will retire. Combined with our System Modernization Program, these retirements have created opportunities for a new generation of workers.

Our union employee workforce, for instance, is about 1,100 today. That compares with about 900 before we began SMP in 2011. SMP is also responsible for another 1,000 full-time contractor jobs.

Many of the talented new employees we've hired in recent years are graduates from our Utility Workers Military Assistance Program for veterans. As you know, the program provides coursework and training at the Dawson Technical Institute at Kennedy King College to prepare participants for utility careers. It's made possible through a close partnership with Gas Workers Local 18007. Since 2012 we've hired more than 430 veterans who graduated from the program.

We've also hired 15 new employees through the CONSTRUCT Program, a partnership between
utilities, labor, and area social service organizations. And we've hired four recent graduates from our vocational training partnership with Chicago Public Schools.

Our increased hiring has allowed us to further diversify our workforce. 75 percent of our hires in the past two years have been diverse employees. And our Illinois workforce as a whole is currently 56 percent diverse. We're proud that our workforce looks like the communities we serve.

But we're equally proud of the diversity of the suppliers with whom we do business. In 2018 we spent more than $125 million on diverse suppliers for the second year in a row, up from $69.8 million in 2016. Overall spending with diverse suppliers represented more than 21 percent of total procurement for the first time ever in 2018. This is a significant milestone for us and indicates our Supplier Diversity Program has become fully integrated into our procurement process.

82 percent of our diverse spending in 2018 was with local companies. That amounts to more
than $102 million spent on diverse businesses based right here in Illinois. Along with our System Modernization Program our supplier diversity initiatives have become a significant economic engine for our local economy and the communities we serve.

Supplier diversity remains a key corporate value for us. And I'm very happy to tell you we're on track to set a new record in 2019.

Turning to community outreach and corporate citizenship, I am very proud of the contributions our company and employees make to the communities we serve. Last year our employees collectively volunteered more than 8,200 hours of service with our community partners.

The volunteer spirit carried forward into 2019. In April, Peoples Gas set a company record for volunteers at a single event at our annual Commitment to Community Day. The group of 200 volunteers spent the day refurbishing the Maria Shelter for homeless women and children in Englewood. More recently North shore Gas employees held their annual home and honor day to rehab housing for...
veterans and their families in North Chicago.

In addition to opening their hearts, our employees opened their wallets. Last year Peoples Gas and North Shore Gas employees raised and donated nearly $500,000 to charitable causes. That was in addition to the nearly $4.8 million that Peoples Gas and North Shore Gas contributed directly to our community partners in the areas of the arts, neighborhood development, education, human services, health, and environment.

So, in summary, we continue to make tremendous progress at Peoples Gas and North Shore Gas since the companies were acquired by WEC Energy Group four years ago. We look forward to continuing to work with the Commission and all of our stakeholders in 2020.

I thank you for this opportunity to come once again this year and share what I believe is great news and news we're proud of.

Thank you.

CHAIRWOMAN ZALEWSKI: Thank you, Mr. Matthews.

We appreciate the update.
Do you -- do any Commissioners have any questions?

(No response.)

CHAIRWOMAN ZALEWSKI: No?

Thank you very much. We appreciate it.

Under our Public Utility Agenda, there are edits to the October 30th, 2019, Regular Open Meeting Minutes.

Are there any objections to approving the Minutes as edited?

(No response.)

CHAIRWOMAN ZALEWSKI: Hearing none, the Minutes are approved.

Under Electric items, Item E-1 concerns Docket 17-0562, which is an application for certification to install Distributed Generation Facilities in Illinois. The Order denies the application, finding that the applicant did not demonstrate compliance with the requirements despite the repeated requests of Commission Staff to cure the deficiencies.
Are there any objections to approving the Order?

(No response.)

CHAIRWOMAN ZALEWSKI: Hearing none, the Order is approved.

Item E-2 concerns Docket 19-0966, which is an application for certification to install Distributed Generation Facilities in Illinois. The Order grants the application, finding that the applicant has demonstrated the necessary requirements.

Are there any objections to approving the Order?

(No response.)

CHAIRWOMAN ZALEWSKI: Hearing none, the Order is approved.

Item E-3 concerns Docket 18-1478, which is a complaint against MidAmerican for alleged overbilling by the City of Marseilles. The Order finds that MidAmerican was acting within the terms of the agreement with the City and that the disputed costs were properly assessed. The Order denies the
Are there any objections to approving the Order?

(No response.)

CHAIRWOMAN ZALEWSKI: Hearing none, the Order is approved.

Item E-4 concerns Docket 19-0658, which is a complaint against ComEd as to change of electric service provider. ComEd has filed a Motion to Dismiss the complaint. The complainant requests that the Commission allow the complainant to amend the complaint.

Section 200.140 of the Commission rules allows the Commission to allow amendments to the pleadings at any time as just and reasonable. The Commission finds that it will be just and reasonable to allow the amendments, and the Motion to Dismiss shall, thus, be denied at this stage.

Are there any objections to allowing the complainant to amend his complaint and deny the Motion to Dismiss?

(No response.)
CHAIRWOMAN ZALEWSKI: Hearing none, the complainant is granted permission to amend his complaint, and the Motion to Dismiss is denied.

Item E-5 concerns Docket 19-0387, which is ComEd's annual formula rate update and revenue requirement reconciliation. This docket will be held for a later disposition.

Item E-6 concerns Docket 19-0436, which is Ameren's annual formula rate update and revenue requirement reconciliation. They have two Commission actions under this item: First, we have approval of formula rate update and revenue requirement reconciliation, which we will hold for later disposition. Second, we have a request for oral argument.

The AG requests oral argument pursuant to Section 9-201(c) of the Public Utilities Act, regarding the AG's exceptions on two issues: First, the amortization of excess deferred income taxes. And, second, the treatment of amortization of excess deferred income taxes with respect to construction work in progress.
Are there any objections to granting the Request for Oral Argument?

(No response.)

CHAIRWOMAN ZALEWSKI: Hearing none, the Request for Oral Argument is granted.

The oral argument will be held on December 3rd at 1:00 p.m. A due notice of the oral argument will be issued.

Item E-7 concerns Docket 19-0580, which is ComEd's annual energy efficiency formula rate update and revenue requirement reconciliation. All the parties in this proceeding reached an agreement regarding all contested issues in the docket. The Order accepts the stipulated agreement and approves the 2020 application year net energy efficiency revenue requirement subject to the adjustments agreed to by the parties.

Are there any objections to approving the Order?

(No response.)

CHAIRWOMAN ZALEWSKI: Hearing none, the Order is approved.
Item E-8 concerns Docket 19-0734, which is MidAmerican's petition for approval of its energy efficiency plan. This order approves MidAmerican's energy efficiency plan and finds the plan to be in compliance with Section 8-408 of the Public Utilities Act.

Are there any objections to approving the Order?

(No response.)

CHAIRWOMAN ZALEWSKI: Hearing none, the Order is approved.

Items E-9 concerns Docket 18-1774, which is a proceeding initiated by the Commission for the purpose of collecting responses from ARES in the ComEd territory, regarding whether and how PJM interconnection credits will affect the rates paid by ARES supply customers. Since Commission Staff has aggregated the information obtained from the ARES and all matters in the proceeding have been resolved, the staff has filed a motion to dismiss.

Are there any objections to granting the Motion to Dismiss?
CHAIRWOMAN ZALEWSKI: Hearing none, the Motion is granted.

Item E-10 concerns Docket 19-0631, which is Ameren's request to reconcile revenue under its Rider CGR, Customer Generation Rebate, and Rider CGC, or Customer Generation Charge, in the calendar year of 2018. The Order approves the reconciliation as set in the Appendix to the Order, finding the costs during the reconciliation period were prudently incurred and approves the projections for 2019.

Are there any objections to approving the Order?

(No response.)

CHAIRWOMAN ZALEWSKI: Hearing none, the Order is approved.

Item E-11 concerns Docket 19-0869, which is Energy Now Solutions' Petition to Cancel its certificate to operate as an agent, broker, or consultant. The Order cancels the certificate and requires that the petitioner file its Part 454 reports from 2014 to 2016.
Are there any objections to approving the Order?

(No response.)

CHAIRWOMAN ZALEWSKI: Hearing none, the Order is approved.

Items E-12 through E-23 concern applications for petitions to install energy efficiency measures in Illinois. The Orders grant the certificates, finding that the applicants meet the requirements.

Are there any objections to considering these items together and approving the Orders?

(No response.)

CHAIRWOMAN ZALEWSKI: Hearing none, the Orders are approved.

Moving on to our Gas items, Item G-1 concerns Docket 18-1733, which is the Consumer Gas's request to reconcile revenue under the gas adjustment charges in calendar year 2018. The Order approves the reconciliation as set in the Appendix to the Order, finding that the costs during the
reconciliation period were prudently incurred. Are there any objections to approving the Order?

(No response.)

CHAIRWOMAN ZALEWSKI: Hearing none, the Order is approved.

Item G-2 concerns Docket 18-1739, which is North Shore Gas's request to reconcile revenue under the gas adjustment charges in calendar year 2018. The Order approves the reconciliation as set in the Appendix to the Order, finding that the costs during the reconciliation period were prudently incurred. Are there any objections to approving the Order?

(No response.)

CHAIRWOMAN ZALEWSKI: Hearing none, the Order is approved.

Item G-3 concerns Docket 18-1740, which is the Peoples Gas's request to reconcile revenue under the gas adjustment charges in the calendar year 2018. The Order approves the
reconciliation as set in the Appendix to the Order, finding that the costs during the reconciliation period were prudently incurred.

Are there any objections to approving the Order?

(No response.)

CHAIRWOMAN ZALEWSKI: Hearing none, the Order is approved.

Items G-4 and G-5 concern Entrust Energy's requests for proprietary treatment of information in the petitioner's annual therm and annual call center reports. The Order grants the protection, finding that the information is highly proprietary and confidential.

Are there any objections to considering these items together and approving the Orders?

(No response.)

CHAIRWOMAN ZALEWSKI: Hearing none, the Orders are approved.

Item G-6 concerns Docket 19-0545, which is the Illinois Gas Company and IGC Holdings
application for approval of a corporate
reorganization and agreements related to the
corporate reorganization. The Order approves the
proposed reorganization and associated agreements and
finds that it complies with the requirements of
Section 7-204 of the Public Utilities Act.

Are there any objections to approving
the Order?

(No response.)

CHAIRWOMAN ZALEWSKI: Hearing none, the Order
is approved.

Item G-7 concerns Docket 19-0761,
which is MidAmerican's request to reconcile revenue
under the Gas Utility Assessment Rider from
August 2018 to July 2019. The Order approves the
reconciliation as set in the Appendix to the Order,
finding that the costs during the reconciliation
period were prudently incurred.

Are there any objections to approving
the Order?

(No response.)

CHAIRWOMAN ZALEWSKI: Hearing none, the Order
is approved.

Item G-8 concerns consolidated Docket 19-0784 and -0785, which is Peoples Gas's and North Shore Gas's requests to reconcile revenue under the Rider ICTA, or Invested Capital Tax Adjustment, in the calendar year 2018. The Order approves the reconciliation as set in the Appendix to the Order, finding that the costs during the reconciliation period were prudently incurred.

Are there any objections to approving the Order?

(No response.)

CHAIRWOMAN ZALEWSKI: Hearing none, the Order is approved.

Item G-9 concerns consolidated Docket 19-0860 and -0861, which is Peoples Gas and North Shore Gas's request to reconcile revenue under the Rider PUAC, or Public Utility Assessment Charge, in the calendar year 2018. The Order approves the reconciliation as set in the Appendix to the Order, finding that the costs during the reconciliation period were prudently incurred.
Are there any objections to approving the Order?

(No response.)

CHAIRWOMAN ZALEWSKI: Hearing none, the Order is approved.

Item G-10 concerns Docket 19-0885, which is Consumer Gas's request to enter a lease of office space in -- with an affiliated interest. The Order gives Consumer Gas the authority to enter into the lease agreement.

Are there any objections to approving the Order?

(No response.)

CHAIRWOMAN ZALEWSKI: Hearing none, the Order is approved.

Item G-11 concerns Docket 19-0996, which is Ameren's request to waive standard information requirements to allow the independent certified public auditors to use the currently effective Guide for Prospective Financial Information by the American Institute of Certified Public Accountants rather than the previous version of the
guide. This audit is in anticipation of a revised tariff schedule for a future rate case. The Order approves the request.

Are there any objections to approving the Order?

(No response.)

CHAIRWOMAN ZALEWSKI: Hearing none, the Order is approved.

Under Telecommunications items, Item T-1 concerns Docket 19-0843, which is an application for a certificate of authority to provide resold interexchange telecommunications service in Illinois. The Order grants the certificate, finding that the applicant meets the requirements.

Are there any objections to approving the Order?

(No response.)

CHAIRWOMAN ZALEWSKI: Hearing none, the Order is approved.

Item T-2 concerns Docket 19-0979, which is an application for authority to operate as a wireless reseller of telecommunications services in
Illinois. The Order grants the Certificate, finding that the applicant meets the requirements. Are there any objections to approving the Order? (No response.)

CHAIRWOMAN ZALEWSKI: Hearing none, the Order is approved.

Under Water and Sewer items, Item W-1 concerns Docket SRM 19-021, which is the Illinois-American Water's petition to revise tariffs to comply with the Commission's Order in Docket 18-1830. The Order suspends the filing so the Commission can conduct a hearing about the tariff changes. Are there any objections to suspending the filing? (No response.)

CHAIRWOMAN ZALEWSKI: Hearing none, the filing is suspended.

Item W-2 concerns Docket 19-0273, which is Illinois-American Water's request to reconcile revenue under purchased water and purchased
sewage treatment surcharges in the calendar year of 2018. The Order approves the reconciliation as set in the Appendix to the Order, finding that the costs during the reconciliation period were prudently incurred.

Are there any objections to approving the Order?

(No response.)

CHAIRWOMAN ZALEWSKI: Hearing none, the Order is approved.

Item W-3 concerns Docket 19-1029, which is Aqua Illinois' request for Special Permission to file a revised tariff for the historical-based sewer consumption charge tariff on less than 45 days' notice. This will allow Aqua to mitigate overbilling for customers that were subject to lead advisory actions on sewer service charges in the Village of University Park.

The filing will allow Aqua to charge University Park customers who are subject to a lead advisory based on their actual water usage from December 2018 to March 2019 or their average measured
December 2018 through March 2019 water usage, whichever is less, rather than just their actual usage alone.

Are there any objections to granting special permission?

(No response.)

CHAIRWOMAN ZALEWSKI: Hearing none, the permission is granted.

Are there any objections to approving the Order?

(No response.)

CHAIRWOMAN ZALEWSKI: Hearing none, the Order is approved.

We have one Petition for Rehearing. Item PR-1 concerns Docket 18-1641, which is a
complaint against ComEd regarding the issue of overbilling a deceased individual. The administrative law judge recommends that the Commission deny the application because the complainant presented no new evidence or new arguments to support his request.

Are there any objections to denying --

JUDGE TEAGUE KINGSLEY: Madam Chairman, I think you mentioned ComEd, but it's People's Gas.

CHAIRWOMAN ZALEWSKI: Yes. You are correct.

Thank you -- thank you for correcting me.

So this is Item PR-1, which is Docket 18-1641. It's a complaint against People's Gas regarding an issue overbilling. So the administrative law judge recommends the Commission deny the application.

Are there any objections to denying the Application for Rehearing.

(No response.)

CHAIRWOMAN ZALEWSKI: Hearing none, the Application for Rehearing is denied.

Under Other Business, we have three
items. We already heard from Mr. Matthews' report; therefore, we will move on to Item 0-2. Item 0-2 concerns approval of batches, contracts, and confirmations under the Illinois Adjustable Block Program.

Are there any objections to approving the procurement administrator's submissions?

(No response.)

CHAIRWOMAN ZALEWSKI: Hearing none, the submissions are approved.

Item 0-3 concerns approval of December 2019's solicitation of bids to sell renewable energy credits from new utility-scale wind projects to Ameren, ComEd, and MidAmerican Energy Company. This Order approves the procurement administrator's benchmark methodology for selection of winning bids. Are there any objections to approving the procurement administrator's benchmark methodology?

(No response.)

CHAIRWOMAN ZALEWSKI: Hearing none, the benchmark methodology is approved.
This concludes our Public Utilities Agenda.

Judge Teague Kingsley, do we have any other matters?

JUDGE TEAGUE KINGSLEY: Actually, we have Zero-4 [sic]. It's one more. Sorry. One more item: Zero-4, I think.

CHAIRWOMAN ZALEWSKI: I don't have Zero-4 on my...

Thank you. Hold on a second. Okay.

My apologies. Thank you.

So Item O-4 is a December 2019 solicitation of bids to sell renewable energy credits from Low-income Community Solar Pilot projects. A vote pursuant to Section 16-111.5 of the Public Utilities Act. An approval of procurement administrator's benchmark methodology.

Are there any objections to approving the procurement administrator's benchmark methodology?

(No response.)

CHAIRWOMAN ZALEWSKI: Hearing none, the
benchmark methodology is approved. Thanks again, Judge Teague Kingsley.

Do any of the Commissioners have any other business to discuss?

(No response.)

CHAIRWOMAN ZALEWSKI: I would just like to wish Christy George, our new Executive Director, a warm welcome. She started on November 16th. We're very excited to have her here.

And, then, I'd like to wish everyone else a wonderful Thanksgiving. I'm particularly thankful to work with staff and colleagues who are dedicated to the mission of the Agency and serving the people of the State of Illinois. So I'm appreciative of that.

On behalf of myself and the rest of the Commissioners, we wish everyone a safe and happy holiday.

With that, the meeting is adjourned.

Thank you.

(Whereupon the above matter was adjourned.)
